Garbage Service Here Cut In Half

(Continued from page one) about the inadequacy of train service, particularly between Bellefonte and Altoona. He declared that in order to transact business in Altoona under the present schedules, three days are required—one to go to Altoona; a day to complete the mission, and a day to return. He said that a train west in the morning, and a train east late in the afternoon, or evening would enable residents of this area to go to Altoona, transact business and return, all in one day.

Council instructed the secretary to write to the Pennsylvania Railroad explaining the situation and asking for better service. It also was suggested that organizations, clubs and other groups in town make similar requests of the railroad. Acting upon a recommendation of the fire and police committee, Council directed that the Bellefonte Lumber, on South Allegheny street, be closed from 2 to 5 a. m. daily. Portions of the lunch, it is reported, long have kept the area in a turmoil in the early morning hours with loud talking, laughter and other noise. In connection with his move, Council directed that the borough curfew law be brought out of storage and modernized to fit present day needs. Officials of the State Highway Department presented plans for the rebuilding of High street, from the Diamond to the bridge, and of Allegheny street, from Bishop to Linn street. The borough approved the plans and indicated it would cooperate with the department when the

Swimming Pool Opens On Sunday

(Continued from page one) donated by the borough. In case the flow is inadequate from the city mains, it is possible that one or two of the fire department's pumps will be taken to the scene to speed the process. While it is hoped to open the pool this Sunday, the committee expects to hold a "formal" opening exercise on July 4, when it is planned to have a water carnival and a brief program of dedication. A meeting is to be held Friday to complete plans for the July 4 program.

Definite announcement that the pool would be available to the people of Bellefonte came last week when former Judge James C. Furst, local representative of the Fidelity Trust Company of Pittsburgh, owners of the property, learned that the lease could be obtained at \$1 a month. The Titan Metal Company is providing iron and materials for the erection of bath houses, and a diving board is being provided by the Claster Lumber Yard. Bellefonte borough will provide the necessary water.

The Undine company originally expected to solicit the financial help of other organizations in reconditioning the pool, but so far the company has shouldered most of the work and the expense. Some 20 company members turned out Tuesday night to help with the work. There will be no charge for the use of the pool, and it will be open to the public. During usual swimming hours some member of the Undine company, or person employed by the company will be on hand to oversee the project.

The giant pool was built in 1921 at a cost of approximately \$19,000, according to James R. Hughes, of Bellefonte, headmaster of the former Bellefonte Academy. The structure is 328 feet in length and has an average width of 80 feet. At the time it was built it was said to have been the largest outdoor pool in the country. The Crystal Pool at Johnstown was built soon after the Hughes pool and patterned after the same plans. The south side of the pool is curved where it follows the athletic field's running track. The depth is about six and one-half feet at the western end and two feet at the other end.

Mr. Hughes explained that the pool was designed to furnish swimming and skating facilities which Bellefonte had lacked since the Bush dam on spring creek was washed out at the time of the Johnstown flood. For about 12 years the pool was open to students and faculty members of the Academy and it was used in more recent years it was used as an ice-skating rink.

For twenty-five years he worked among the farmers in the eastern part of the county, as many of them recall. Next he directed his energy toward the automobile business, where for eighteen years he was the efficient owner and operator of Bierly's Chevrolet Garage in Rebersburg. As a fair and honest dealer in cars, he won many friends in Centre and adjacent counties. At the same time he faithfully served the people of Miles Township as Tax Collector for a period of twenty years, having been re-elected again and again because of the people's trust in him and his efficient work. During the past six years he became well acquainted with the people throughout the county, for he has been among them as Inheritance Tax Appraiser. Mr. Bierly's record as a good citizen in his own community has been outstanding, for he has taken active interest in many of its affairs; such as, president of the Rebersburg Water Company for fifteen years; one of the promoters of the Rebersburg National Bank in 1921 and a Director since its organization; Director and present Treasurer of the Miles Township Rural Telephone Co., and an Active Member of St. Peter's Evangelical Lutheran Church at Rebersburg.
