Act Quickly Against Coccidiosis

Dr Salsbury's RAKOS
FIRST-AID TREATMENT

Use this highly astringent liquid immediately at the first indication of dreaded Coccidiosis. Watch for those tell-tale signs—droopy wings, huddling, and shivering, loss of appetite, bloody or watery droppings. Neglect can be very serious—so act QUICKLY! Also use sanitation and litter spray to kill Coccidia.

FEED DR. SALSBURY'S AVI-TAB as a flock conditioner to birds hit by Coccidiosis. It's an ideal appetite stimulator.
