Burns.

A good remedy for burns is equal parts of linsed oil and lime water, applied with a soft cloth and kept covered with a soft cloth to keep out the air.

Cold Cream

To make a good cold cream, mix 2 tablespoonfuls of oatmeal, 1/2 tablespoonful of powdered borax, and 1/2 ounce of alcohol.

Swelling

To prevent bruises from swelling apply immediately a cloth about five folds in thickness, dipped in cold water. When the cloth becomes warm renew the wetting.

A Cement for Pipe Joints.

A good cement for steam and water pipe joints can be easily made by mixing 10 lbs. of yellow ochre, 4 lbs. ground litharge, 4 lbs. whiting, and one-half lb. of hemp, cut up fine.

PINE GROVE MILLS

The hum of the thresher and the combine is again heard through our valley, hulling out the golden grain.

W. C. Bill Shoemaker, of the U. S. Army, spent a pleasant furlough last week with his parents, Mr. and Mrs. W. Carey Shoemaker, at their country home just west of town.

HOUSEHOLD HINTS

Unused Stamps. An unused stamp can be removed from an envelope by clipping the corner containing the stamp in boiling water for a minute. It will slip off easily, leaving little enough on the stamp to use again.

A Salad. A good salad is made by adding a teaspoon of currant jelly to a little pat of cottage or cream cheese. Place on a crisp lettuce leaf which has been well dressed with French dressing.

Tired Muscles. To relieve the ache of tired muscles add a tablespoonful of vinegar to a warm bath.

Clogged Basins. To open clogged wash basins, mix a handful of salt with a handful of soda and force it down the pipe, leave for about one hour, then rinse the pipe thoroughly with boiling water.

Knives. Do not use the bread knives where there is intense heat or the heat will temper the cutting edge.

Laundry Bag. A satisfactory laundry bag can be made by using an ordinary wooden coat hanger for the top. Sew the goods over the hanger and make an opening near the top in which to insert the soiled clothes.

When making pillows or cushions, rub the wrong side of the material with beeswax, and it will prevent the feathers from working through the covers.

When making pillows or cushions, rub the wrong side of the material with beeswax, and it will prevent the feathers from working through the covers.
