F. Harkins officiating. Burial was made in Boalsburg.

## Pimples Disappeared Over Night

Yes, it is true, there is a safe harmless medicated liquid called Kielex that dries up pimples over night. Those who follow the simple directions and applied Kielex upon retiring were amazingly surprised when they found their pimples had disappeared. These users enthusiastically praise Kielex and claim they are no longer embarrassed and are now happy with their clear complexion. Don't take our word for it, use Kielex tonight, only 50c. If one application does not satisfy, you get your money back. There is no risk, no do not hesitate. Sold and recommended by:

## HOUSEHOLD SCRAPBOOK

Checking Nosebleed  
Some methods that have been found effective in checking nosebleed are to have the patient lie down with head partly raised. Roll rag or paper and force between gum and upper lip to press real tight. Apply ice to back of neck. If the bleeding continues, plug up the nostril with gauze, cotton, or clean muslin, working pad firmly up into the nose with a penholder or similar object. Remove carefully when the bleeding stops.

Dimity  
Stiffen dimity by dissolving two ounces of gum arabic in a pint of hot water. Use in the proportion of two tablespoons in two quarts of water. It gives a body to the material without making it look starchy.

Insect Stings  
After removing the sting apply ammonia water, or carbonate of soda and water. Common mud applied to the sting often relieves the pain.

Lettuce  
To keep lettuce fresh and crisp, wash and then put in a deep colander, leaves upright, and allow to drain in a cool place.

Silver  
Sprinkle a little carbonate of soda into a damp cloth and rub well when cleaning and polishing silver. Then wipe with a dry cloth.

Testing Coffee  
If you wish to test the quality of coffee, stir a teaspoonful in a half glass of cold water. There will be very little discoloration if the quality is good, and very few grounds will sink to the bottom of the glass.

## Announces For County Office

J. H. Henszey, State College Contractor, Candidate For Commissioner

JOHN H. HENSZEY

John H. Henszey has announced his candidacy for the office of County Commissioner on the Republican ticket. Since the withdrawal of L. A. Mitten has left the State College area without a candidate for the Republican nomination, Mr. Henszey decided to enter the race.

Mr. Henszey is a graduate of the State College schools and of Penn State, where he received the degree of A. B. in commerce and finance with the class of 1929. Upon graduation Mr. Henszey accepted a position with the Liberty Mutual Insurance Company of New York but in 1930 returned to State College and for a time worked for D. C. Lowe, local contractor. In 1931, he left Mr. Lowe and opened his own contracting business, in which he is still engaged.

Mr. Henszey, besides building many important buildings in State College, has been awarded a number of the larger contracts throughout this area, among them, the Bell Telephone building, the Murphy store in Bellefonte, the East Cell block at the Rockview Penitentiary, the Centre Hall High School, and the Harris Township High School.

In 1934 Mr. Henszey married Ellen Davey, daughter of Dr. and Mrs. W. P. Davey of State College. They are the parents of two children, William, 7, and Elizabeth, 4. Mr. Henszey is a member of the Presbyterian church of State College, is chairman of the salvage committee in College and Harris townships and, since the death of his father, has been a member of the State College Borough Council by appointment.

Mr. Henszey owns his own farm in College township and also has been managing three other farms since the death of his father. From early childhood until he was 16 years old, Mr. Henszey lived on a farm near State College.

Mr. Henszey was born on October 4, 1907, the son of the late Joseph W. Henszey and Anne Thompson Hamilton Henszey.

Mr. Henszey's father was active in the State College area as a farmer, in real estate development, and as a leader in many civic affairs, being at the time of his death, a member of the Borough Council. He was a Major in World War I and was later commissioned a Lt.-Col. in the Reserves.

Mr. Henszey's supporters feel that he is particularly fitted for the office of County Commissioner because of his education, his wide experience in business affairs, and his knowledge of the problems of the local farmer. This is the first time Mr. Henszey has sought public office. (Pol. Adv.)

## Two Women Achieve Success In Farming

(Continued from page one)

Mrs. Kepler is grossing \$1090 per acre.  
Began with 300 turkeys.  
Mrs. Hoover started in the turkey business with 300 poulets at her farm on Lincoln Highway a mile south of Chambersburg. That was in 1935. But she agrees that she "didn't really start" until three years ago when she decided to tackle production in a big way.  
Last year her output was 23,000 turkeys. This year it will be 25,000—and the ancient, accepted rule in the turkey business is never to sell at less than a dollar clear profit on each bird. On that basis, Mrs. Hoover will pay an income tax of \$25,000 for 1943.  
She buys poulets from Virginia and puts them in battery brooders, maintaining room temperature of 95 degrees. When they are grown, she sells the birds to hotels in Philadelphia, Baltimore and Washington. All business is done by telephone.

## Employs Five Men

Her enterprise now is spread over 325 acres and provides fulltime employment to five men. Her two boys used to help but not now. One is a captain in the Royal Canadian Air Force. The other is in training as an army pilot.  
Mrs. Hoover's flock is scientifically controlled—under constant supervision of State College poultry experts. She has worked with them in many experimental projects. They say that for advanced methods of feeding, this farm is "out in front" and fattens turkeys much more rapidly than most turkey farms.  
Turkeys are a war food because they release other meats for use of the armed forces.

## Cake and Bread

Do not put the bread or cake away in the tin box used for this purpose until it is thoroughly cooled, or it will become soggy and heavy.  
When choosing berries, color is a better maturity guide than size. Make sure they are of uniform size so they will cook evenly.

## RECENT WEDDINGS

### Shook—Lucas

Miss Florence Lucas, daughter of E. P. Lucas, of Julian, became the bride of Doyle L. Shook, son of Mr. and Mrs. Jacob Shook, of Bellefonte, at a ceremony performed in the Lutheran parsonage at Boalsburg, on July 3, with Rev. Donald Raup officiating. The couple expects to go to housekeeping in September. Mr. Shook is employed in the maintenance department at Penn State College.

### Cohen—Katzen

Alfred Cohen, son of Mrs. Walter Cohen, of Bellefonte, and Miss Marion Katzen, daughter of Mr. and Mrs. Max Katzen, of New Rochelle, N. Y., were married in Baltimore, Md., on June 25, it was announced this week. Mr. Cohen attended the Bellefonte high school and the Beltsville Academy. He now is engaged in the clothing manufacturing business in Baltimore, where he and his bride are living. Mr. and Mrs. Cohen spent the weekend in Bellefonte as guests of Mr. Cohen's mother.

### Smith—Rishel

Mr. and Mrs. William I. Rishel of Lemont, announce the marriage of their daughter, Louise Ann, to Cpl. John M. Smith, son of Mrs. Mildred B. Smith, of Boalsburg. The marriage took place in Grace Lutheran church, State College, Friday, July 16, with Rev. John Harkins officiating. Cpl. Elwood Hazel of Camp Swift, Texas, and Miss Elizabeth Poorman of Pleasant Gap, were the attendants. Only members of both families were present. Cpl. Smith is now stationed at Camp Swift. Mr. Smith is employed in Lock Haven.

### Caldwell—McCoy

Mr. and Mrs. John McCoy of near Bellefonte, have announced the marriage of their daughter, Jane Harris McCoy, to Cadet James Caldwell, son of Mrs. Mary Caldwell, of East Bishop street, Bellefonte. The wedding was solemnized June 5, at Petersburg, Va. Mrs. Caldwell is a graduate of the Bellefonte High School and of Penn Hall Junior College, Chambersburg, in 1937. Prior to her marriage she had been employed for six months in the offices of the Titan Metal Company here. Cadet Caldwell, also a graduate of the Bellefonte High School, attended Penn State and enlisted in the army in February 1941. Until May of this year he was stationed at the reception center at New Cumberland. He now is attending the Quartermaster's school at Camp Lee, Va.

## NECKTIES:

This department has survived many a Christmas necktie without too much suffering. We've seen colorful boys in all kinds of outlandish neckwear. But nothing, nothing in even our worst dreams, can hold a candle to the nightmare designs in neckwear which are being foisted on a long-suffering mankind right now. There are designs the like of which we haven't seen since the billows wall decorations of the Black Cat Inn, south of Bellefonte, enthralled visitors with their rococo colors and designs. There are designs which look like pieces of floral wall paper hastily folded into necktie shape. There are spots, whirls, swirls, slashes in the awfullest or combinations you can imagine. Maybe we've reached the darkness before the dawn. Maybe this last worst sample of necktie design is the forerunner of a worldwide movement to emancipate men of all nations from a wholly useless, bothersome, and senseless piece of wearing apparel. We hope so.

## TEMPERANCE LESSON:

Last Sunday's Sunday School lesson was on temperance. This corner is of the firm conviction that there never will be any true temperance unless the individual can, somehow, be cooled into a frame of mind where he actually wants to be temperate. He can be cajoled to ride the water wagon for a time, he can be ashamed to abstain, he can be imprisoned, or "given a cure," but none of those methods are worth a hoot unless the guy within himself has reached a point where he actually wants to quit. Get him to that stage and the battle is half over.

## VanZANDT:

Jimmy VanZandt, our congressman, got his name in "Time" and a lot of newspapers during the past few weeks. "Time" headlined him as a "Loud Congress" in regard to his comments upon alleged defects of Kaiser-built ships. Then VanZandt was quoted as saying that the Veterans of Future Wars several years ago: They're too yellow to go to war... they'll never be veterans of future wars." It now develops that many of the "yellow" Veterans of Future Wars are covering themselves with glory on several of the nation's battlefronts.

## FUDDY-DUDDY:

"A. R. W." of the "Half Column," is perturbed because Gimbels on Sunday bought space in the New York Times to advertise "Our Watch Makers at any fuddy-duddies," and goes to some length to find a plausible reason why Gimbels' watch makers were singled out as fuddy-duddies. To relieve A. R. W.'s worries we advise him to spend a night listening to the lighter radio programs. In the course of the evening he'll hear a tune, the name of which escapes us, but the theme of which is "The fuddy-duddy watch maker at the jewelry store. It's a tune he'll be humming to himself, and he'll smile at the lyrics.

## Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible yield without thinking about the market. This year they can sell all they can produce.  
As things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. Certainly nobody wants a prosperity built on war! So it's high time that everybody concerned—and that is everybody—gave some thought to keeping things running after the war.  
You're busy, we know. So are we. The important thing right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the producing job to do can contribute a lot to the solution of those problems.  
And we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farmers and manufacturers, working together, can't find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can?
