(POL ADV.) TO THE REPUBLICAN VOTERS OF CENTRE COUNTY

Because of the difficulty in traveling over the County and meeting the voters personally, as I did in my last campaign, I and that I must present my cause to the people through the medium of this letter.

I am a candidate for the nomination for the OFFICE OF RECORDER OF DEEDS. This is one of the County's important offices and like every office it requires experience to properly handle the work involved. I have had this experience. When one tops to think that all the titles to lands and houses in the enire County are in the custody of the Recorder of Deeds and that promptness and accuracy are required in recording and indexing these titles it can be readily appreciated by all that experience is one of the chief requirements for the proper fulfillment of the duties of the office of Recorder of Deeds. During ny term as Recorder I have done my utmost to give the people of my County a courteous and efficient administration. Many times I have returned to my office after regular closing hours to accomodate those who because of their work have been unable to see me during my regular working hours. I shall continue this volicy if re-elected

In politics I have served the Republican Party faithfully and have devoted much time and given much effort to the success of the party. In the administration of my public duties, however, I have not discriminated against any one because of party affiliaion and I have rendered to all the people of the entire County the same courteous service regardless of party affiliation. Nevertheless, I am and will remain a staunch Republican, having always at heart the best interests of our party. In times like these there is a very marked and noticeable swing to the Republican Party. Able, conscientious and capable men are required in public office in this country today. The time for experiment, theory and inefficiency has passed. Confusion, indecision and red tape must be liminated. It is for this reason that I pledge to the people of Centre County the same earnest devotion to duty; the same cour-'cour service to all the people; and the same care and accuracy in the performance of my official duties as heretofore.

This County is one of the finest in the whole great State of Pennsylvania. Pennsylvania is one of the greatest States in our Nation and this Nation must never permit itself to be led away from that form of Government, which is of the people, for the people and by the people. To these very principals I have always been loyal. It is upon these principals that I shall continue to stand.

I respectfully ask you for your vote and influence at the coming Primary Election in September.

Sincerely yours,

Leamer R. Woodring.
