Health For Victory Club To Be Organized In Bellefonte

Hundreds of homemakers for workers at the Titan Metal Manufacturing Co., National Gypsum Co., Sutton Engineering Co., Warner Co., Whitlock Quarries and Universal Match Corp. will form a Health for Victory Club next Thursday, September 9, to make sure their meals contain all foods essential to good health.

The new club is being organized in cooperation with West Penn Power Co. Miss Janet Soisson, home economist of the utility, will conduct Thursday's meeting and monthly meetings throughout the year. She will bring to members the latest government and scientific information about how to market wisely and economically, how to plan meals and cook properly to preserve healthful ingredients. Movies and charts will be used to illustrate her talk. Time and work-saving demonstrations will cover all wartime housekeeping problems. During the months, members will be invited to consult with Miss Soisson individually about marketing and meal-planning problems.

At the meeting, members will receive a meal-planning guide for September. It will consist of menus for every meal of the month, including lunch box suggestions, and recipes. Menus are based on a minimum weekly food budget for a family of five, allowing for seasonal supplies, food rationing by the government and changing food prices. Menu booklets will be revised.

It's about time for silly Americans to start writing letters to the newspapers suggesting that we spare the Germans and the Japs.

Fix Tin Quota For September

(Continued from page one)
signed by the state committee. In pointing out the necessity for collecting the tin and the means by which it may be collected, Mr. Kusse made the following statement:

"Forty-eight blue rationing stamps are issued to every person for the purchase of canned goods. The average family will get at least six cans from these 48 points. Of course some will get less but some will get more.

No. 3 special cans, containing from 4 1/2 to 4 3/4 ounces of tomato, grapefruit and orange juice, require only four points.

"Two tin cans will supply sufficient tin to make one syrette, those life-saving hypodermics carried by every soldier, sailor and marine.

"Tin is vitally needed today. It is the No. 1 essential metal needed for winning the war.

"Tin cans thrown away every day are goodly sources of tin. Thousands of blood plasma containers, thousands of blood banks, thousands of lives of fighting men. Tin containers for this blood are urgently needed.

"During September we are counting on collecting and shipping to detinning plants two cans for every person in Centre county."

member of that community and a manufacturer of silos. Five years ago he and his wife returned to their first home, and resumed their farming activities.

The Strunks are both in good health and for many years have been members of St. Paul's Lutheran church in Nittany Valley where they sang in the choir during their younger days. Mr. Strunk used to bring honors to her home community by winning spelling bees, too, when this competitive mental sport was popular many years ago.

The Strunks have a son and daughter, Millard, who now resides in Beech Creek, and Mrs. Allen Swope of Lock Haven; also four grandsons, Robert F., Donald S., Richard A. and Jimmy Swope, the former three all serving in the armed forces.

It may be somewhat old-fashioned but we believe that the people of this nation are well able to direct their own destinies.

Mrs. Emma Brouse is spending several days at the Lester Brouse home at Tusseyville.
Mrs. Edna Horner spent Sunday evening at the Kenneth Thomas home.
Mr. and Mrs. Daniel Fisher returned to their home in Washington, D. C. Saturday.
