The Japanese are not bellowing for a second front in the Far East.

Columbus did not discover America. He merely gave Europe some information about it.

The man who doesn't like hot weather can now get ready to dislike cold weather. It's coming.

Maybe what the Military General Staff needs is the expert advice of a few columnists and radio commentators.

Men at the front are entitled to the support of all those who are safe at home. Buying war bonds is a good way to support them.

Regardless of all the criticism you hear, the United States and Great Britain, under able leadership, are fighting an unusually intelligent war,

ABOUT DRAFTING FATHERS

The drafting of fathers will be given early attention by Congressmen and, as near as we can guess, the boys who want the votes will wangle a way to keep most of the fathers home.

There is a demand, in some quarters, for the immediate drafting of 17-year-old boys in order to avoid taking any fathers. This merely illustrates the need for men in the services and that when one group is exempted another must carry the load.

We still think that there ought to be some way to use the nearly a million men who have been rejected because of illiteracy and that those who have been deferred on account of venereal diseases should be called up, cured and put in the service.

SOMETHING YOU SHOULD KNOW

Of 22,000,000 men in the draft ages, between 18 and 37., 13,700,000 have been deferred from military service. This has a bearing upon the imminent necessity to draft some fathers.

While 8,500,000 men were taken into the armed services, 7,800,000 were deferred for reasons of dependents, 3,300,000 were physically unifit and 2,600,000 had essential jobs.

Of the unfit nearly a million were illiterate and about 400,000 suffered from venereal disease. Certainly, the diseased can be cured and the illiterates are able to serve in limited capacities,

Of the occupationally deferred, 1,000,000 had jobs in war industries, about 1,300,000 were engaged in farming and about 300,000 were in necessary civilian activity. Among the farmers deferred, nearly half have no dependents

HOW THE WAR IS WON IN TOKYO

The Japanese radio recently celebrated the anniversary of the Solomons Island battle in which the Japanese "crushed the combined fleet of the United States and Britain with one blow." Here is the record of Japanese broadcasts, as listed by the New York Times:

March 7, 1942; "The United States fleet is already non-existent."

May 12, 1942, after the Coral Sea battle: "The Pacific fleet is annihilated; America is reduced to a fourth-rate naval power." Aug. 9, 1942, after the first battle of the Solomons; Boasted of the

"wholesale destruction of the American fleet" and that the Anglo-American force had been "reduced to that of a third-rate naval power." Oct. 29, 1942, while heavy fighting was going on in the Solomons: "Again the Japanese navy had proved its great superiority over the American navy, which must now be considered a second-rate power."

"BACK THE ATTACK"

We are now in the midst of the Third War Loan Drive, with the Government asking the people of the country to invest \$15,000,000,000 in the cause of freedom

It might not be a bad idea, as the invasion of Europe begins and will continue with frightful hardships and loss of lives, to remind Americans on the home front how little they know of war. Those of us who stay at home, do not face the peril of enemy action, and our grumbling over minor inconveniences is often a source for amazement for our men

The only opportunity that a civilian has to help win the war is through the opportunity to asist in financing operations. These are of vital importance, both to the prosecution of the war and to the equilibrium of the economic front at home.

The civilian investor is not asked to give away his money. He is invited to make an investment which will be safe and pay him interest. Every individual, man or woman, must determine the amount of bonds to be purchased. This is a problem to be solved only by the person affected. All that the Government asks of a loyal American is that he, or she "Back the Attack" to the fullest extent possible.
