HEALTH AND BEAUTY

BEAUTY DREAMERS

The little girls read fairy stories about "Golden Locks," and the transformation of "Cinderella," from the ugly little drudge into a creature of enhancing beauty who won the love of the prince and became queen. They run to the glass and see their hair, but of red or slate as the case may be, and tanned or freckled faces and other features that make them very unlike the golden-haired creatures of magic beauty that the story book tells them about. How they long for a fairy godmother to float out of the air and by waving her wand of enchantment over them, transform them in an instant into beautiful maidens who will straightway dance into the prince's favor and become queens. Alas, how many miles of rough climbing are ahead of the poor little feet. Mind, soul and body must be cultivated until they become polished after the similitude of a place before they can take their places in life equipped with charm of personality as well as comely forms and features. We wonder if the little girls are the only dreamers and wishers for effortless pulchritude. Methinks not. Much of the child remains in us all. As we go about we hear women sighing for good looks. Few of them seem to realize that even God-given beauty must be cultivated, or it will soon slip away. You wonder why the slumped figure, the muddy, greasy complexion, the constant chit-chat about empty nothings and neighbor's shortcomings. Because ideals are lacking, no standards have been held in mind that must be lived up to. Perhaps they lack imagination, faith and patience in their own powers to achieve beauty of life and of person. We should remember that we are temples of God. Every effort should be made to improve the gifts that He has bestowed upon us. Instead of spending the time reading light, trashy, serial fiction, why not read something that will make valuable mental furnishing, something that will add to your store of useful information or at least give you elevating and ennobling thoughts. Remember, "as you think in your heart, so are you." The mind is a magic workman that will set to work to make your dreams come true if you want to realize them badly enough to work for them. If you have faith and wish it hard enough, you'll straighten up your slumped figure, get the extra pounds off your anatomy, and take the trouble to carry out the directions that you receive from week to week in order to be well and happy.

The group joined with the Bellefonte Kiwanis Club for a noon luncheon which was addressed by Mr. W. W. Sieg, general manager of the Titan Metal Company. They were entertained by the Kiwanis Singers, a quartet composed of Cecil Walker, George Newman, Jack Yeager, and Rudy Lindquist, accompanied by Mrs. E. K. Stock as pianist. Mr. Sieg, in his address, pointed out the importance of cooperation between industries and agriculture, both during the war, and in the period following the war. He gave many interesting figures on Centre County's industries that were of interest to all present. In the afternoon session, the conference decided to appoint a post-war agricultural planning committee, which is to be announced in the near future. Its purpose will be to study agricultural conditions and recommend a post-war planning program for Centre County agricultural people. The committee prepared and adopted a program which is being recommended to all farm people in this county. Mr. Stover stated that this year will be a difficult year for farmers as well as all other folks. The object is to win the war, and it is the farmer's job to produce all the food he can possibly produce.

LOUISA'S LETTER

Dear Louisa: I am the wife of a soldier and have a little girl eight months old. I live in a small town. My husband has been in the service ten months. I love him very much and I am torn to him while he is away. I have a cousin who has been overseas and, while shopping in town one day, I met him on the street. He asked me if I would have a soda with him while he was waiting for his girl to come on the bus. I rode up the street with him to the bus station and met his girl friend and then they drove me home. I wrote my husband all about it. The same day he received my letter, he got another unsigned letter, telling him I was stepping out and that they thought they were doing him a favor by telling him. Please tell me what a person must do when it gets so they can't be seen in public with their own people without being gossiped about. Why do people want to start trouble between a husband and wife that way? Anyway, my husband didn't believe it but it made him very angry. He got another unsigned letter, fighting for his loved ones and country someone would want to start trouble between us. G. I. M.—Va. Answer: It is a despicable thing to write an anonymous letter at any time, but when it is sent to a soldier who is overseas and away from his family, it becomes an even meaner thing to do. A person who writes such a letter should be sued. There are ways to find out who did it by sending the letter to the post office officials and letting them trace it. A good M.H. session in court would probably break the term of the habit of writing unsigned letters, designed to make trouble. We wonder why anyone would write to a husband about his wife, even if he knew she was stepping out. Unfortunately, there are some people in this world who just love to stir up trouble and do so by meddling in everybody's business. It is usually persons with low minds who suspect innocent people of doing the things they would do if they had the opportunity. As long as you have a clear conscience and your husband believes in you, you have nothing to worry about. Good luck. LOUISA.
