in teaching its public relations officers how to Win Friends and Influence People. We noticed particularly a WAC officer last week who was here on a recruiting mission the little courtesy remained after she had gone. Further proof of its later when a prominent business ter being shot in the thigh while Goodfellow entered the room and man who had been interviewed by fleeing from an automobile. The all were left tied up while the gun- the same officer, in speaking of her second man, identified as Charles men fled into the mountains. One visit, mentioned the little handdo so much! In the same vein, we find ourselves glowing with pride when we read some of the really fine letters Army, Navy and Marine officials write to relatives of men in the service. Some of the letters are sent when boys are killed or are missing in action. Some are written to parents when their sons achieve some distinction, or advance from one rank to a higher one. The writers of these letters frequently go to out of their way to explain, for example, what the distinction achieved When a full-blooded Sioux Indian by the man really means. Such letters will be treasured for years to come, and somehow we feel that they are a mighty bulwark against the cry heard in some quarters that the government is an impersonal ogre and that individuals are becoming regimented into things with numbers instead of persons with
