Real Estate Sales A SPECIALTY !

> Why not have the benefit of ompetitive bidding in the sale of your property.

Past experiences have proven that public sales of real estate demand higher prices.

number of Farms and several esidences will be offered at ablic sale in the near future.

Watch for Dates!

Over 1/4 of all pulpwood is used in packaging farm products

THE FARMERS of this country responded patriotically to the appeal for more pulpwood. They cut wood because their country needed it. Few of them stopped to think that their own business of food production was threatened by the pulpwood shortage. Already there have been cases where packing plants were unable to accept perishables because they could not get packing materials; and the distribution of food may be seriously upset this year unless the pulpwood shortage can be overcome.

So the farmer who cuts pulpwood is not only helping his country meet a serious wartime shortage; he is also adding to his income, improving his draft deferment status, and helping to provide for the packaging and distribution of his own farm products. Cut your pulpwood now!
