

**Voting Lists In Sharp Decrease**

(Continued from page one)  
 The Republican registration was 12,892 and the Democratic list totaled 10,066, or a G. O. P. lead of 2,827. Since then the Republicans have lost 1,444 voters and the Democrats 1,823. Minor parties had a total of

392 members last fall. The entire loss in qualified voters since last fall is 3,347. Possibly the largest reason for the decrease was the "purge" of all voters who have not voted for the past two years. Another major factor is the induction of men into the armed forces. Names of men in military service are not supposed to be removed from the rolls, but in in-

stances where such men have not voted for two years, the names of many of them were removed because the Commissioners were not notified that they had entered military service. Taxes are high but most people have the money to pay them which is much better than low taxes and no money.

**Social Security Official Coming**

(Continued from page one)

If he needs additional work in covered employment to qualify, he will be told just how much more, Mr. Teasdale said. Similarly when a worker dies, if social security taxes have been taken from his pay, the widow or other close relative should contact the Board's office immediately. Mr. Teasdale said. Full assistance in completing claims will be furnished by the field office. Contacts may be made by visit, by letter or by telephone.

Several retired workers who have delayed in filing claims have informed the Board that friends had told them they were not eligible. Mr. Teasdale said. "The best thing to do," he added, "is to come to our office and ask about such matters. We have the exact information."

While provision is made for some back payments on delayed claims, Mr. Teasdale said, delay may reduce the amount of benefits, or wipe them out entirely in some cases.

"Many workers of retirement age tell us that they did not realize that they may continue to earn credits toward benefits after reaching age 65, or that they may work in covered employment, even after benefits start, without sacrificing their retirement insurance rights," Mr. Teasdale said.

"The true facts are that a worker may qualify for retirement benefits at any age above 65, and that he merely gives up his benefit for those months in which he makes as much as \$15 in covered employment. He might work one month and give up his benefit, and not work the next month and receive his benefit."
