Local Soldier Cited By General DeGaulle

Cpl. Francis X. Fauble, of 124 North Allegheny street, Bellefonte, and his AAF B-26 Marauder group in the Mediterranean theatre have been cited by General Charles DeGaulle and the provisional French government.

The citation was for outstanding achievement during April, May and June when Twelfth Air Force Marauders flew important missions over Italy, many of them in direct support of the French forces.

As President of the French government and chief of the French Army, General DeGaulle awarded the Croix de Guerre with palms to the group commander. The citation attributed the highly successful precision attacks in the face of enemy opposition to flight discipline, skill of combat crews, and superior technique of command.

Colonel Eugene B. Fletcher, the group commander from San Diego, Calif., said: "The success of our air crews during that three month period was a direct result of fine work, and hard work, by the maintenance and administrative sections. As always, the ground personnel played a vital part in combat operations."

During this period when his group flew 2000 sorties and dropped over 3000 tons of bombs for a loss of only six planes, Corporal Fauble was with the transportation section. He has been overseas 20 months.
