*Home Freezer*  
KEEPS MINCE PIES  
DELICIOUS FOR MONTHS

"Maybe you wouldn't want to keep mince pies for months. But it would be nice to be able to. With a home freezer it's easy. Just heat-seal them in a cellophane bag, put them in the freezer and serve whenever you like. Days or months later—it doesn't matter, they'll be as delicious as the day they were baked. Whether it's pie or rolls or bread it's so easy to bake an extra supply at one time and have them on hand for instant use."

The home freezer, an exciting new product for postwar kitchens, can easily revolutionize eating in the home. You'll be able to serve varieties of fruits and vegetables anytime you like—strawberries in December, asparagus in January! You'll take them out of your home freezer—harvest-fresh and at peak flavor goodness. Meats and poultry can be put away, too—freezing actually improves their flavor.

The home freezer has already been proved in 60,000 American homes. When peacetime production is resumed, its year 'round joys will be available to you, too. By putting today's earnings in War Bonds and savings accounts, you can insure tomorrow's electrical comforts for you and your family.
