Your Studebaker service man says:

Stormy weather ahead for many cars!

Keep your car up to par with Studebaker service

AMERICA'S third war winter is approaching. Don't take chances with your car. Before winter gets well started, many war-weary cars will

run into stormy weather of their own making. They'll falter and then fold up completely because somebody neglected to give them the right kind of care in time. Have your car expertly inspected now. Make an appointment with the nearest Studebaker dealer. Assure yourself of "smooth sailing" through the months ahead.

PULPWOOD

Needed for War

REW PRODUCTS are playing a more vital role in winning the war than pulpwood, and few are higher on the Production Urgency List of critical war materials. Mills in this area need all the pulpwood they can get to meet war orders and they are paying top prices.

The importance of quality

Only the best is good enough for our boys, and you can't make the best munitions and supplies from wood that is rotted, charred or excessively crooked and knotty.

Make every axe-stroke count. Cut only wood that is sound and straight.

A WAR-TIME JOB WITH A POST-WAR FUTURE
