

War Pulpwood En Route to Mill

Pulpwood makes a dramatic picture as hundreds of cords which were stored in stock piles along the Connecticut River and tributaries are floated to a Groveton, N. H., mill in a late-season drive to help meet wartime's emergency demands.

Steaming Clothes To steam-wrinkles from garments, hang them in the bathroom as near as possible to the hot-water faucet, turn on the water and let the room fill with steam.

The Dry Cleaner When sending soiled garments to the dry cleaner, search for the bad spots that might escape his notice and outline them in white thread. The thread will attract the cleaner's attention and it is easily removed afterwards.

You might as well begin to think up the things you have to be thankful about.

Icy Weather When the streets are icy, if a strip of adhesive tape, about two inches wide, is attached to the length of each sole of the shoes, or rubbers, it will help to prevent slipping.

To clean a white wool sweater, rub well with flour. About 3 cups will be required if thoroughly rubbed until it penetrates each fold. Shake out well and hang on the line while a good stiff breeze is blowing.
