WHAT'S WRONG WITH THE REPUBLICAN PARTY?

(The following frank editorial was written by Brown Focht, editor of the Lewisburg Saturday News and appeared in last week's issue of that newspaper. The News is one of Central Pennsylvania's staunchest

In the answer to this question lies the explanation of why Mr. Roosevelt was elected to a Fourth Term.

Many Republicans who hate everything Democratic would prefer to find their explanation in the answer to this query: Why was Mr. Roose-

For over sixty years The Saturday News has gone down the line battling for Republican candidates. Often it won; sometimes it lost, But it never accepted defeat without attempting to discover how that defeat was encompassed. If it found that the loss came as the result of the weakness of the party it supported, it quickly acknowledged this weakness in the hope that it might never occur again.

Those Republicans who blame the defeat of Mr. Dewey on the great number of government workers, on the CIO, on the so-called "bought vote," on the war, on the political acumen of Mr. Roosevelt himself, refuse to face all the facts. To be sure, these were all contributing factors in Mr. Dewey's defeat.

But the real explanation, we believe, goes deeper and comes closer

And that explanation is the answer to the question: WHAT'S WRONG WITH THE REPUBLICAN PARTY?

If the election had been held a month ago we believe Mr. Dewey would have become President of the United States on January 20. But one month ago Mr. Dewey reversed himself. He and Mr. Bricker and the other Republican spell-binders turned their campaign from one of construction to one of destruction.

We know of many Republicans who drank in everything Mr. Dewey and the others had to say. With keen delight they relished every word thawing which sometimes "heaves" to developed power. of condemnation that was hurled at the New Deal, The mention of the names of Browder and Hillman, linked with that of Mr. Roosevelt, white-hot fury. In other words, the speakers appealed to this group of voters-but THEY WOULD HAVE VOTED REPUB-LICAN NO MATTER WHAT WAS SAID.

But this trend which was followed by Republican speakers during the past month did more than please those people who would vote Republican in and out of season. It alienated millions of the so-called 'silent vote" which represented the balance of power between victory

and defeat. We do not know whether Mr. Dewey himself chose to change his

form of campaigning or whether he was advised to do so. The fact remains that he was defeated-defeated because the Re-

publican Party has a grievous weakness which must be overcome if it is ever to return to national power.

WHAT'S WRONG WITH THE REPUBLICAN PARTY?

We'll tell you what we believe is wrong with the Republican Party. We believe that it has created within itself such hate of the New Deal that it despises everything for which the New Deal stands. These are quite two distinct things. The New Deal is one thing and the causes

it espouses are another thing. This hate which clouds the Republican Party overlooks the fact that the world has moved on, that there is no returning to the days of Harding, Coolidge and Hoover, Many of the social advances made by the New Deal are here and here to stay. They represent the age in which we live. The Republican Party cannot turn back the clock, True, many of these social advantages are unfair in that they cater to the laboring man as opposed to capital. A middle of the road course must be found. Nevertheless, to condemn these social advances merely because they are part and parcel of the New Deal is to commit political

We believe the Republican Party, if it is ever again to achieve greatness on a national scale, must become the party of construction,

not of destruction. It must build, not tear down. It must not engender class hatred. Republican speakers condemned

this tendency in the New Deal. But the Republican Party was doing exactly the same thing. It arrayed the farmer against the laboring man. It arrayed business against the CIO. It arrayed the Negro against the army practice of race segregation.

WHAT'S WRONG WITH THE REPUBLICAN PARTY?

We believe it is controlled by a comparatively few reactionaries who are living in the past. Those were days of power for the Republican Party, but too frequently they were not days of achievement. These reactionaries loved those days of rulership. Today they have all but ruined the Republican Party because they believe that the road to victory is the same old trail.

We believe the Republican Party must forever rid itself of the abel of reaction. If needs be it must rid itself forever of those comparatively few die-hards.

We do not believe that Mr. Dewey himself represented reaction, but we believe those comparatively few individuals who control the Republican Party represent a throw-back to another day and age, All Republicans do not approve of this reaction in their own party,

nor did they countenance the mud-slinging resorted to in the latter days of the campaign. It is around this group that the Republican Party must be revitagized.

WHAT'S WRONG WITH THE REPUBLICAN PARTY? There is nothing wrong with it that cannot be cured.

There is nothing wrong with it that will prove fatal if it is cor-But the sands are running extremely thin. Four times in succes-

sion it has come before the electorate in a presidential election, and four times it has been repudiated. The New Deal has been too strong because the New Deal has de-

rived much of its strength from the weaknesses of the Republican The Saturday News believes that there are days of glory ahead for

the Republican Party, days of achievement for the betterment of America. But this can never come about until the Republican Party rids itself of the cobwebs of hate which becloud its constructive thinking. These words which we have written are not our epitaph for the

Republican Party. Rather, they represent our charter for a new birth for the party

which we have so steadlastly supported.
