Fighting a war, eight thousand miles from home, requires shipping, more shipping and then more shipping. It not only takes time to deliver goods to the Pacific fronts but it takes goods.

There still aren't enough tires to go around... but you can give your present tires a new lease on life by driving slower than ever, by keeping your eye out for chuck holes and pavement breaks, by keeping your inflation up to correct pressure and by recapping in time. You may even be able to stretch your mileage right on through the war. And we can help you do this job whether you drive a car or operate a fleet of trucks. Come in and see us. We specialize in skilled tire service.

THIS SIMPLE 3-STEP PLAN SAVES TIRE MILES. 1. KEEP SPEED DOWN. 2. KEEP AIR PRESSURE UP. 3. RECAP IN TIME.

Dr. Piper, Charley McEwen, son of the groom, was best man and Miss Bessie Seaton of Linden Hall, was bridesmaid. Only a few of their near neighbors and friends were present. You see Billy had prepared the cage before he took his bird into it. The house was completely furnished from cellar to attic, painted outside and papered and painted within, carpeted every inch, and all his bride had to do was to take possession. He was married in his own house in the evening about 200 of our citizens gathered at his home to give them a send off. 47 women and girls received packages of candy. The west end of Plank Road street fairly resounded with the melody of tin horns, old pans, etc. Everybody enjoyed the street demonstration and when we consider the fact that among those who went there to congratulate them, were a large number of the best and most prominent ladies of the town, who were convinced that the bride and groom were among the most popular citizens of our town. Here's our—Billy and Susie, with best wishes, "Domino."

Two Things you can do for your country: 1. Cut more pulpwood 2. Put the money in War Bonds. BY putting your pulpwood money into War Bonds, you will be helping your country in two ways. By holding your bonds to maturity, every three cords you cut will bring as much money as four. And you will get your money after the war when it will buy much more than it does now. Since war requirements are constantly changing, it is always advisable to have an arrangement on selling your pulpwood before you cut it. That way you can cut the species most needed and get the best price for it. We will take any species that grow in Pennsylvania... Especially needed now is PINE! WEST VIRGINIA PULP & PAPER CO.
