## "NOW I CAN BAKE A BATCH OF COOKIES IN NO TIME..."

Says Mrs. Stanley Calkins of Uniontown in telling about her new double-oven electric range.

Mrs. Calkins has a lively family of three girls and a boy, ages 7 to 16. All are cookie-eaters... and she finds that with her new double-oven electric range she can really speed up her cookie baking. And the double-oven "makes dinner parties and holiday meals so easy," says Mrs. Calkins. For example, she can broil steaks for eight people at one time. Or, for holiday dinners, she can roast a turkey or a ham in one oven while pies, vegetables and hot rolls are baking in the other.

Having recently "retired" her first electric range after 15 years' good service, Mrs. Calkins is delighted with the features of her new range... especially the high-speed surface units as well as the double oven.

It's easy to see why Mrs. Calkins likes her new electric range, and why the range and food freezer give her the "perfect pair" to help in feeding her family.

"Like having a store right at home" is the way Mrs. Calkins describes her electric food freezer. "I always buy ahead in quantity and store things in the freezer. I can get a complete meal from the freezer any time—and it's mighty handy when company arrives unexpectedly."
