SCOTIA NEWS

We promised a couple of weeks ago to let you old Scotiates know when the Scotia reunion would be. Well, we have decided to hold it on Saturday, Aug. 11. Now if this date interferes with any of your plans, folks, for the month of August, let us know and we can set another date. The reunion this year will be held at Scotia on the grounds of the former superintendent's house where we held it a few years ago.

Adolph Reed, who had the misfortune to injure his right foot a few years ago, seems to have trouble with it now, as he has had at different times in former years, but at the time of this writing he is able to get around on his foot a little better.

Guy Stine, who is employed by the Baltimore Contractors at the National Gypsum Co. in Buffalo Run Valley, injured his left knee last Wednesday while building concrete forms, and has been under a doctor's care for a few days. He expects to be away from work for a least another week.

We will have a visitor with us today that hasn't visited us for about six weeks. Aunt Dora Ghaner decided to venture out and come up to visit us. She was a little slow in her travel up here, didn't stay very long deciding she had better go home and take a good rest. Well after her being housed up for a few weeks with the flu and old age added to it, we wonder sometimes how these older people go through it all.

Women Outnumber Men
U. S. population is increasing, rising 19 million since 1940. due to more births than deaths. Such increases present problems in education, housing, old age, employment, and economic welfare. Now women outnumber men for the first time in our history. In 1900 the United States had 2,900,000, and now it has 39 times that number. The United States is growing in human and material resources.—The Medical Society of the State of Pennsylvania.

The half-truth is more dangerous than the big lie.
