# LIGHT FAT CATTLE ARE IN DEMAND

ruled lower than last week. The only thing active and firm in the cattle line was light fat

tock.
It will be seen by the accompanying report that there has been an increase of local receipts and sales of cattle of 230 head over last week. But still the number falls below that of two weeks ago, 500 head, and below the average for November of about 1,500 head. Last week for November of about 1,500 head. Last week the local cattle trade touched its lowest, and now the tide has turned. Foultry has been so thoroughly cleaned up that from now on the demand for old staple meats will, no doubt, grow strouger from week to week.

By reference to an October weekly report of transactions at the Liberty yards it is discovered that in a single week the local cattle sales footed up 3,560 head. With a footing last week of 1,200 and this week of 1,480 head it will be seen that there has been a great falling off in local cattle trade.

HOGS.

The run of hogs has been light all the week,

and supply has been hardly up to demand. Prices on lightweights are higher than a week ngo. This grade is quoted to day at \$5 40@5 70, while heavy hogs are quoted at \$5 40@5 50. The abundance of corn in the land can readily be discovered in the hog pens. Western farmers are evidently of the opinion that they can get more for their corn by putting all the weight possible into hogs. There has probably never been a season when there was a heavier

never been a season when there was a heavier average of hogs than this.

A leading stock firm sent out the following statement to customers to-day:

"Hogs weighing over 300 pounds are not wanted. Light grades are selling higher than for several weeks. We do not think present prices will hold up with anything like a heavy "nn."

Another dealer said: "I believe that the good prices of the past few days will bring a heavy run of hogs before the week is out." In this event prices are most certain to drop, as they are now relatively higher here than in Chicago. With very light receipts of sheep an advance of 15 to 20 cents per hundred pounds is reported on all grades. SHEEP AND LAMBS.

Choice sheep and lambs have been so scarce of late that they find ready sale at outside quotations. The lower grades have been more active this week than for some weeks past. The explanation of this is furnished by very Following Is the report of transactions at the East Liberty yards for the week:

## MARKETS BY TELEGRAPH.

A Sport in Wheat Caused by Rumored Buying for Export-Core and Oats Easy to Wenk-Pork and Lard Active and Un-

CHICAGO-There were no new developments to-day, and the market was again governed principally by local influences. Early in the session the feeling was weak, with the opening %@lc lower than closing figures of yesterday, which decline was followed by %c further reduction. The decline was due to a ontinuation of yesterday's weakness, fair selling orders being on the market at the start and no special demand. It evidently was a realizing market, but the decline brought out fair buying, and 3/c advance from inside figures was established. The market fluctuated for me time within 3/c range, and finally took another sudden advance of %c, reaching a point, 196c, above the inside figures of the day. This advance was attributed to a rumor that exlikely that other large traders had taken on some long wheat. But the feeling was unsetlikely that other large traders had taken on some long wheat. But the feeling was unsetted, and options differ widely. The advance did not hold, and prices receded %c, but again became strooger, advancing \(\frac{1}{2}\) can the market closed about \(\frac{1}{2}\) chigher than yesterday.

Corn was moderately active and the feeling developed was easier, Fluctuations were governed to a great extent by local influences. Opening sales were a shade lower than the closing quotations of yesterday, after which the market ruled easier, declining \(\frac{1}{2}\) c, rallied some and closed \(\frac{1}{2}\) to \(\frac{1}{2}\) lower than yesterday. The weakness developed in oats yesterday was continued, and a lower range of prices established. The weakness and decline in grains produced a depressed feeling among longs, who unloaded freely. Shorts were the principal buvers, and although covered fair lines prices declined \(\frac{1}{2}\) con May. Toward the close the buyers took hold with more liberality and prices rallied \(\frac{1}{2}\) con May. Toward the close the buyers took hold with more liberality and prices rallied \(\frac{1}{2}\) cower. Trading was quite active in mess pork and prices fluctuated considerably within a moderate range. Prices opened fully \(\frac{1}{2}\) and a turther reduction of \(\frac{1}{2}\) copened fully \(\frac{1}{2}\) and a turther reduction of \(\frac{1}{2}\) do was submitted to. Later the feeling was steadier and prices rallied \(\frac{1}{2}\) to decline on yesterday's fluores, and a larther reduction of \(\frac{1}{2}\) do decline on yesterday's fluores, and a larther reduction of \(\frac{1}{2}\) do was submitted to. The market ruled steady to-day. Prices

Gas Shares Leading in Activity, With Trac-

tion Not Far Behind. The extent of the exportations at the Stock Exchange yesterday will be understood when it is stated that 887 shares, running from Philadelphia Gas to Columbia Oil, changed hands during the sales. This is not a phenomenal business, but it shows that a boom is on and that buyers are neither few nor afraid to act. Bull influence had the upper hand nearly all day. The three strongest securities were Philadelphia Gas, Chartiers' Valley Gas and Wheeling Gas. In fact, the gases had the day pretty much to themselves. They were all strong, with more buyers than sellers, if anything. The spirit of the market is shown in the following

A RATHER unusual feature of real estate transactions is the amount of spot cash paid. Nearly every purchase is paid for when the deed is delivered. No one objects to this. HIGH prices of property in the East End are driving people of small means down the Fort Wayne road as far as Sewickley. Real estate men expect a boom in that direction this year.

New York, January 3.-The stock market was dull but feverish and weak to-day for everything except the Coal stocks, though the Grangers were the only ones outside of New England which showed any decided weakness. Money worked easier to-day, the highest rate being 6 per cent here, while in London it was again down to 3@3%. This, however, was the only item of news of a character to encourage the bulls, while Chicago resumed its old taconly item of news of a character to encourage the bulls, while Chicago resumed its old tactics and sent a batch of telegrams and rumors, all of which were of a depressing nature.

First prices were generally slight fractions below the final figures of yesterday, but there was some demand for stocks in the early trading, and Jersey Central developing marked strength prices moved up in sympathy all around, though for small fractions only, with the one exception noted. Later, however, the upward movement came to an end, and the Grangers became the mark for the bear attacks. The entire list yielded with them, and before noon all the early gains were wiped out. The weakness continued and everything retired to below the opening figures, no change occurring until well into the afternoon, when Jersey Central again made a spurt, and carried the rest of the list up 3 small fraction. The movement was soon over, and the market finally closed quiet and fairly steady, generally at fractional declines. New England came to the front late in the day, and slowly yielded until its loss reached 1½ per cent, though nothing new upon it was known to the street.

There was a larger and better distributed business in railroad bonds to-day than has been seen for some time past, the sales of all issues aggregating \$1,277,000, but while some of the list way, and the final changes are generally in the direction of lower figures, though important dealings are few in number.

BOSTON STOCKS.

A Good Volume of Business, With Great Ac tivity in Atchison.

ISPECIAL TELEGRAM TO THE DISPATCH. BOSTON, January 3.-Business was of good volume in the Boston stock market for the reason that trading continued active in Atchison. This specialty recovered and maintained its recovery with a fair degree of success. Op-ening at 55% it advanced to 55% re-acting to 55% in the afternoon. The bonds were better in tone, the collateral trust 5s recovering 2% to 88. The afternoon market was inactive and rather steady, with an occasional weak spot like Chicago, Burlington and Quincy, or New York and New England, for instance. The tone at the close was featureless and barely steady. Operators are cautious and await further developments in connection with the cut in rates between Kansas City and Denver. Produce Trade Movements Slow,

EGGS STEADY, BUTTER ACTIVE.

Poultry Scarce and Firm.

Large Receipts of Grain and Hay, Markets Are Sluggish.

GENERAL GROCERIES ARE UNCHANGED OFFICE OF THE PITTSBURG DISPATCH, L THURSDAY, January 3, 1889.

Country Produce-Jobbing Prices. Produce commission men have little encour-aging to report in their line. Trade movements in country produce have not started out with much briskness for the new year. There is, however, an abiding faith in dealers that it cannot be long until the situation will change for the better. And so they bide their time. There is a perceptible improvement in demand for eggs, but no change in prices. Poultry con-tinues scarce and firm. Elgin creamery butter is reported more active at headquarters. The only hope of an early improvement in produce trade is in the speedy arrival of a good oldfashioned blizzard from Manitoba.

terialized. The general view of dealers, however, is that another week will bring new life to trade. Wheat has again passed below the dollar line at grain centers. City millers report an improved demand for flour. The Grain Exchange to-day adopted a resolution instructing the Committee on Inspection to establish grades on upland prairie hay, as not a little trouble has recently arisen between seller and buyer on the question of grade. The week's receipts of grain and hay promise at this date to be unusually large. The totals for last week were 163 cars. Receipts this week have been 168 cars, with two days still to hear from.
