GRANGERS OPPOSED TO CHICAGO BEEF,

Large Sams of Money Being Demanded From the State for Appropriations.

The Republican legislators have finally determined not to have any further liquor legislation until the matter of Constitutional prohibition is finally determined, one way or the other. Among the bills introduced yesterday was one to allow the preserving of game on estates, after the English fashion. The appropriations demanded are already amounting away up into the mil-

(FROM A STAFF CORRESPONDENT.) HARRISBURG, January 23.- Senator Cooper's high license bill blazed meteorlike across the Legislative heaven, and meteor-like, seems to have winked out. The Delaware man, however, succeeded in staggering the party programme for a time, and not until to-day was it fully decided that the original plan would be adhered to and the strong hand of suppression placed on all liquor legislation during the present session. There is the highest authority for this statement. In the language of one gentleman, if the Constitutional amendment passes there will be no need for license egislation, and if it does not, there will be plenty of time to improve the present law.

The feeling has been strengthened by the Cooper episode, that the Republican party in the present critical position cannot afford to take any action that will cause the slightest shadow of suspicion that the party is bition amendment with one hand, while putting license legislation forward with the

HARRISBURG, January 23 .- The Judiciary General Committee listened to argubill. J. F. Beihlstein, Andrew Kalchthaler and William and Fred Peters, representing the Pittsburg butchers, appeared before the committee. Mr. Warthman, of Philadelphia, and Master Rhone, and Secretary Thomas, of the State Grange, also appeared. Mr. Warthman, of Philadelphia, and the Pittsburg gentlemen spoke of the lack of inspection at Chicago, and the possible dissemination of disease thereby. Mr. Warth-man also spoke of the evil effect of thawing and again freezing meat in transit. The representations on these branches of the subject were extremely revolting. Mr. Warthman paid a high compliment to Mr. Mc-Cutcheon, of the Pittsburg Health Department, for his exposure of the Chicago methods. For five years before Mr. McCutcheon's investigation he had seen nothing about lump-jaw in the stock journals, but now they are full of the subject.

The prohibitory amendment was reported for the subject in the people. One from Chester was signed by 6,000 people.

they are full of the subject.

The representatives of the Grange freely admit that the intent of the bill is to aid Pennsylvania stock raisers. It was stated that the Chicago meat packers first destroyed the stock raisers' business by cutting prices, and, when it was destroyed, immediately advanced the rate again. Secretary Rhone declared emphatically that the bill was a farmers' bill, but the Grange refused no aid offered from any quarter. The Chicago men now hold their business by making rates to retailers lower than the farmer's can afford to sell for. The Pittsburg butchers said, in leaving the committee, that they would rather buy their stock from near by than from Chicago, as stock shipped far was poorly cared for and in poor condition on its

This week. 'Tis the week for the professional man, the business man, the mechanic, the workingman. 'Tis the week for the masses; the week for the people. Saturday next sees the end of our greatest of all business ventures of giving away free every twentieth sale, no matter what the purchase may be, and altho' we have, since the inauguration of this great and novel plan of ours, given away OVER TWO THOUSAND PURCHASES, we're willing to make the number

The more the merrier, the greater the number the better we like it 'here's no funny business or any "canoodling" about this offer of ours; it is perfectly legitimate and is carried out in the strictest, fairest and most impartial manner. No matter who the man, woman or child is; no matter what the purchase may be, if it be a twentieth sale (if so it will be indicated by the sounding of a gong), the fortunate twentieth purchaser gets purchase money back, goods for nothing, and our congratu-lations on being the lucky one.

This means what? Why that in order to reduce our stock to the smallest possible dimensions we offer the most phenomenal bargains in Clothing, Hats, Shoes and Furnishing Goods ever seen; name lower prices than ever heard of before and undersell every competing house from 25 to 40 per cent. In doing these things a great concern like ours must of necessity cause much grief and many sorrows among merchants who pin their faith to "shams."
