TO SELL IN CITIES,

A New Poolselling Bill Drafted by Pittsburgers.

GENERAL SPORTING NEWS OF THE DAY

An honest, and what appears to be a constitutional effort, is being made in this city to have a law enacted to legalize poolselling in cities throughout the State. To put the matter short, a movement has commenced to have the poolrooms re-established. A number of Pittsburgers, whose object is to make poolselling or betting on horse races as honest and honorable as possible, have had a bill prepared on the subject. This bill has been submitted to some well-known lawyers who claim that it provides for nothing unconstitutional. The bill will be introduced to the Legislature within a few days by a local member, and the promoters of easure rely on its fairness as a means of success. Following are the provisions of the

MERITS OF THE MEASURE.

It declares itself to be an act to legalize and regulate the selling of pools in the State of Pennsylvania on trials of speed conducted by racing associations incorporated under the laws of any Commonwealth, and to provide for the granting of a license for the same and the imposing of a penalty for a violation of the provisions of the said act. The preamble further sets forth that the object is to protect poolselling on trials of speed of horses connected with any association organized for the purpose of improving the breeding of thoroughbred or trotting horses.

Section one of the bill sets forth that it shall become the duty of the treasurer of any city, town, borough or township to issue licenses to persons to sell pools on horse races conducted under the auspices and control of any legally chartered association, the license to be issued

Section two deals with the amount to be paid for the licenses, and provides: "In all cities of the first class the amount to be paid to the treasurer of such city or cities for the above-mentioned license shall be the sum of \$2,000. In all secondclass cities the sum of \$1,500 shall be paid for

in third-class cities the license fee proposed in third-class cities the floenes fee Proposed is \$20, and in all other cities, towns or boroughs the fee is to be \$10. The section concludes by demanding that the selling of pools under the license granted shall be conducted in a manner so as to in "nowise interfere with the peace and good order of this Commonwealth."

WHERE THE MONEY GOES. Section three provides that all revenues ac-

cruing from the sale of licenses shall be handed in with the general taxation of the respective cities, towns, boroughs or townships in which

the licensed poolsellers are doing business. The treasurer who issues such licenses is to recieve the fee of \$1 for each license.

Section four provides that all persons selling pools without first taking out a license shall be guilty of a misdemeanor, and upon conviction shall be punished by imprisonment in the county jail or workhouse for a period of not less than six months nor more than two years. The above bill is, doubtless, a step in a new direction, and one of its greatest and best features is the attempt to make poolselling or betting as much of a fair dealing business as possible. Should the bill become a law it would seem impossible for other than the most responsible people to become identified with the management of poolrooms. In this respect the general public is

THE PROTECTED PARTY.

host of moral philosophers claim that as long as there are contests and the public has a desire to bet on results, there will be betting. desire to bet on results, there will be betting. If there is any truth in this, it would seem advisable to protect the public against impostors. If the bill becomes a law it will no longer be easy for itinerant poolsellers to have control of the leading tracks, because any firm or firms that may be organized in this city will be in a position to prevent any unlicensed stranger from coming. True, a race track association may apply and obtain a license, but it is not likely that any track here would pay \$1.50 for the privilege. But according to the bill a license can be obtained for, say, Homewood track for \$10 and the track directors wood track for \$10 and the track director wood track, for \$10, and the track directors could easily make arrangements with any pool-seller they choose to sell for them. Allegheny will be permitted to obtain a license for \$20; in short. Philadelphia is the only first class city and Pittsburg the only one in the second class at present. But the Philadelphia tracks are outside city limits, just as Homewood is. The great object of the bill in this respect, however is to legalize notherling in cities however, is to legalize poolselling in cities away from the tracks. It is stated that the bill has excellent support both here and in

BALL PLAYERS' CONDUCT. Manager Phillips Points Out the Benefit of

Good Behavior. Manager Phillips talked frankly about the effects of good conduct among ball players yesterday. During a conversation on the sub-

When we first went there we put up at the Arlington House. I knew the manager, and during our next two visits we stopped there. I thought I told you to allow no more ball players to stop here, was Mr. Bennett's reply. The manager went on to say that the club had been thrice there that season. Mr. Bennett made inquiries and found that our boys had conducted themselves like gentlemen, and he said to me: 'Mr. Phillips, we have had some awful times here with ball players, and I resolved to keep them clear of this house. However, your people are welcome after what I have heard.' Mr. Bennett presented us with a box of excellent cigars and said, 'Call again.'

PRESIDENT NIMICK'S OPINION. Gossip About the Reserve Rule and the In-

dinunpolis Case. During a conversation on the Indianapolis case yesterday President Nimick stated that the League directors will probably have to deal with the matter. He repeated his opinion that Indianapolis will be in line when the season opens. He is a League director, and so far has received no intimation from President Young

of a meeting.

Mr. Nimick also mentioned the new rules relating to reservation. It is thought that after in days elapse the Indianapolis players will be free to go where they choose, as the Indianapolis club has disbanded. However, it is likely that the League will take charge of the entire team, and that will keep matters all right.

Agninst Sandny Games.

CHICAGO, January 23.-The City Baseball League is in great distress for fear the bill Senator Garrity proposes to introduce in the State Senate, prohibiting ball playing inside the city limits on Sunday, will pass. The making of this bill into a State law would The making of this bill into a State law would effectually put an end to the business of the City League, as all its games are played on Sundays, neither the players nor those attending the games having time for such business on other days. The majority of the players in the City League are young men who are employed during the week.

During the last Legislature a similar bill was introduced in the House by Representative Vickers, but was killed in the Senate.

He Wants a Race. Simoox, owner of Dunborn Wilkes, the 2-year-old trotting mag he desires to track against any 2-year-old in Pittaburg or McKeesport for \$250 or \$500 a corner, will send the animal to Chicago next week for the races at that United States.

A BUSINESS MOVE. Why the Indianapolis Club Directo

Called a Halt. ISPECIAL TELEGRAM TO THE DISPATCH, 1 Indianapolis, January 23.—It seems that there is a string to the League franchise that was surrendered by the directors of the In dianapolis Baseball Club on Monday, and although it is not positively known to be a fact, it is now suspected that the move was made to rid the management of troublsome stockholders, and was, as it has been questionably stated, merely a matter of business. How ever, Brush declares that the franchise was surrendered in good faith, and that the club

is entirely under the control of the League. Efforts to get satisfactory information from President Young as to what disposition may be made of the franchise have been unsuccessful.

Mr. Young says that there is nothing that can
be done now except to place a formal application on file with him. The disposition of the
franchise must be determined by Spalding,
Mr. Day and himself. Mr. Spalding is on the
other side of the world and Mr. Day is sick, so
that the filling of the vacancy must remain in

It is regarded as certain that the club will remain here another year at least. Mr. Young has intimated that the League may decide to play the club here itself, and if it is not willing to do so there are two different firms and to do so there are two different firms and a local syndicate that are ready to take the franchise upon the same terms that it was given the bankrupt association. The firms are Dickson & Talbott, the theatrical managers, and Charles Mayer & Co., wholesale dealers in toys and sporting goods, while the syndicate is headed by Lcuis Newberger, who was the first President of the association that has just failed

failed.

Before surrendering the franchise the directors of the club gave J. C. McCutcheon, a local capitalist, a bill of sale for the grand stand and seats on the grounds in consideration of a claim for \$1,000. He refuses to accept the of a ciaim for \$1,000. He relites to accept the amount of his claim with interest from any of the parties anxious to get control of the club, and it is believed, therefore, that the directors have had no intention of allowing the club to leave this city, and that they surrendered the franchise with the understanding that they can buy it back when they want it.

ANOTHER VERSION.

President Brush Makes a Definite Statement About the Hoosiers.

Indianapolis, January 23. - President Brush, of the Indianapolis Club, makes the following definite statement:
"Mr. Young simply represents the League, but he can do nothing about the franchise until its disposition has been fully passed upon by all the representatives of the League compact. So far as Indianapolis is concerned, the surrender is absolute and unconditional, and Dickson and Talbott, or whoever else may wish to continue the club, will have to go through the same procedure which we did in 1887. The franchise is now back in the League's possession absolutely, and there is no string to it. I cannot make it more explicit. The surrender was made by telegram yesterday, and an official letter has also been forwarded. I want to see the club continued. It is a good thing for the city, and I am willing to subscribe to a fund of \$25,000 for its maintenance if other gentlemen will join."

Mr. Brush said, as illustrating the disadvantages under which the organization labored, that when the Detroits quit they could have had their choice of three or foar of the best players, but lack of money prevented. The President Dickson and Talbott, or whoever else may wish

but lack of money prevented. The President of the club, however, gave them an option on Getzein, holding it until yesterday, when it was surrendered. It is now thought Getzein will go to Washington.

Mr. Bradley visited Mr. Huggins yesterday and implored him and his friends to visit the Hollow at once with their rifles. Mr. Huggins says that he and his friends will make it their business to try and capture the panthar.

No Use for White. ROSTON January 23 .- The Roston sinh this afternoon gave Hornung his release, No

League club has bid for his purchase. The signature of Charley Bennett to a con-tract for 1889, which was obtained in Detroit tract for 1889, which was obtained in Detroit yesterday, was not a surprise, as it was known to be fully arranged for. "Deacon" White may now "gang his ain gait." The directors have come to no decision regarding Wise and Morrill. President Soden says that the Indianapolis club will surely remain in the League with the same officers as at present. They are simply getting rid of unsatisfactory stockholders, as the Boston club did.

Will Stop the Fun.

MINNEAPOLIS, MINN., January 23.-The inlications are that there will be no more prize dications are that there will be no more prize fighting in this city for the present. After the Cardiff-Fell contest last night there was an in-cipient row in the rink, which has led authori-ties to consider seriously the policy of stopping all fistic exhibitions, and to-day a bill making prize-fighting or the making or ac-cepting of challenges a penal offense was intro-duced in the State Legislature, and will probably become a law.

Pool Playing at Findlay. SPECIAL TELEGRAM TO THE DISPATCH.] FINDLAY, O., January 23 .- There was a match game of pool played here last evening between Jack Carroll and G. S. Williams for \$100 aside and the championship of Northwestern Ohio. They were to play the best 13 out of 25. Carroll won, having won 13 to Williams' 5. A good deal of money changed hands.

Sporting Notes.

It now looks almost certain that the Hoosier will hold on. MEDICAL authorities state that Sullivan is still a sick man. MANAGER MUTRIE laughs at the idea that indianapolis has retired from the League.

THE Giants and the Athletics will play two games before the championship season opens. HARRY BETHUNE writes a New York friend that he is doing about two yards better than even time in 100 yards. This will hardly beat Wharton.

IF any club that has already agreed to play in an association during next season breaks its agreement to play with the League there will PRESIDENT DAVIDSON says there is no truth in the report that Hecker and Cook have been traded to Baltimore for First Baseman Tucker, though negotiations are pending for a transfer

It is reported that after Jack Fogarty gets through training Harry Walton for the latter's-go with Cal McCarthy he will take into consid-eration a proposition to spar Le Blanche, the Marine, 10 or 15 rounds.

Mr. William Easton yesterday sold an imported thoroughbred stallion and four thoroughbred brood mares at private sale to Mrs. Langtry. The stock will be sent to Mrs. Langtry's ranch in California.

TWELVE female bicyclists have entered for a six-day's race at Madison Square Garden, beginning Monday, February 11, and ending on the following Saturday. Only three more can be accepted, as the limit is 15.

WHEN the American Association schedule is made public it will show that the season will open on April 17 and close on October 14. The Eastern clubs will open in the East, and the Western clubs in the West. The Eastern clubs will then go West. It is not known just what clubs will play together at the start off. clubs will play together at the start off.

THE final game in the bookmakers' cushion carrom handicap tournament was to have been played Tuesday night between Davy Johnson and Charles Heineman, but the Tremont Club gathering were disappointed, Heineman forfeiting. This gives Johnson the first prize, \$500, with Heineman and Reeves a tie for second place. The second prize money will probably be divided if it is not played off in private. There is talk of another series of games between the pencillers of odds at the races, the idea being to have it played in a larger hall.

He came at the invitation of the committee, and spoke at length upon its area and the resources and intelligence of its people. The coal lands in the Territory, he said, covered an area of not less than 5,000,000 acres; her oil lands were more than equal to all the oil lands in Pennsylvania, Ohio and West Virginia combined, and she had as fine iron deposits as are found in the

The Remains of the Unhappy Di Murska and Her Daughter Reduced to Ashes.

(BY CABLE TO THE DISPATCH.) LONDON, January 23. - [Copyright]-Dennis Tobin, of Kerry, a moonlighter and a paid perpetrator of outrages, according to his somewhat halting story, enlivened the

proceedings of the Commission Court today. Unfortunately for his employers Tobin overdid his part. In addition to accusing the League of paying for outrages, he gave an elaborate account of a moonlight organization, with its sections, leader, pass words and all the usual machinery of secret

Tobin deposed that he was a member of the Kilconoly band of moonlighters. He said that when the members of the band were sworn the leader told them that, by order of the League, tenants who paid their rents were to be raided. The moonlighters were ranged in divisions, each division receiving orders from a captain, who also furnished the men with arms. The arms were hidden away when not in use. The moon-lighters were paid for committing outrages. Witness' set received £5 for making a raid on the cattle of an obnoxious farmer, and another time they got 7s 6d each for slaughtering the cattle on a Miss Thompson's

Mr. Russell smiled while he listened, and with reason, for Tobin's evidence on these points smashed and pulverized the mass of the testimony previously given by a score of policemen, landlords and land agents who scouted the idea of there being any secret societies in Ireland except the Fenians, and who placed all outrages to the credit of the unorganized lawlessness of members of the League. Tobin fell to pieces in cross-examination and left the box with the bewildered air of a man conscious that he had made an ass of himself, but uncertain how and why he had done so.

CHAMBERLAIN GOOD NATURED.

He Says the Rejection of the Fish Treaty is No Sign of American Ill Will.

LONDON, January 23 .- Mr. Chamberlain addressed a meeting at Birmingham tonight, and met with an enthusiastic reception. Mrs. Chamberlain occupied a seat on the platform. A letter was read from Mr. Bright's son, who wrote that his father's health was steadily improving and that his general condition was much better than it

PROGRESSIVE POTTERS

Will Encourage American Art and Compet With the Famous Foreign Potteries-Prizes for Designers-An In-

WASHINGTON, January 23 .- At the renoon session of the thirteenth annual convention of the Potters' Association of the United States to-day new officers were elected for the ensuing year as follows: President, Thomas Haddock, of Trenton; First Vice President, William Brunt, of ROSEBERRY SAYS HOME RULE WILL WIN East Liverpool; Second Vice President, George W. Oliver, of Syracuse; Third Vice President, S. J. Scott, Cincinnati; Treasurer, J. H. Goodwin, East Liverpool; Secretary, Alfred Day, Steubenville. These are the old officers, with the exception of Brunt and Oliver.

The sessions were short and of very little interest to the general public, with the exception of the report of he Committee on Art and Design, made the Chairman, Mr. D. F. Haynes, Baltimore. This contained a recommendation that a liberal prize or series of prizes be offered for artistic designs in the to the successful competitors among the pupils of the schools of design in the various cities of the country, for the purpose of en-couraging the production of original and artistic designs and decorations by purely American talent. This report and recommendation were received with great favor by the members of the convention, and were unanimously adopted. A resolution was also adopted offering a prize for the coming year of \$300 for the invention of improved achinery for the use of the trade. It is generally agreed among members that this has been one of the most interest-

opinion in the direction of the production of the finer and more artistic classes of ceramic ware. The vast bulk of the importation from foreign countries is of this product, while the American manufacturer has been confining himself almost entirely to the cheaper grades of earthenware, and the tendency now is to attack the famous foreign potteries on their own ground, and, if possible, to give to the world a fine and artistic porcelain which will make for the United States a reputation in this field along with France, Italy, China and Japan. This evening the members of the convention and their families are enjoying an elegant banquet at Willard's Hotel. One hundred covers are laid, and a number of Congressmen and newspaper correspondents are the honored guests of the potters. The convention will again meet next January in

Afterward she sang in "La Grande Duchesse," "La Perichole" and "La Fille de Mme, Angot," and in other light operas under the management of M. B. Leavitt and Colonel McCaull. In her prime she was very popular with New York theater-goers. Mme. Dolaro wrote a play called "Justine," which was brought out at the Park Theater by John A. Stevens. It was not a success. A play called "In the Fashion," written by Mme. Dolaro, was sold to Shook & Collier, and was afterward returned to Mme. Dolaro. The play was sold to Henry E. Change of Popular Sentiment in the State

of Massachusetts. BOSTON, January 23 .- Some interesting figures showing the tendency of Massachusetts on the question of licensing the sale of intoxicating liquor were submitted to the Legislature to-day by the Secretary of State. In 1886 out of 349 cities and towns only 74, or 21 per cent, voted to grant license. The popular majority against license showed 50.9 per cent of the people of the State to be in favor of the policy of prohibition. In 1887, with the same number of cities and towns, 63 voted yea. The majority against license had become 51.58 per cent of the total. The otal vote was 16.6 per cent greater than in

In 1887, when the number of cities and towns was 351, 85, or 22 per cent, voted yes. The total vote increased 2.5 per cent in this year, and 53,45 per cent was in favor of license. This is quite a set-back for the pro-hibitionists.

The drift of talk to-night is that the bill will pass third reading, if at all, by a close vote. Attention is called to the fact that, according to the bill, the flag must be displayed in all kinds of weather, which will make the display a very costly one. Ex-Speaker Graham estimates the expense under these circumstances at nearly \$1,000,000 a year. This afternoon two small American flags graced the desks of Captain Brown and Mr. Fow, who sat together. The members took off their hats to the national colors as they passed by. MURDER WILL OUT.
