SURPRISES IN STOCKS AND OIL.

The Latter Boomed by Producers Putting a High Value on the Reserve.

ONE DOLLAR NOW PREELY TALKED OF

The volume of business was cut down somewhat the past week by cold weather. With accompanying snow and rain, rendering out-of-door movements difficult and unpleasant, and putting country roads into an almost impassable condition. Still, with all these drawbacks, general trade was fairly active, both here and at other commercial centers, with liberal orders for season able goods, and values well maintalued.

Locally, while there was no boom in any-thing, there was a good average of transactions, with an increase of inquiries for some specialties—notably iron. In local securities there were a few surprises, both in the way of advances and of depressions. Early in week a demand for Switch and Signal and La Noria set in, which advanced both of these stocks to a higher point than they had previsubsided, and at the close both had lost ground and were dull and neglected. Later on Westinghouse Electric came to the front as a leader in activity and strength, selling up from 85% on Monday to 404-02404 at the close yesterday. it left off decidedly builish. Gas and Tractions were without feature, occupying a conspicuous position in the background. There was large demand for bank stocks, but very few changed hands. A big block of Bank of Pittsburg went at 75-the highest point it had ever reached. This is considered a big price to pay for a t per cent security, but it is a safe investment, the bank being as solid as the hills and managed by reliable and experienced finan-

Petroleum dragged along all week until yesterday, when a genuine boom set in and dollar oil was the general talk on the floor of the Exoil was the general talk on the floor of the gachange. The improvement was due to the conclusion arrived at by the producers not to sell
the reserve stock for less than \$1 before May 1.

Saturday is usually a quiet day with reestate dealers and agents, but yesterday was
an exception, the trading being in excess of
that of any other day during the week. The thought the decision would cause outsiders to take hold with their old-time vim. The market

the total sales amounting to only 185 shares, of which 100 were Electric and 80 Philadelphia Gas. Electric was stronger. Sales were made at 40%, with 40% asked at the close. Switch and Signal picked up a trifle, 15% being bid and 16% asked. Philadelphia Gas and La Norta were fractionally weaker, 37% being the highest bid for the former and 1% for the latter. There was an unusually large and persistent demand for bank stocks, but they were held above the views of brokers having orders for them.

caused by heavy selling in Oil City. Two or

"We have crossed the danger line," said a prominent operator after the session had adjourned. "We know what we are doing now. That producers' stuff has handicapped the market for months. It is out of the way now, and the field is clear to put prices on a reasonable basis. White I don't expect dollar oil just yet, I am confident to-day's advance will be maintained. It has elements of stability that will effectually resist every attempt of the bears to cause a slump."

A Capitalist Claims It is Far Superior to the Alabama Product.

EXEMPTION FROM ARREST.

Judge Ewing Hauds Down an Opinion That Attorneys Are Exempt From Arrest Only at Certain Times.

An opinion was handed down by Judge Ewing yesterday that will be of interest to attorneys as bearing upon their exemption from arrest while in court or on the way to and from court.

Judge McCandless was in the city in December, engaged in the suit of Hartupee against the city, and was served with a summone in a suit brought by the Parker Savings Bank, and he obtained a rule to show cause why the summons should not be set aside on a

why the summons should not be set aside on a question of privilege.

In his opinion Judge Ewing said it was an ancient privilege that attorneys be exempt from arrest while obliged to attend court: the reasona, however, for these privileges had mostly disappeared. He said there is good reason for exempting attorneys while in actual attendance, or an attorney here from another county in a special case.

ance, or an attorney here from another county in a special case.

He said: 'There is no more reason for exempting a local attorney, unless in actual attendance, than a merchant or a banker, and certainly the cause of justice is not to be promoted by requiring that attorneys living in other countries and practicing in this court shall be exempt from service of process in the county in which their business is transacted. We see no sufficient reason for extending to attorneys of our courts who reside out of the county privileges beyond those given to practicing attorneys within the county."

With reference to attorneys here in attendance on the United States Court or Supreme Court. Judge Ewing held that there was good reason for exempting them from service of process. The rule was discharged and the service allowed to stand. The case exciting the controversy is an action on a note.

He was very profitse in his thanks toward Mr. Dickson, of 65 Fifth avenue, second floor.

MILITARY NOTES AND GOSSIP

MAJOR GREENLAND, Brigade Quartermaster, is in the city.

THE Second Brigade Band will be re-enlisted this coming week by Captain James H. Mur-dock, of the brigade staff.

The State allowance for horse hire of field and staff officers at last camp arrived in the city during the week. It amounts to \$16 per man. THE commissions of the various local officers

who appeared before the Examining Board some time ago arrived in the city during the week. THE Duquesne Greys held a meeting last Tuesday night and discussed the possibility of a trip to Washington by that organization. It was decided not to go.

CAPTAIN R. W. A. SIMMONS, of Company H, desires all the members of his company to be present next Tuesday evening, as he has business of importance to present to them. THE National Guard of Massachusetts has decided to send a rifle team to England next July to take part in the international rifle match at Wimbleton, the team to consist of 15

A SOLDIERS' Home has just been completed at Sandusky, O., to which disabled members of the National Guard of Obio are allowed admission. It is the first Home of the kind in the United States.

LIEUTENANT O. H. ELLIOTT, of Company H. Eighteenth, and Captain William H. May, of Company D. Thirteenth Regiment, are dis-charged by general orders, and the vacancies will be filled at once. THE Cathedral Band, of this city, will go to Washington with the Eighteenth Regiment.
With a drum corps of 40 men and the band,
the regiment will certainly be well supplied
from a musical standpoint.

ORDERS for the election of a Second Lien tenant in Company A, Eighteenth, have been received, but as there is also a vacancy for Captain in the same company, the election will be delayed until orders for the latter arrive.

A. E. Ross, formerly a corporal in Company H, of the Sixteenth Regiment, has been transferred to Company G, of the Eighteenth. He is a sharpshooter of several years' standing, and will be a valuable addition to the company. LIEUTENANT CHARLES H. HARLOW, of the United States Navy, gave an interesting little talk yesterday afternoon at the Pittsburg Press Club to a number of the members and some visitors. His subject was his experiences in Alaska.

THE report of the Adjustant General for the year 1893 is expected shortly, as it has been compiled by the printer. Its arrival is anxiously awaited by many company commanders, who desire to see what kind of a rating they have

THE Washington Infantry has secured quar ters on Maine street, near the Pennsylvania depot, in Washington, and expect to take a very large company to the inauguration. Captain Shannon is drilling the men in a manner that shows he means business.

THE regiments of the First and Third Brigades will appear with leggins at Washington next month. It is too bad the Second Brigade could not have gotten theirs in time to give the entire division a uniform appearance. It is probable, however, that they will be on hand in time for the New York trip. An election for First Lieutenant in Company

F, of the Southside, has been ordered for the Isth inst. Second Lleutenant Charles May will have no opposition for the position, and his vacancy will probably be filled by First Sergeant Chris Snyder. The election will be conducted by Captain Samuel Harper, Jr. It's quite the proper thing now for regiments

to attend divine services once in a while, just to let the boys know what the inside of a church looks like. The Eastern regiments have been turning out for that purpose lately, and the Eighteenth expects to go to church about next Sunday week if they have luck. CAPTAIN O. C. COON, of McKeesport, re fuses to enlist any men in his company under 5 feet 8 inches. As a result his company is be-

5 feet 8 inches. As a result his company is beginning to present a very uniform and steady appearance. At the election held a week ago, Sergeant Laver was promoted to the Second Lieutenancy vice Neillie, resigned.

Colonel Wathers, State Inspector of Rifls Practice, will shortly issue a handy little book embracing the decisions and rules issued from division and brigade headquarters since the organization of the guard, relative to rifle practice, and will be used as the standard for governing all State contests and matches.

at division front during the parade is not thought to be feasable, and will scarcely be carried out. It is a question whether the lines would present a better appearance with a division front than in column of companies, as in the former manner with 60 men front, the flanks would certainly be crowded considerably, and the ranks much more difficult to keep even.

CAPTAIN C. S. W. JONES, of the Sheridan Troop Tyrope introduced a bill in the State. sioners to inquire into the advisability of dividing the borough of Sewickley into wards in response to a petition presented in court. The borough now has 600 voters all voting at one polling place.

JOHN M. CLARK yesterday entered suit for damages against the P. and L. E. R. R. Co. He claims that be had leased a piece of ground in the Twenty-fifth ward, ironting on the railroad upon which he had erected a frame building. The railroad company, before the expiration of his lease, took possession of the ground and tore down the building. He claims \$3,000 damages.

The following sentences were imposed in Criminal Court yesterday: Paul Kroker, assault and battery, \$50 and costs; A. W. Moscial of the provided for the appointment of quartermasters in cavalry and artillery with the rank of Second Lieutenant, the same to be appointed by the various commanders of artillery and cavalry. The bill also supplies an omission in the general military law ya unthorizing the Adjutant General and Inspector General to hold annual inspections, if Captain Jones had gone a step further and provided for the appointment of regimental commissaries he would have added greatly to the general usefulness of his bill.

THE Adjutant General seems to be having quite a hard time making a dicker with the

railroad companies relative to the transporta-tion of troops to New York. The best the celtion of troops to New York. The best the celebration committee will do is to allow 50 cents
per man for borad while in New York, with no
provision for traveling expenses. The State,
on the other hand, is pretty rejuctant about
paying anything for transportation, so the
question has narrowed down to whether the
rairroad companies will carry the men for
nothing or let them stay at home. The First
Brigade has made all its arrangements and will
go sure, and it is thought that, with the amount
of the pressure that is being brought to bear,
the other brigades may get there too.

COLONEL LOUIS WATHES, the Division In-spector of Rifle Practice, has hit upon a scheme which will be of interest to veteran marksmen, or those who have qualified for five years. In or those who have qualified for five years. In place of having them wear the five or more bars with the bronze peudant he proposes to issue to them a solid sliver badge of very neat pattern. It will be in the shape of a keystone with a target, and the inscription, "N. G. P. Veteran," across the face of it, suspended from a small coin-like plece, upon which will be the number of years the wearet has qualified. There are 285 of these "veteran" markamen in the division entitled to the new badges, of whom 101 are in the First Brigade, 46 in the Second and 128 in the Third. The badges are almost ready, and will be sent out at once.

Mary Lindsay. There will be no meeting in the afternoon.

The Teachers' Academy will meet on the 22d inst. Of course it is all a secret as yet, but the knowing ones say that at this meeting a resolution will be offered which will do much toward the advancement of the academy. The office of both the academy and guild, it is said, is for mutual benefit among the teachers, but it is surprising that in a place as large as Pittsburg it has no mutual benefit fund to aid teachers in case of sickness, loss of position or age, as nearly all other cities and organizations have.

Educational Echoes. THE teachers who are now on examination

for permanent certificates were yesterday ex-amined in geography and drawing. PROFESSORS FARBAR, Lackey, Smith and Woods, of Allegheny, are each building very pretty residences on Nunnery Hill. MR. JAMES E. ROGERS, of the Hiland dis rict, was re-elected last Thursday evening number of the Central Board of Education. LAST Friday evening the pupils of Room 8, of the Riverside School, had a very pleasant surprise party on their teacher, Miss B. M. Lane, at her residence on Steuben street. Music, singing and dancing were indulged in and a most enjoyable time was had. THE Central Board of Education will re

organize next Tuesday night. President Mc-creanize next Tuesday night. President Mc-Kelvey, Secretary Reisfar and Clerk Mark Lewis will have no opposition as their duties in the past have been so faithfully performed that every one concedes that they are the right men in the right places. MISS ANNIE ASPER of the Liberty school is forming a musical club of which she shall be directress. About 40 of the larger pupils of

the school, with several of the teachers, have signified their desire to become members of the club. It is the intention of the club to give exhibitions to parents and friends at various intervals.
