SPECIAL TELEGRAM TO THE DISPATCH. BROOKLYN, March 3.—Dr. Talmage preached in the Brooklyn Tabernacle this morning on the subject, "Shall America be Reserved for Americans?"

And if you forbid foreigners from coming on the steamers they will take sailing vessels. And if you forbid them from sailing vessels they will come in boats. And if you will not let them come in boats they will come on rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

And if you will not allow wharves to be built for the steamers they will take to the water in rafts. And if you will not allow wharves to be built for the steamers they will take to the water in rafts.

My other word foretells what Americans ought to do for foreigners. Hy all possible means explain to them our institutions. Convince them that our institutions are the best. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

And if you will not let them come in boats they will come on rafts. And if you will not let them come in boats they will come on rafts.

Testing a Diamond. A FINE Diamond looks to other diamonds for its value, since only by comparison can its position be established.

Standards are relative. There is no accepted classification. An old proverb declares that "beauty is in the eye of the beholder."

A new proverb might well affirm of diamonds that "quality is in the standard of the dealer."

To purchase the finest diamond in a store means nothing until it is seen beside the finest in some other store.

Few connoisseurs attempt to judge between diamonds seen in different stores. The stones should always be ordered home on approval.

A side-by-side comparison is imperative. We commend this caution even in the smallest purchase and send our goods to any address free for examination, reference being given.
