SCALPERS COUNTING ON COMMISSIONS

The freight shippers throughout the city are growing more indignant every day at the stringent rules placed upon them, as embodied in the inter-State commerce amendment. They are not only complaining about the penalty attached for violating the law; but say the burden is made greater by the recent revision of the classification. Everything that is shipped now must be plainly marked, and noted on the bill of lading accordingly. The description of the various articles must be specific, and anything tending toward a violation of the

law will subject the shippers to arrest. A meeting of the Pittsburg committee of freight agents was field yesterday in the office of Division Freight Agent Means, of the Pennsylvania lines. The object was to discuss the revised classification and hear the complaints of a number of indignant ship-

The firm are large shippers of whiffletrees, which, they claim, are really the same as iron, and should take the iron rate, away below second-class; but the railroad companies have refused to reduce them. A number of the agents here say the classification is entirely too high, and they would make it lower if they could. These trees are a cheap article. They are put up in packages of 12 and only weigh about 100 pounds. They are not lia-ble to breakage as other high-class freight, and the firm sees no reason why they should be made second class.

At the meeting yesterday, which convened at 10 o'clock and continued in session all day, the matter was carefully discussed. Several of the agents wanted to recommend a reduction to the Classification Committee.

THEY COULDN'T AGREE. Others advanced good reasons why they should be allowed to stand where they are. After hours of discussion it was decided to postpone action on the matter for the

postpone action on the matter for the present.

The firm evidently thought the agents did not know what a whiffletree was, or what it was made of; so they sent one to the office of General Agent McCague, of the Lake Shore road. If the classification is not reduced the firm will probably send one not reduced the firm will probably send one to the Classification Committee at Chicago, and let them personally examine the con

struction of the article. As an indication of how the shippers are observing the law, a case was cited by one of the division freight agents. For the first time in his 17 years of experience he had time in his 17 years of experience he had been asked for a rate on decorated glassware. THE SCALPERS NOT SCARED.

They Say They Will Still be Paid Commissions on Tickets.

York and Chicago, including those in this city, in making an agreement not to pay commissions on tickets, is not having much effect on the ticket brokers and the Pittsburg railroad agents who have been receiving as. Notices have been sent out by all the lines that, on and after April 1, no commissions will be paid. The notices

Not to pay, share or allow any form of commission, salary, side cut or other con-sideration in connection with the sale of tickets of the issues of other companies, or permit the tickets of these lines to be sold at any point on commission.

The stronger lines have issued another notice to the effect that their agents are pro-hibited from neceiving commissions, and any violation of the rule will cause immedi-

A number of ticket brokers, or scalpers, were seen yesterday, and when asked about the matter smiled. They said that the weaker lines would continue to pay the comweaker lines would continue to pay the com-missions just the same as ever.

The railroads in this city that pay com-missions are the Lake Erie and the Pitts-burg and Western. It will be abso-lutely necessary for them to re-munerate the brokers in some way, or the latter will not handle their tickets. As one of the sealoner said. "It is commissions, for they will get the business anyhow, but such roads as the Lake Eric and Pittsburg and Western would get no through passengers at all if they did not give us something for them."

In the Twenty-seventh ward appeals are made from the assessments on 37 pieces of property along Manor street, from the most of which the buildings have been removed. The total assessment was \$78,605, and they claim that the actual value of the property is \$11,087. In the Twenty-ninth ward one house and lot was assessed at \$2,000, and they assert it is worth but \$1,100. In the Thirtieth ward appeals were made on ei ht houses and lots on Carson street, assessed at \$87,340, and claimed to be worth only \$23,965.

—A special from San Antonio, Tex., explains why the Robert Garrett party is visiting Thomasville, Ga., instead of going to the City of Mexico, as it was announced they would on leaving Kingwood, N. The special states that the change was due to the fact that the Garrett party was informed that an organized band of desperadoes, who had heard of the wealth of the Garretts, had determined to capture Mr. Garrett and party at the earliest opportunity after their arrival in Mexico and hold them for ransom. The plan might have succeeded had one of the conspirators not got drunk and disclosed the whole affair. The Garretts have now decided not to visit Mexico, but after visiting a few more Southern resorts to return home to Baltimore. Mr. Garrett's health is reported as much improved. At the Garrett banking house here the change of plans is attributed to a whim of the sick man.

The Secret Cause of Most Ladies' Tron bles Explained and some Sensible Advice given.

bles Explained and some Sensible Advice given.

It is safe to say that not one 'woman in ten thousand lives a single week in which she does not either cry or feel like crying. The carea of life, disappointments, and, more than all else, weaknesses and pains make all women more or less miserable. This is all wrong. Women were made for happiness, not for misery. When a woman is weak she requires strength. Her body, her mind and all her faculties and functions must be put in a healthy condition, or she cannot secure strength. Nature is always ready to do this, but nature almost always requires assistance, and the question therefore is, "How can we best assist nature?"

The finest physicians in the medical profession have agreed that nothing so surely and casily does this as pure whiskey taken in moderation, either before meals or between meals. The effect is to gently and healthily stimulate all the faculties to vigorous action, and thus nature is assisted and strength is given. There are hundreds of thousands of ladies in America, to-day, who are growing stronger, healthier and more attractive in appearance by the judicious use of Duffy's Pure Malt Whiskey, Many of these ladies are the wives of ministers and professors, and hundreds of them are temperance women. They realize that Duffy's Pure Malt Whiskey is a medicine, not a drink, and that it furnishes the best and only positive help's to weakened bodies that has ever been discovered. Great care should be exercised, however, to secure only the genuine, which is absolutely pure, for there are many so-called whiskies in the market that are a positive injury to anyone who uses them. We venture to assert, however, that not one woman in five hundred who will carefully use this great aid to health in moderation will continue to suffer from weaknesses, but, on the contrary, will find a renewal not only of youthful vigor, but of color, brightness, and all those qualities which indicate the presence of perfect health.
