TO A HANDSOME NEW BUILDING.

A \$75,000 Set of Offices Will be Occupied on Seventh Avenue.

THE PIRST STEP TO IMPROVE A STREET

In the not-very-far-distant future the hello In the not-very-far-distant future the hello business will be transacted at the corner of Seventh avenue and Cherry alley, or Montour way, in modern parlance. The Central District and Telephone Company has purchased the Lutheran Church building on Mr. Pape propagate and want to come West, The Fleming Manufacturing Company buy \$15,000 worth of steel from the firm yearly, and Mr. Pape propagates it a first-class concern. chased the Lutheran Church building on chased the Lutheran Church building on that corner, and purposes to erect its offices, They employ 100 men." etc., there, on the site now occupied by the church building, and will also cover the ground now occupied by a dwelling house in the rear of the church. The latter is, as antiquity goes west of the Alleghenies, quite an old building, having been built in 1840. It seems to be well preserved, but is not considered just the correct thing for the telephone business. The lot is 66x100 feet, and the price paid was \$56,000.

The company will make the new building it proposes to erect the central office, and it will be a good one. No specifications are furnished, as the construction will not begin for some time, but the cost is fixed at \$75,000, and it is likely to be the precursor of several fine structures on that avenue.

After the "glad tidings, how that the promise which was made unto the fathers, God hath ifilled the same unto us their children, have been declared from that corner for # years, it becomes the headquarters of an instiution that will send tidings both glad and sor Pentecost when, as now, "there ap-ured unto them cloven tongues as fire." By the way, have they ophones in Jerusalem? Had there telephones in Jerusalem? Had there been a few phonographs in that building on that day when Parthians and Medes, and Elamites and the dwellers in Mesopotamia and in Judea and Cappadocia, and Asia, Phrygia and Pamphylia, in Egypt, and in the parts of Lybia about Cyrene and strangers of Rome, Jews and proselytes, Cretes and Arabians were heard speak in their own tongues the wonderful works of God, we would listen to them with more amazement than did that multitude to St. Peter, for at that time miracles were considered sort of matter-of-fact affairs, while now their assertion would set scientists to work with a vim unknown at any time since the day the reign of the Baconian philosophy was established.
