Every man who is obliged to work for his living should make a point to lay up money for that "rainy day" which we are all likely to encounter when least expected. Unquestionably the best way to provide for this emergency is to open an account with a good, live Bavings Bank.

Accumulated money, thus cared for, is safe, is rapidly increasing, is always ready to use when needed, and is free from the many uncertainties and fatalities of life.

Strive at once to get together five dollars, or even one dollar, and make your first deposit. Then resolve to add to it as often as you can, even though the amount be small.

You will be surprised with the magic comfort and strength of this course. Nobody knows, without having tried it, how easy a thing it is, without being miserly or stingy, to save money, when once an account with a bank has been opened.

A man then feels a new ambition and a constant desire to enlarge his deposit. It gives him plequant lessons in frugality and econount, weans him from the habits of extravagance, and is the very best guard in the world agrainst intemperance, dissipation and vice.
