#### THE BUDDING SPRING

Has Caused a Moderate Improvement . in the Condition of Trade.

INCREASED RAILROAD BARNINGS.

Reports to Bradstreet's Are Generally Hopeful in Their Tone.

THE PAILURES ARE MORE NUMEROUS Than Last Year, However, and R. G. Don & Co. Do

Not Like the Outlook. Reports to Bradstreet's show a slight improvement in general trade, due to the opening of spring. The drygoods lines do not share in this activity. It is thought that good crop prospects will encourage legitimate business. R. G. Dun & Co. find

matters generally rather dull and quiet.

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, April 5 .- There is a moderate improvement in the state of general trade noted in telegrams to Bradstreet's this week. Spring weather is largely responsible for this. The greatest relative activity is at Kansas City, St. Paul, St. Joseph and Louisville, though a fair distribution is re-ported at Philadelphia, Boston; Cleveland, St. Louis, San Francisco, Galveston and New Orleans. Farming is well advanced West and South, and, excepting rice crops,

are promising well. At New York groceries are in fair demand, somewhat in excess of a year ago. Commission liquor dealers report general trade improving, with prices, particularly for Eastern rye whiskies, tending upward. Cigar manufacturers and dealers in seed leaf tobacco, dealers in drugs and turniture report trade fair only. Stock values at New York have improved sharply on the prospect of the intervention of a leading banking firm in the affairs of Atchison.

GOULD ALL RIGHT. The strength of the Gould stocks leads to the belief that that interest has been plaeated in the matter. Bonds are strong and Bradstreet's gross earnings of \$13,775,957 in March, against \$12,347,553 in March, 1888, a gain of 12 per cent.

Reports to Bradstreet's of mercantile failures throughout the United States during the first quarter of the current year show a total of 3,569, against 3,053 in the first quar-ter of 1888. The aggregate liabilities of failing traders are \$41,861,000, against \$34,-108,000, and actual assets \$20,376,000, against \$17,936,000 in the first quarter of 1888. Five or six failures in Boston with exceptionally heavy liabilities will more than account for the \$7,000,000 excess liabilities this year

the \$7,000,000 excess liabilities this year over the first quarter in 1888.

The bank clearings at 40 cities for March aggregate \$4,479,128,091 against \$3,782,-909,740 in 1888, an increase of 18.4 per cent. The total for the first three months of 1889 is \$13,313,788,214 against \$11,376,678,609 during the first quarter of 1888, an increase of 17 per cent.

GOOD CROP PROSPECTS.

The reported generally satisfactory condition of the winter wheat crop, tavorable weather throughout the wheat belt and fair progress in planting wheat, has resulted in a lighter volume of speculative trading—less than one-half as much as last week—send in spite of renewed inquiries from the

Corn, with a good foreign demand, is firmly held, and 1 cent higher. Oats are steady. The heavy arrivals of raw sugar are offset by limited offerings at extreme prices in anticipation of higher prices later on. Re-finers have full stocks of raw—26,000 tons, against 31,000 tons a year ago, while im-porters have only 21,000 tons against 99,000 tons a year ago. The "trust" is reported to have transferred the American refinery at have transferred the American refinery at San Francisco, to avoid legal complications. The world's visible supply and the crop out-look favor full prices, while the increased American consumption of foreign sugar within three months is placed as high as 13 per cent, due to short home crop. Prices are one-sixteenth to three-sixteenths of a cent higher on the week at New York. Refined is a quarter of a cent off at San Fran-

DRYGOODS LESS ACTIVE. The actual distribution of coffee is light. Prices have been lower, but Thursday's reaction brought them to last week's close. Fuil crop estimates and financial uneasiness abroad have lent heaviness to option dealings, with prices off 1/4c. Drygoods jobbers are less active in New York and Boston. The March distribution in New York did not equal expectations. Com-pared with 1888 the spring business in most

ines at both markets shows a satisfactory Resumption of work at Fall River has depressed print cloths prices 1/4c. Aside from this prices are generally fairly well held, with brown cottons relatively weak-est. Low grade ginghams have almost disappeared as a weakening factor in the market. Woolen goods are in good movement on old orders. Raw wool is dull, with the tone of the market weak: prices unchanged tone of the market weak; prices unchanged. Raw cotton is 1-16c higher on good demand

and a lighter crop movement.

There have been reported to this journal for the past three months 160 industrial strikes, involving 36,731 employes, as compared with 190 strikes and 71,952 strikers in three months of 1888, and 262 strikes and 190 310 strikes and 1887. 120,219 strikers in 1887. Copper is still held at 18340 per pound in this market, and consumers are unable to obtain supplies from the syndicate stocks at a lower price. American and European parties interested are in consultation at Paris. Prices are much lower abroad. The opinion prevails that no important decline will be realized

here for a month or six weeks

TEADE DULL AND QUIET.

Such is the General Repert Received By R. G. Dun & Co.'s weekly review of trade says: Bailroad earnings show an increase of about 15 per cent over last year for March, so far as reports have been received, and yet stocks are lower, though at later quotations partial recovery is seen. Trade at interior points is dull or quiet in nearly all cases, though at Uleveland it is fairly satisfactory; with spring business well sustained; at Omaha it is considered goods at Kansas City improving, and at St. Paul trade in dry goods and clothing is very active. There is improvement at Detroit, particularly in ship-building, and lamber is firmer. The money markets are easy and collections have improved somewhat at Kansas City and Detroit, but have fallen off at Atiants. Wool has declined for nearly all qualities, except New Mexico and Texas. The average of 196 quotations is 248 cents. The outlook is favorable for a good demand when the new clip appears. Depressing influences are felt in the several branches of the drygoods and clothing trade, not the least being the accumulation of stocks which the open winter left used. As we cotton is ½ cent stronger. In the iron market more pressure to realize is seen here and at Philadelphia, and Southern iron is offered at \$20 to 5100 below the corresponding Northern grades. Ber iron remains

very dull, and rails have sold moderately without lifting of prices. The alioument for the year has been increased 200,000 tons. In the coal market no improvement appears. The sales of copper abroad at about 241 per ton, with no news of settlement between the syndicate and producers, causes atagnation here, and while lake is sold at 15½ cents for April, the quotation for G. M. B. July is only 10.65 cents. Oil has been a shade higher, but pork 50 cents lower. Pressure to sell abroad and fear of monetary troubles growing out of the Paris difficulty, have adduced the price of coffee a cont. The average prices of all commodities have again declined over half of 1 per cent for the week.

The most important change is the fall of 2½c in wheat, which naturally weakens as the dreams of expected famine give place to the realization of large unsold stocks on hand. Reports from growing and sowing regions continue to forshadow a large yield this year, and the demand from abroad, though better since prices fell, is not large enough to prompt a carrying of surplus stock on hand. Corn has advanced ½c, export demand continuing, and oats a fraction. The favorable crop prospects strongly sustain the confidence of those who look for improvement in all branches of legitimate business. The export business distinctly improves already, and for the past five weeks the value shipped from this port aggregates \$34,070,000 against \$25,900,000 for the same weeks has year. The apprehension of stringency in the money markets about April 1 has now passed and the heavy liquidation in securities on foreign account causes as yet no such withdrawal of foreign capital as has been feared. Secretary Windown has made it clear that he will not at present pay 105 for ½c per cents, or purchase 4 per cents in preference, and during the past week the Treasury has taken in about \$4,500,000 more money than it has paid out.

The business failures number 222, as compared with a total of 240 last week and 240 the week previous. For the corresponding week last y

#### IN WANT OF MORE ROOM.

The Offices of the Westinghouse Electric Co. Will be Moved. The offices of Mr. Byllesby, Vice President; Mr. Rowand, Secretary, and Mr. Mc-Cullough, Auditor of the Westinghouse Electric Company, are to be removed to the new Westinghouse building on Penn ave-

new westingnouse building on Fenn avenue next week.

The company makes this change owing to the want of more room for the works.

All the rooms now occupied by the officials in the old building on the corner of Garrison alley and Duquesne way will be converted into a part of the machine shops.

The stage of water yesterday was over eight feet, but falling. The Alarm, Penny and Jim Gilmore were preparing to go out with tows. No boats arrived from lower

### ports with empties yesterday.

In Pittsburg would look well in one of our \$10 or \$12 spring overcoats, silk-faced as they are and cut on the latest of English box patterns, or take and examine our suit line and likewise you are favorably impressed. \$10 or \$12 gives you choice of some very nobby suits. To-day we expect a big trade; 25 extra men are in our clothing department, against \$12,347,553 in March, 1888, a gain of 12 per cent. popular and we mean to continue with the good work. P. C. C. C., cor. Grant and Diamond sts., opp. the new Court House.

> Kid Glove Bargains! 2,400 dozen, our own importation, at 68c, 75c, 89c, \$1, \$1 25; best for the money anywhere, at Rosenbaum & Co.'s.

SI. Last Month. \$1. April is positively the last month for \$1 per dozen cabinets at Elite Gallery, 516 Market street, Pittsburg. Come early and bring children, ram or shine. Use elevator.

ECZEMA CAN BE CURED. I

The Most Agonizing, Itching, Burning and

by the Cuticura Remedies for \$6.

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and its worst stage. I tried different doctors and its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything, I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA REMEDIES in my house, as I find them useful in many cases, and I think they are the only skin and blood medicines.

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. ISAAC H. GERMAN, Wurtsboro, N. Y.

A Most Wonderful Cure.

A Most Wonderful Cure. I have had a most wonderful cure of salt rheum (Eczema). For five years I have suffered with this disease. I had it on my face, arms and hands. I was unable to do anything whatever with my hands for over two years. I tried hundreds of remedies, and not one had the least effect. The doctor said my case was incurable. I saw your advertisement, and concluded to try the CUTICURA REMEDIES: and, incredible as it may seem, after using one box of CUTICURA and two cakes of CUTICURA SOAP and two bottles of CUTICURA RESOLVENT, I find I am entirely cured. Those who think this letter exaggerated may come and see me for themselves. GRACE P. HARKHAM, Belle River, Ontario.

#### Cuticura Remedies

A TABLE OF DAILY SAYINGS

For 10 Years. | For 20 Years. | For 25 Years. | For 40 Years. Per Day. | For 5 Years. |

The above table shows what can be accomplished by anyone disposed to lay aside a small portion of their weekly receipts, and depositing the same in some well-managed Savings Bank.

Every man who is obliged to work for his living should make a point to lay up money for that "rainy day" which we are all likely to encounter when least expected. Unquestionably the best way to provide for this emergency is to open an account with a good, live Savings Bank.

Accumulated money, thus cared for, is safe, is rapidly increasing, is always ready to use when needed, and is free from the many uncertainties and fatalities of life.

Strive at once to get together five dollars, or even one dollar, and make your first deposit. Then resolve to add to it as often as you can, even though the amount be small.

You will be surprised with the magic comfort and strength of this course. Nobody knows, without having tried it, how easy a thing it is, without being miserly or stingy, to save money, when once an account with a bank has been opened.

A man then feels a new ambition and a constant desire to enlarge his deposit. It gives him pleasant lessons in frugality and economy, weans him from the habits of extravagance, and is the very best guard in the world against intemperance, dissipation and vice.

If you are not already a depositor, and have no special bank in view, permit us to suggest that you at once try a deposit with

THE PITTSBURG BANK FOR SAVINGS, No. 60 Fourth Ave., Pitteburg, Pa. To all who may thus favor us, we promise a courteous and accommodating treatment, and it shall be our endeavor to make our business relations, when once formed, pleasant and of long continuance.

NATURAL GAS METER.

Sate, Accurate, Durable, Economical and Noiseless.

Over 1,000 already in use in Pittsburg and denity, giving perfect satisfaction to the conumers and the gas companies. This is the only gas meter manufactured that will resist any pressure that can be admitted, and, at the same time, be relied upon to measure natural gas accurately.

It is of superior mechanical design and workmanship, and will last longer in use than This meter is constructed entirely of metal,

and no part of it can in any way be injured or

mpaired by the action of the gas. It is so constructed that it is not liable to get out of order: the moving parts are almost in perfect equilibrium, requiring a pressure of less than one-hundredth of a pound to do the work of measuring the minimum; and it will likewise measure the maximum quantity of gas, or its full capacity, at high or varying pressures, without any readjustment of the parts. Every revolution discharges a certain quantity of gas, and the measurement is entirely exact, whether the quantity passing through is at the rate of 1 cubic foot or 1,000 and entirely noiseless in its operations.

Consumers will readily appreciate the advantages this meter enables them to secure. Al who are desirous to economize in the use of gas, and pay for just what they use, can now do so, instead of being obliged to pay a certain sum per month, or per annum, which precludes any opportunity to realize the benefits which should result from a careful and economical use of the gas.

All house meters are tested at the works to a pressure of 20 pounds per square inch—or, over 80 times the pressure at which the gas is usu-These meters are manufactured and sold by

SIGNS

The progress and improvements of the past decade are most apparent in the Clothing trade. Ready-made Clothing, both in its manufacture and mode of distribution, has undergone wonderful changes for the better; it has now to be honestly made of conscientiously selected materials, and must be sold in the light of day or under the searching rays of electric light, if a reputation, such as .. .: .:

is to be built upon it. The stigma that once attached itself to the business has died out; the only remaining faint sparks are flick-ering in small and miserable dark salesrooms where a sliding scale of prices prevails; and even such places only get a very precarious patronage from a surplus of strangers to be found in every large city, mostly from the rural districts, who, out of sheer ignorance, allow themselves to be steered into such dens. But the guileless countryman is not the only one that is caught by trickery. His self-satisfied, know-it-all city cousin is sometimes caught. Here in our midst we have shoddy run riot in "cheap" made-to-order tailoring, and the still "cheaper" ready-made "clodings," and the worst of it is, it takes, until it is found out. You have tell-tale evidence of such practices in certain ungainly, baggy-kneed trousers
