The Washington Authorities Prepared for Oklahoma's Opening.

HOW TO ACQUIRE A HOMESTEAD. Commissioner Stockslager Writes a Letter

of Explanation.

POSTOFFICES FOR THE NEW CANAAN.

The Army to be Held in Rendiness to Put Down Any Serious Disturbance.

Commissioner Stockslager has made public a letter concerning the entry of land of Oklahoma. He explains what will constitute priority of claim. Every effort is to be made to provide proper postal facilities for the new Territory. United States marshals will preserve order. If they fail, the army will be called on for assistance.

WASHINGTON, April 17 .- Commissioner Stockslager has made public a letter concerning entries in Oklahoma, addressed to Mr. D. D. Halstead, Purcell. It runs thus: In reference to a memorandum of five questions from you under date of the 15th inst., I have to state that it is not usual to answer hypothetical questions, but in view of the anomalous condition affecting the public lands in Oklahoma, I will state as follows,

First-A person desiring to become an actual settler under the homestead laws may initiate his claim by entry at the District Land Office, after properly selecting and examining the land desired, in which case he is allowed six months from date of entry, within which to establish his actual residence on the land, or if he so elect, he may initiate his claim by ACTUAL SETTLEMENT

On the land, which may consist of some act of acts connecting himself with the particular tract named, said act or acts to be equivalent to an aunouncement of such as his intention, and from which the public generally may have notice of his claim. Thereafter he is allowed three months within which to make his claim of record by entry of the District Land office. Which of these two methods should be chosen is a matter for the party's election, according to the circumstances and his own judgment of which is most desirable.

Two and three-Of two bona fide settlers or claimants, the one whose settlement or entry is prior in time will have the superior right. When the inception of the claims is simultaneous—that is, at the same time precisely the legal right is equal, and the question can be decided according to the equities and the land awarded to the party having the superior equities, if any; if none, then it has been the bractice to put the land up between the claimants and to award the right of entry to the one bidding the highest for the privilege.

DON'T BE IN A HURRY.

Fourth-The act of March 2, 1889, enacts that until said lands are opened for settlement by proclamation of the President, no person shall be permitted to enter upon and occupy the same, and no person violating this provision shall ever be permitted to enter any of said lands or acquire any right thereto. The said isnds or acquire any right thereto. The President's proclamation of March 23, 1889, calls attention expressly to this provision, and directs that the law be strictly enforced. Circular of April 1, 1889, copy inclosed.

Fifth—I am not prepared in advance of a case arising, to give an opinion as to what particular act or acts will be considered a violation of the law in this respect.

The Postoffice Department officials are making active preparations for the immediate opening of two postoffices in Oklahoma, one at Kingfisher stage station and the other at Guthrie, where the United States Land offices are to be established. Several postoffice inspectors are now on the ground ex-amining proposed mail routes into the country and between all important points. POSTAL PACILITIES.

For the present all mails will enter the Territory from the north over the Atchison, Topeka and Santa Fe Railroad to its south ern terminus, and from there it will be carried forward by Government contractor over regularly established routes. It is ex pected that the mail scilities will equal the needs of the settlers.

Mail for the land office towns and other

principal points will probably go forward on the very day, or at least on the day fol-lowing the one on which the President's proclamation goes into effect. General Clarkson said to-day that probably 25 post-offices would be established in the new Ter-ritory within the next 30 days. If no better modations can be had, postmasters will supply themselves with tents or whatever else can be made available for shelter.

The preservation of law and order in the new Territory has occupied much of the at-tention of the authorities here, and a Cabitention of the authorities here, and a Capinet meeting has been held to consider the subject. The plan proposed is that on April 22, the day on which the rush into the supposed land of milk and honey is to begin, the maintenance of law and the preservation of order shall be vested in the United States Marshal at Muscogee.

THE ARMY IN READINESS.

He will be empowered to employ depu-ties, but of course he will not be able to have at his command a force large enough to be effective in case there should be very serious disturbances. In case of unexpected disorder the Marshal will call on the army to aid in maintaining the law, and while nominally the civil authorities in command would act, police work will be performed by the military. General Merritt, who is in command of the Department of the Mis-

in command of the Department of the Mis-souri, with headquarters at Fort Leaven-worth, Kan., will be on the ground and will assume personal command of the army. He has been given discretionary power in regard to the number of men to be ordered to the Territory, and if necessary, he can draw on the entire resources of the Depart-ment of the Missouri. It is the opinion of the War Department authorities that he will have at his disposal all the men that he will possibly need, no matter what may happen. It is the firm determination of the authorities to preserve law and order at sizes.

OFFICIAL ANTICIPATIONS.

Secretary of War Proctor says that he does not anticipate any very serious trouble when the Territory is thrown open to settle-ment. There might be some lawlessness, but nothing more than the civil authorities. with assistance, could hold in check. If there was anything more serious there would be troops enough on the ground to put it down in short order. But the Secretary believes that the majority of the settlers are disposed to be law-abiding, and that while there may be some disturbance, as would be natural in any new community, it will not be of a serious nature.

Attorney General Miller said this after-noon that the United States Marshal would be instructed to call on the military, if necessary, and that they would co-operate with him in the preservation of peace. The greatest apprehension is felt at the two land offices at Guthrie and Kingfisher, and to prevent any disturbance there a strong military force will be stationed at both

A REALLY GRAVE QUESTION.

Has an Election Inspector Any Right to be Elected Justice of the Peace?-His Domain the Commonwealth.

From time to time people have feebly lifted up their voices in favor of a reform in the matter of selecting men for the office of the Justice of the Peace, and none too soon for somehow or other, the office seems to have a peculiar fascination for scalawags, and yet it is one of the most importance in the Common-

is one of the most importance in the Commonwealth.

The matter has been brought into further prominence by an argument before Judge Magee, in which the question to be decided is whether the office be a local or a general one. The question is raised on the appeal of James Higbee et al., who contest the election of Thomas Roach as Justice of the Peace in Bethel township: Judge Fetterman for petitioners, and Guthrie contra.

It seems that our Legislatures, since the adoption of the Constitution of '73, have been negligent in providing the machinery to carry out its instructions in this, as well as in those sections relating to the regulation of railway and other corporations. The objection made to Roach is that file was an election inspector, and had no right to sit on the board when he was himself a candidate. In the absence of legislation to enforce the new Constitution, it is contended that prior laws regulating the manner of elections must remain in force. An act passed in 1839, for the conduct of fall elections, prevents a man sitting as an election officer when he is a candidate, because he is running for a general office in which people outside of his township are interested; but it is contended that the principle does not apply to spring elections, the contention being that they are for the conduct of purely local affairs, and if the people interested are satisfied to elect a member of an election board to another office, it is purely their own business.

On the other hand, it is contended that the

board to another office, it is purely their own business.

On the other hand, it is contended that the office is a general one, as not only does a Justice of the Peace act for the entire county, but may perform services for people in any part of the State. There are no allegations as to unfitness, morally or intellectually, as to the character of the man selected.

GOSSIP ABOUT THE P. & W.

There is Some Talk of Making King President of the Road.

A railroad man, talking yesterday about the Pittsburg and Western Presidency, thought that Thomas M. King would be Mr. Callery's successor. The Baltimore and Ohio road holds some of the stock in the Pitts burg and Western, but not enough to centrol the election. It is believed that Harry Oliver,

the election. It is believed that Harry Oliver, Jr., and John Chalfant would favor Mr. King. It elected President of the Pittsburg and Western Mr. King would still retain his present position with the Baltimore and Ohio.

On the other hand, it seems hardly probable that there is any truth in the above rumor. The Baltimore and Ohio and Pittsburg and Western used to pull together, but within the past six months they have drifted apart. As the Pittsburg and Western pays better, its officials are becoming more independent. Recently the Pittsburg and Western made ar rangements with the Chicago and Atlantic road for the latter line to carry all their traffic to Chicago. The connection is more direct; but it was a cruel stab at the Baltimore and Ohio.

Budly Bruised.

Senator Edward F. Reilly, New York, writes:
"STATE OF NEW YORK, SENATE CHAMBER,
"ALBANY, N. Y., March 21, 1887.
"Some weeks ago, while sleigh riding, I was upset and thrown with great force on the road. My left side and shoulder were much bruised and I suffered great pain." I tried various external remedies without avail. Fortunately a friend brought me four ALLCOCK'S POROUS PLASTERS. I put two on my shoulder and two on my side. In two hours the pain diminished and I slept well that night. I was very much better the next morning and continued to improve for four days, when I found myself completely recovered. It is astonishing how quickly ALLCOCK'S POROUS PLASTER relieves the soreness and swelling."

There was such a contraction of the muscles that she could a straighten her limb, and although she wore the usual high heel shoe, it was impossible for her to bring her heel to the ground when walking. After suffering on in this condition for fourteen years, she consulted one of the surgeons of the Polypathic Surgical Institute, and was convinced that it was NOT TOO LATE to be cured. An operation was performed, and the deformity entirely removed, and although it is now three years since the operation, her cure has remained permanent. She walks perfectly, and has no further use for a high heel shoe. A Man Carried From a Death Bed to Dr. Smith, the Magnetic Physician, at

It is seldom necessary to comment upon facts or upon that which is truly wonderful, yet one cannot refrain from expressing profound ad-miration for the skill which is raising so many miration for the skill which is raising so many sufferers from beds of pain and distress and restores them to health and vigor. It scarcely seems credible that such marvelous results can be obtained by the laying on of hands, and we should have been loth to believe these wonderful reports of Dr. Smith's remarkable cures only for the fact that we have been an eye witness, and seeing, you know, is believing. What we see with our own eyes we are bound to believe. The following cases treated by the Drs. Smith at the Grand Opera House and in their parfers. at the Grand Opera House and in their parlors, at No. 502 Penn avenue, speak for themselves. Mr. John Foley, who resides at Milivale, was taken with a terrible pain in his right shoulder upward of five months ago. The attack came on suddenly, like a shock of paralysis. The on suddenly, like a shock of paralysis. The arm became useless in a few moments' time. He could not use the hand or move a finger. A short time after the attack he began to experience pain in the shoulder. The pain increased in severity for a number of days, when it was discovered that there was an accumulation of pus in the shoulder joint. Mr. Foley applied to a doctor, who opened the shoulder with the knife. Large quantities of pus was discharged at the time and a fistula formed, which continued to discharge a thin acrid pus. In this helpiess and hopeless condition he applied to the Drs. Smith, the magnetic physicians, at 502 Penn avenue, and was cured perfectly. He has regained the use of his hand and arm, and is now well and happy. John McDonald suffered ten years from sciatica. Mr. McDonald is an old gentleman, and was helpless for several years. He was cured on the public stage by one magnetic treatment. Scores of cases of loss of voice have been cured on the public stage by one treatment, as well as cases of rheumatism, neuralgia, catarrh, asthma, bronchitis, and, in fact, all kinds of disease. All that the doctors do is to apply their hands to the affected parts for a few moments, when the cure is completed. Drs.
