The delegates will furnish who should have attended to it, six months afterward, indicates that SOMETHING WAS WRONG. "It is strange, too, that such an important bill should lie on the Governor's table for ten days before it was discovered. The Governor excuses himself by saying that he was busy examining into the merits of appropriation bills that he began to veto as soon as he found out the Revenue bill would not become a law. In fact, he cut off\$1,000 .-000 in appropriations because the bill had failed. He reduced the appropriation for the Allegheny Home for Colored Children \$2,500; cut of \$25,000 for the Allegheny Hospital, and, in a similar manner, shaved down the money that should have gone to support insane asylums, hospitals, schools, etc., throughout the State. At the same time he gave the State Agricultural College, near Bellefonte, (his own school), \$112,000. An expert educator told me that boys could be educated in Germany or at Edinburgh for less money than the State pays to this school. "The secret of the Governor's activity in cutting down the legitimate appropriations to charitable institutions in the State is his great anxiety to pay more of the State debt than Pattison did. The law requires that \$250,000 is to be paid on the debt every year; but Beaver has already paid \$1,200,000. while the hospitals, etc., have had to suffer. The moneys in the sinking fund and the annual revenues are ent to pay off the debt in a short time, without resorting to such a policy of cutting appropriations. Continuing, Senator
