

A FLASH OF MEMORY

Causes Miss Mitchell to Charge Mr. Gibbons With Abducting Her.

SENSATION IN COURT YESTERDAY.

The Strange Revelations in That Sheehan Heirship Claim.

BAD HABITS IN JURIES BROKEN UP

The Sheehan will contest was continued in Orphan's Court yesterday. The first witness placed on the stand was Jerry Gibbons, the brother-in-law of the deceased, and to whose care the child was first confined, and who took her out to Keokuk, Ia. He had a very bad memory for names, but said that Mary Sheehan, the girl confined to him, had died of malaria. She was attended by Dr. Russell, and he gave the names of some people who he said attended her. He said that she died in the winter of 1887, and that she was buried in the cemetery at Keokuk, Ia.

A WORD ABOUT CATARRH.

"It is the mucous membrane, that wonderful semi-fold envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it is cast into the very vitals, and renders life a long-drawn breath of misery and disease, dulling the sense of hearing, transmuting the power of speech, destroying the faculty of smell, tainting the breath and killing the refined pleasures of taste. Insidiously, by creeping on from a simple cold in the head, it attacks the membranous lining and envelops the bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all alternatives are simply procrastinated sufferings, leading to a fatal termination. SANFORD'S RADICAL CURE, by Inhalation and by Internal Administration, has never failed, even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly driven out."
