

HOPEFUL ONCE MORE.
The Army of Office Seekers Confident of Soon Being Satisfied.

SOMETHING MUST HAPPEN SOON,
Despite the Fact That Harrison is Frightfully Slow and Haughty.

MADE THEM VERY ANGRY AT HIM.
Pennsylvania's Contingent Waiting for Quay to Get Over His Silliness.

Hope springs again in the breasts of the office seekers who are getting so angry at President Harrison for his slowness in turning out Democratic officeholders. They think some important appointments are sure to be made this week, now that the Centennial jubilee is over. Pennsylvanians are among the anxious ones.

(SPECIAL TELEGRAM TO THE DISPATCH.)
WASHINGTON, May 5.—Excursions on the President for the extraordinary slowness of his movements in the appointment of Republicans to office have been and are continuing for the last 24 hours, or since the close of the week with no more important appointments than his own brother and his friend Alexander. But hope seems to spring eternal in the breast of the office seeker, and this evening the crowds in the hotels appear to have almost forgotten the disappointments of the week, show an inclination to pardon the President on account of the fatigue necessarily attendant on his Centennial trip, and are canvassing with interest the probabilities of a good lot of announcements for the week now begun.

WASHINGTON, May 5.—The President for the extra-slow slowness of his movements in the appointment of Republicans to office has been and are continuing for the last 24 hours, or since the close of the week with no more important appointments than his own brother and his friend Alexander. But hope seems to spring eternal in the breast of the office seeker, and this evening the crowds in the hotels appear to have almost forgotten the disappointments of the week, show an inclination to pardon the President on account of the fatigue necessarily attendant on his Centennial trip, and are canvassing with interest the probabilities of a good lot of announcements for the week now begun.

WHAT IS EXPECTED FOR THE WEEK.
There seems to be a conviction that a Public Printer, a Chief of the Bureau of Engraving and Printing, two District Commissioners and possibly two Civil Service Commissioners will be appointed. It appears to be a pretty general conviction that Palmer, of Chicago, will get the Public Printer, Plum, and Meredith, as everybody thinks, had the Bureau of Engraving and Printing in his possession, figuratively speaking, for some time. There is another personal friend of the President who is well placed, and if Palmer be appointed his selection will be due to his close friendship with Harlow, the President's Private Secretary.

MENTIONED FOR PREFERENCE.
For Commissioners of the District, to succeed Webb and Wheatley, one seems to have any knowledge of the President's selection. The District Governor was never in a much worse condition of demoralization, and there is a general hope that first-class business men will be appointed, but past experience invites despondency rather than hope. For the Democratic appointments, William Dickson, a local leader, popular with both Democrats and Republicans, is the most conspicuous.

CONTEMPT FOR A COURT MARTIAL.
Even Conservative Papers Denouncing the Verdict in Lydecker's Case.

(SPECIAL TELEGRAM TO THE DISPATCH.)
WASHINGTON, May 5.—Contempt for the Lydecker court martial grows in force, and if the gold-laced and spangled gentlemen who composed the court would but dignify their identity by the name, they would not only escape contempt, but would certainly be roughly handled if they would penetrate to those sections of the city where the poor are forced to struggle for rights to which the water system cannot be extended on account of a lack of quantity. These poor people give ample evidence of their indignation at the verdict, and the complete exculpation of Major Lydecker.

WILL OBSERVE THE SABBATH.
HUBB, DAK., May 5.—A day to-day all Sunday trials will be taken off from the entire Dakota division of the Chicago and Northwestern Railroad. It covers a trackage of 800 miles.

CHOKING CATARRH.
Have you awakened from a disturbed sleep with all the horrible sensations of a scalding cough, sore throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to cough your throat and head of the catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and the faculties, and making the system unresponsive to the ministrations of the physician? How difficult it is to rid the system of this pestiferous matter, and how often it returns with a vengeance? How difficult to protect the system against its return? How often it returns with a vengeance? How difficult to protect the system against its return?

Father and Daughter Who Cure Rheumatism and Neuralgia by Laying on of Hands—Strange Effect Upon the Operators.

(SPECIAL TELEGRAM TO THE DISPATCH.)
BEAVER FALLS, May 5.—In the little hamlet of Fetterman, a suburb of the place, lives a family named Texter, the father and daughter of which possess the remarkable gift or faculty of curing the most obstinate cases of rheumatism, neuralgia and kindred pains by the laying on of hands. For years the old gentleman, Mr. Robert Texter, has exercised his peculiar gift, and hundreds in this neighborhood will voluntarily testify to the remarkable cures he has performed. When the patient is brought to his presence he utters not a word, asks no questions, and will let the afflicted to speak. He then advances, bows gently upon the face of the patient, and the afflicted parts disappear, and almost instantaneously the pain disappears. As a rule but one visitation is needed and the cure is permanent. In some cases, though, two or more applications are necessary. He has never been known to fail in effecting a cure.

NASHVILLE, May 5.—The nomination of Carter Harrison, brother to the President, as United States Marshal has been universally commended in this section.
