A WEEK AT LIBERTY

Transactions in Cattle at the East End Live Stock Yards.

A SLIGHT DECLINE IN PRICES.

Shoddy Foot Gear Being Rapidly Forced Out of the Market.

HIGH LICENSE HARD ON CHEAP CHEESE

OFFICE OF PITTSBURG DISPATCH, THURSDAY, May 23, 1888. Cattle are a shade off from last week's prices. The decline was chiefly on heavy entile, for which there were few customers. A number of loads were shipped to New York yesterday. Smooth butchering stock weighing 1,200 to 1,250 about held their own. There has been a good demand for sheep and lambs all the week. Supplies of yearings and spring lambs were not sufficient to meet de-

Receipts of hogs were nearly 6,000 head loss than last week and prices advanced 10 to 15c.

For several days there has been little differ ence between prices at Chicago and East Lib-erty. The price of tops at Chicago to-day is \$4 40 to \$50, a drop of 10c from yesterday. Rates at Liberty this morning were the same as at Chicago yesterday.

Following are returns of the week's transactions at East Liberty yards:

Sheep-Receipts, 1,706 head; shipments, 200 head; market steady; fair to choice, \$3 00£4 50.

BUFFALO—Cattle quiet and easy; receipts, 21 londs for sale. Sheep and lambs active: receipts, 4 loads through; 27 sale; sheep unchanged: lambs, spring, \$7 5065 20; yearlings, \$4 00@4 50. Hogs fairly active: receipts, 2 loads through; 15 sale; mediums, \$4 50@5 50; Yorkers, \$4 00; pigs, \$4 65.

CINCINNATI—Hogs feas y: common to light, \$3 75@4 00: packing and butchers', \$4 20@4 40; receipts, 1,100 head; shipments, 900 head.

A marked feature of the shoe trade which has been developed by the low prices and close margins of profit, has been an increasing de-mand for good goods. This has been particularly true of rubber goods. For a few years past there has been a very heavy trade in shoddy

rubber goods, which were utterly lacking in wearing qualities. A decade ago a pair of rubwearing qualities. A decade ago a pair of rubber shoes would last two or three winters. Of late years, by reason of sharp competition and low prices, a low grade article has been brought to the front, and two or three pairs of rubbers a season has become the rule.

The reaction has come, and as trade has been very much overdone the past year, better grades are again coming to the front.

A representative of one of our leading shoe firms said: "There is a growing demand for a better grade of rubber goods. While our trade has been a disappointment the past winter, so far as volume is concerned, we find that our customers demand higher grades of goods than for many years past. This is not only true of rubber goods, but of everything in the shoe line. The depression of trade has given a black eye to all shoddy goods, and has brought the geouine article to the front. Depressed trade and close margins have, therefore, their beneficial uses. And not the least among these is the retirement of spurious products to the rear. "We are having abundant illustrations of Darwin's theory of the 'survival of the fittest' in all trade lines the past few months. Nothing but the best nasses muster these times."

The boot and shoe representative quoted above said: "Our fall orders begin to come in from Ohio and Indiana, though the home spring trade still lingers. We cannot say, in truth, that our business is up to last season. The greatest decline has been in rubber goods. There is, however, a good outlook for fall trade. Orders are earlier than usual. And, if we only do as well as we did last fall, we will be content, for the year's trade will in that event be a fair average in volume. ber shoes would last two or three winters. Of

Cheese and License. While fresh from the interview with the jobber of boots and shoes the commercial editor encountered a cheese jobber, who talked in a rather different strain, concerning the inin a rather different strain, concerning the influence of low prices, close margins and depressed trade. Said he: "I do not recall the
time when markets were so crowded with
poor stuff as during the past few months.
Since so many saloons were knocked out by
the License Court poor cheese goes berging for
customers. This has led to not a little crookedness on the part of those who are
loaded with the low grade article. Any amount
of cheese is offered these times for rull cream
which is really made of skim-milk and cottonseed oil. The temptation to the average drummer to shade the truth in order to effect sales
Is too strong for weak human nature." It is
estimated that one-half of the cheese sold in
this market for cream is entirely innocent of

cream.

Close margins and depressed trade may bring the best in most lines to the front, but so far it has failed to raise cream to the top in cheese lines. However, the consumer lives and learns, and the genuine in all lines is sure to win in the long run. Even cheese must ultimately bow to this inexorable law.

New York, May 22.—There was a fair business with jobbers, but trade at first hands was almost suspended by the interest concentrated upon the auction sale of 10,000 cases of colored cottons, which took place to-day, and which was attended by a large company of buyers from all sections of the country. The prices realized at the sale were very uneven, but the results as a whole were satisfactory to owners. The trade opinion is that the sale was a decided success, prices averaging higher than buyers anticipated. The general market was without change.

Metal Market. New York—Pig iron quiet. Copper dull and easier: lake, May, \$12 20. Lead dull and firmer; domestic, \$3 77%. The quiet and steady; Straits, \$20 25.

MARKETS BY WIRE.

Wheat More Active and Fractionally Higher, Caused by Fears of Frost-Corn and Onta Pick Up - Hog Preducts Stendy.

CHICAGO—There was more doing in wheat to-day and a better feeling existed early. The opening for July was ½c higher than yesterday's closing, sold both ½c below and ½c above opening figures, and closed about ½c higher than yesterday's closing, with the feeling easier. The firmness was attributed to reported large export buying at the seaboard late yesterday, confirmed by more liberal clearances, and possibly influenced some by fears of ances, and possibly influenced some by fears of frost in the Northwest. There was better buying, and in spite of some rather liberal selling, the market held up well most of the sessions. Shorts covered freely. The weather bulletin

indicated higher temperature and advices also reported weather getting warmer. A quiet, firm feeling prevailed in corn. Fluc-tuations kept within Me range, and the volume thations kept within %c tange, and the volume of business was only moderate. There was no new feature of importance developed, and the market showed little, if any, change from yesterday, operations being confined largely to local traders. The market opened at ½c advance over the closing prices of yesterday, eased off ½c, changed frequently within %c range, and closed 1/2/2 higher than yesterday.

In oats a fair business was transacted in June and July, but other deliveries were neglected, not enough trades being made to establish quo-tations. A firmer feeling prevailed and prices

tations. A firmer feeling prevailed and prices advanced slightly.

Quite an active business was done in pork, and prices ruled with considerable irregularity. Opening sales were made at 5c decline, but the inquiry was sufficiently active to advance prices 574,640c, especially for July delivery. Later the market ruled rather quiet, and prices settled back 106,124c, and closed comparatively steady.

steady.

A little more life was manifested in the lard market, and trading was fairly active. The feeling was easy at the opening, and prices ruled 25455 lower. Later the market showed more steadiness and the decline in prices was recovered. The demand was mainly from the short interest.

short interest.

Speculative trading was brisk in short ribs, especially during the early part of the day, Pricos were advanced 12½@15c. Later the inquiry slackened somewhat, and prices settled back again 5@7%c and the market closed

back again 567%c and the market closed steady.

The leading futures ranged as follows:

PITTSBURG IRON.

Prices to be Advanced by the Cartaliment of

Production.

A broker yesterday outlined the situation thus: "I think prices will firm up in a short time. I think so for the reason that production time. I think so for the reason that production will be curtailed. This will be brought about by a strike. The workers will demand an advance which the masters will not concede. Several of the Eastern milis have been closed, and a decrease in the output is already noticeable. This will go on until supply and demand are somewhat equalized. Then will come higher prices."

are somewhat equalized. Then win come nigher prices."

DANGERS OF DELAY

How a Gentleman Missed a Good Bargain by Being Too Slow.

THAT DIAMOND STREET RAILWAY. A Local Banker Scans the Horizon and Dis-

covers No Signs of a Storm. BREATHING SPOT AT WILDWOOD

The following incident shows that delays are dangerous in real estate, as in other

"I have considered the matter and believe I will take the lot at Oakland you offered me a week ago," remarked a gentleman to a real estate agent yesterday.
"Oh, you are too late. I sold it yester day, I told you it was a bargain, but you

thought differently. I offered it to you for —, a very low price. I sold it at a handsome advance. Your refusal was a good thing for the owner, as well as for

"Just my luck. I always was too slow," soliloquized the disappointed man, as he left the

There was an informal conference yesterday between Diamond street property holders and the Board of Viewers appointed by Councils, concerning which a gentleman who is interested in the result said: "I notice that the bugaboo of a railway bobbed up as an argument against the improvement. This is going out of the way to find an objection. I feel entirely safe in saying that there will be no car tracks on that street. The sentiment against it is very strong, and will be still stronger when the street is widened, as I believe it will be, because public necessity demands it. In discussing the question of improvement, therefore, the railway should be left out, and attention given solely to the question of damages: There was an informal conference yesterday tion given solely to the question of damages; and in dealing with this important point of the subject, property holders should consider the benefits as well as damages to accrue, and temper their demands accordingly. It is almost certain that the improvement will enhance the value of property on the street and in the vi-cinity from \$2,000 to \$3,000 a foot, which should more than meet all reasonable damages. Both sides should have a full and careful hearing before any other action is taken. The more it is discussed the more clearly will it appear that the improvement is necessary. I take no stock in the statement that it is a money making scheme. I know better."

Work has been commenced on the pumping station for the Wilkinsburg water works, at Wildwood. The reservoir will receive attenion a little later on. It is the intention to make the ground around it available and atractive as a public resort by planting trees and shrubbery and erecting several handsome fountains. The company informed a citizen of Swissvale yesterday that they expected to supply that place with water by August 1. It will be carried to Wilkinsburg somewhat earlier.

bushels.
On the Produce Exchange to day the butter market was firm: fancy creamery, 15£16c; choice to fine. 12½&ldc; fine dairies. 12£16c; choice cool, \$610c. Eggs firm at 12½c.

We have everything to hope for and nothing to

Here is something for Pittsburg people to think about. Jackson, Ill., is supplied with artificial gas at 40 cents a thousand for lighting purposes and 30 cents for fuel. The gas is made from slack coal by a new process, and the inventors offer to supply Chicago at 25 cents a thousand, and say they could afford to give gaslight to every house, office and factory in the city for nothing if they would use fuel gas at 40 cents a thousand.

A WAITING MARKET.

Stocks Moving Slowly-Strong and Weak Spots-Bearish Tactics.

The stock market yesterday was neither ac-tive nor buoyant. Nearly all the business, what there was of it, was transacted at the morning call, when 350 shares changed bands. The only transaction in the afternoon was the sale of 50 shares of Philadelphia Gas. The market opened weak for most of the list and closed the same way. Nearly all the brokers had orders for something, but the drift being in their favor they concluded to hold off in the hope of oing better. Philadelphia was fractionally lower. People

Philadelphia was fractionally lower. People are waiting to see what the quarterly dividend will be, whether 2 or 3 per cent. Wheeling Gas slightly higher and firm. The other gassers were dull and featureless. Citizens' Traction sold at 70%, and Central at 20%. The best features of the market were Pittsburg and Western and Switch and Signal, both of which made material advances and closed strong at the best prices. Bids, offers and sales follow:

Wild Speculation.

The local money market was quiet and easy yesterday, there being no change in rates, and routine business showing about the same volume and features of the previous days of the week. Some fears being expressed that the abundance of idle capital might lead to acraze for speculation, a banker of long experience said he did not look for anything of the kind, for the received and were not disposed to invest in anything that did not rest upon a substantial foundation. The clearings were \$1,651, 655 97, and the balances \$262,628 50.

Skelf Iron — Grooved sizes, \$1 65, cash; sheered, 2c.

Government and State bonds were firm and NEW YORK-Clearings, \$124,217,932; balances, BOSTON-Clearings, \$13,997,082; balances, \$1,-600,894. Money 134 per cent. PHILADELPHIA—Clearings, \$11,550,782; bal-ances, \$2,028,817. BALTIMORE-Clearings, \$1,675,778; balances, \$450,863.

LONDON—The amount of bullion withdrawn from the Bank of England on balance to-day is £11,000. The bullion in the Bank of England increased £322,000 during the past week. The proportion of the Bank of England's reserve to liability is now #2.16 per cent.

Paris—Three per cent rentes, 87f 35c for the account. The weekly statement of the Bank of France shows an increase of 11,275,000f gold and 5,175,000f sliver. CHICAGO-Money unchanged. Bank clearings, \$10,991,000.

ST. LOUIS-Clearings, \$3,089,869; balances, \$739,548. OIL STRONGER

The Bulls Happy Over a Little Boom-A Broker Talks. The oil market was strong and moderately active yesterday. The opening sale was made at 83c—4c better than the close of the previous day. It then dropped, under liberal offers, to 82%c, from which point it quickly rallied and reached 83%c. In the afternoon it was ham-mered down to 83%c, but in the last hour the market gradually improved and touched 83%c, the best figure of the day, from which it soon receded to 83%c, which was the final quota-

tion.

A conservative broker said: "I consider the prospect good for a slightly higher market tomorrow. I don't think the present advance will hold. It does not seem to possess the element of permanency for the reason that, in my opinion, it has not quite touched bottom. I think it will do that in June, and about July 1 or a little later it will get on its feet again and move upward. I do not think the Standard guarantee of 90c for 3,000,000 or 4,000,000 barrels will have much influence either way. The quantity is too small to either bull or bear the market. The advance, if there should be one, as I expect, in July or August, will be due to the shortage in certificates and improved demand. I think we may look for considerable outside support about the time indicated."

L. O. Frazier, corner Forty-fifth and Butler streets, sold for the Gross estate lot 20x100 feet to a 20-foot alley, situated on the east side of Edmond street, near Penn avenue, Twentieth ward, to Nancy Lemmon, for \$500. J. R. Cooper & Co., 107 Fourth avenue, sold

J. R. Cooper & Co., 107 Fourth avenue, sold for George S. Martin in the Maplewood Park plan, Wilkinsburg, let No. 153, fronting 40 feet on Fahnestock avenue by 150 feet to Singer street, for \$400, to Perry Hawk; also lot No. 37 in the same plan, fronting 40 feet on Coal street by 120 feet to Washington lane, to Edward J. Repp, for \$400. The last named purchaser will build at once.

J. R. Zimmerman, 101 Fourth avenue, sold to Mrs. Mary A. Daily lot No. 65, 50x200, in the Bailey & Moon plan No. 2, at Reflectorville, for \$200; also lots Nos. 60, 67 and 68 in plan No. 1, same place, to Thomas O'Riley, and to W. F. Butler lot 89, 50x200, in plan No. 1, at Reflectorville, for \$200.

Butler lot 89, 50x200, in plan No. 1, at Reflectorville, for \$200.

Kelly & Rogers sold lot 25x135 on Bennett
street, Twenty-first ward, for Samuel Kelly to
Alfred Beam, for \$500; also lot, 25x120 on Broad
street, to John Witzel for \$650. They also
placed a mortgage for \$1,000 on East End property at 6 per cent.

Thomas McCaffrey, \$509 Butler street, sold
for Baird Bros. to E. F. McCafferty lot 20x100
on Keystone avenue, near Fifty-third street,
for \$850.

REACTION IN STOCKS.

The Bullish Feeling Too Strong to be Resisted and Everything Moves Up-St. Paul the Grent Feature-Bonds Firm and Animated.

New York, May 23.—The transactions in the stock market to-day were the largest for any day for a long time, and the strength of the market was in keeping with the amount of the trading. There was a feeling that a reaction was due among the local traders, and to the efforts of that class of operators to bring about a decline some hesitation in the forenoon was due, but the general bullish feeling was so strong and the advances made by the leading shares so material that all opposition to the up-ward movement was overcome, and the entire list moved up in unison after 12 o'clock.
St. Paul was by long odds the great feature of the day, and it furnished nearly one-third of

the entire transactions in the listed stocks.

The buying which has been so conspicuous in the stock for the past week was continued this morning, and while the rest of the list hesitated and even went back small fractions it steadily and rapidly advanced, and before noon had gained 2½ per cent. After that it reacted somewhat, but again gathered strength in the last hour and moved up ½ per cent further, closing at its best price and the highest for the stock in many months. There were several stories to account for the heavy trading and large advance in the stock, but the general impression is that the Chicago party is accumulating the stock on inside information of future developments in the property. There was an urgent demand for the stock in the loan crowd this morning and it commanded a premium for use at one time of three-sixty-fourths of 1 per cent per diem, though this rate was afterward reduced. There was talk of a corner in the stock similar to that in Transcontinental, and the foreigners were sellers of the stock on sellers' options almost all day long, though the aggregate of such sales was not proportionately large.

The general list after 12 o'clock began to move upward and Atchison, Burlington, Rock Island, Union Pacific and the Vanderbilts in turn came to the front and were materially advanced. In the forenoon, however, beside St. Paul the trust shares in the unlisted department were very heavily traded in and sugar trusts 10se 2½ and lead trusts 1½. The latter continued active up to the close. The rest of the shares in the unlisted department were quite neglected, but after Cotton Oil, Brunswick was most prominent and closed at 22%.

The news of the day was almost invariably of a favorable nature, and the utterances attributed to Mr. Armour were particularly calculated to encourage the buil element. Some gold was engaged for shipment on Saturday, but it had no effect upon the list whatever. Among the coal stocks, Delaware and Hudson and Lackawanna were quite prominent, and both were materially the entire transactions in the listed stocks.

The buying which has been so conspicuous

bigher. St. Paul is up 3% Lackawanna 1% St. Paul preferred 1%, Rock Island 1% Atchson 1% and Lake Shore 1.

Railroad bonds maintained their animation and pronounced strong tone to-day, and almost everything traded in is higher this evening. The sales of all issues were \$2,038,000, of which Denver and Rio Grande Western lists contributed \$102,000 and the Ft. Worth and Denver list \$101,000. The most marked gains are Keoknk and Des Moines Ists, 2% to 105%; St. Paul and Mineral Point 58, 3% to 105%; St. Paul and Mineral Point 58, 3% to 105%. The following table snows the prices of active stocks on the New York Stock Exchange. Corrected daily for The Disparch by Whitney & Stephenson, members of New York Stock Exchange, 57 Fourth syenus.

Rheumatism

and Neuralgia

FOR SALE.

NO USE TO

OWNER.

Having been troubled with rhsumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." Frank Caroll.

Eureka, Nevada.

"Paine's Celery Compound has been a God-send to me. For the past two years I have suf-fered with neuralgia of the heart, doctor after doctor failing to cure me. I have now taken nearly four bottles of the Compound, and am free from the complaint. I feel very grateful to you." Chas. H. Lewis, Central Village, Ct.

Paine's Celery Compound

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles." Matic troubles."
SAMUEL HUTCHINSON, So. Cornish, N. H. Effects Lasting Cures. Paine's Celery Compound has performed many other cures as marvelous as these,—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and entire-ly vegetable; a child can take it. What's the use of suffering longer with rheumatism or

Dr. Smith is performing some of the most wonderful cures ever witnessed in Pittsburg. Scores and hundreds of invalids who have hitherto been unable to find relief from their sufferings are being restored to health in large numbers through Dr. Smith's strange magnetic power. It is exceedingly interesting to see and talk with the vast number of invalids sufing from all manner of complaints who are ught to the doctor for his favorable or un-

power. It is exceedingly interesting to see and talk with the vast number of invalids suffering from all manner of complaints who are brought to the doctor for his favorable or unfavorable opinion of their diseases. It is also gratifying to observe the change that takes place in many of these seemingly helpless cases. Scores of invalids who are so weak and feeble that they have to be carried to the doctor in chairs and on beds are restored to be alth in a short time. Some are cured by one, some by two magnetic treatments, while others require more. The following very interesting cases were cured by our magnetic treatments:

Mr. Geo. T. Hartrey, who resides at Springiale, Pa., has been a great sufferer from constipation hismorrhoid uples) and from fistules for a number of years. Pile tumors as large as a black wainut made their appearance several years ago, and were the cause of much suffering. These tumors were often prolapsed, and would bleed so profusely as to cause extreme prostration. As the disease advanced four fistules made their appearance, and were so painful that he was obliged to give up his business, and was unable to perform any manual labor. Mr. Hartrey had tried the skill of a number of physician, at No. 502 Fenn avenue, who cured him permanently without the use of the knilfoor ligature. Dr. Smith agreed to cure him for a certain sum of money, which Mr. H. paidhim at the beginning of the treatment. Mr. Hartrey was permanently cured in a short time and may be referred to.

Mr. Peet, owner and manager of Imperial Hall was a great sufferer from vericocele for many years. He applied to Dr. Smith and was permanently cured. He may be referred to. Mr. John Foley, who resides at Millvale, was taken with a terrible pain in his right shoulder upward of five months ago. The attack came on suddenly, like a shock of paralysis. The arm became useless in a few moments' time, he could not use the hand nor move a finger. A short time after the attack he began to experience pain in the shoulder. The pain increased

one week.

Dr. Smith cures all forms of female complaints without the use of instruments or exposure of the person. He also cures piles and rupture without the use of the knife, or pain to the patient, nor detention from business. He treats and cures caucers in less time and with less pain than by any other known method. method.

Dr. Smith is permanently located at 502 Penn Dr. Smith is permanently located at 502 Penn avenue, where everybody can go from 9 A. M. till 7 P. M. The doctor consults free and cures after all other means fail. He treats every form of disease known to humanity. Go to 502 Penn avenue and consult him if you wish to get well. Letters of inquiry must contain two stamps, myld
