GENERAL SPORTING NEWS OF THE DAY

The Giants, champions of the world, arrived in the city yesterday, and the two gayest men in the aggregation were the genial manager, "James Mutrie, Esq.," and Buck Ewing. The team was all smiles, and John M. Ward, President of the Brotherhood, was not there at that. Ward is missed, however, and Mr. Ewing. amid all the talk of rivalry between the two of them, was frank enough to say that Johnny is missed. "Hatfield is a good man, and is playing well," said Buck, "but Johnny

It may not seem strange when it is said that the Giants are all absorbed in the big fight. Buck Ewing was making efforts to bet a gross of silk hats on the result, but he could only find one Kilrain man. However, the genial and famous catcher of the world's champions found a minute or two in which to talk about THE GLANTS' CHANCES.

"I think our chances for winning the per mant are just as good now as they were 12 menths to-day. So far we have, like Pittsburg, been handicapped by misfortunes. Our best pitchers have been disabled, but they are all right now, and when they are right let no one we are marks. I am aware that Pittsburg is a very dangerous club to face. Every club in the League knows that, and the fact that Philadelphia has been en five straight by them only ws that this city has a remarkable club when everything is all right. Of course we have no pie with Pittsburg, now that you have at least three good pitchers. We expect to quit even, and we may do better, and we may do worse. The club has a certainty with the Pittsburg team when all is right, but I should of teams. At least we came here with this dea, and if we can beat the ciub of this city in our four proposed games we will go nome

Mr. Ewing, in referring to the Brotherhoo proposals, said: "Tim Keefe is Secretary, and he can talk if he wants to. I have nothing to say, because if I do I may make a break. The Erotherhood is all right, however, and it will not disgrace itself by any foolish step." SIR TIMOTHY KEEFE.

Timothy Keefe only repeated what has been stated in these columns about the Brotherhood's demand. One thing was learned defimitely, however, and that was that the Brotherhood never dreamed of making a strike this season. Keefe laughed at the idea. Manager Mutrie, that very genial and well-Manager Mutrie, that very genial and well-known gentleman who always smokes a very good cigar, had much to say. He spoke in very kindly terms about teams and managers he had mot, and his general sympathy is so strong that he will be pained to some extent if the Giants have to kill the pennant aspirations of anybody. Mutrie, however, is just the same confidential Jeems, and Roger O'Connor is just as brawney as he ever was.

In to-day's games Morris and Fields will be the battery in the morning for the home team, and Crane and Ewing will represent the visitors. In the afternoon game Galvin and Militer of the control of the bond and militer of the control of the control of the bond and stated he was the head chief, and would sign the bill and his people ler will be on deck, and Keefe and Ewing if the latter is all right. If not, Brown will catch.

MR. MUTRIE'S POINTERS. Mr. Mutrie was in a rather non-committal mood on private matters of baseball, but ven-tured the prediction that at the end of the season the first three clubs would rank as follows: New York (of course), Boston and Cleveland. New York (of course), Boston and Cleveland.

"We have been fighting against fate," said
Jeems, "and our battle so far has been one long
list of obstacles, which have been overcome by
miraculous means.

"Ewing is the greatest ball player that ever
jumped over a home plate. His great managerial head, coupled with practical ingenuity,
cannot be equaled anywhere."

"How about Ward?" ventured THE DISBATCH Man.

PATCH man.

"He is a different kind of a captain. Ward is brilliant as a ball player, but he has a laxity of generalship in the capacity of captain."

"Do you think Mr. Ward will retire this year to practice his profession, as he told THE DISPATCH last year."

"Do you think Mr. Ward will retire this year to practice his profession, as he told The Dis-PATCH last year?"

"Oh, no," said Mr. Muitrie; "there's not as much money in the law in New York as there is in baseball. He is now laid off from a lame arm, but I expect him here to-day."

"My men are fast recuperating from their disability, and I can say right here that Crane is the coming pitcher of the country. He's possessed of qualities that no other man in the same line has. We will take three games out of the four from you."

LOCAL OPINION.

What Sports and Parties Think About the Outcome of the Fight. Whatever the baseball cranks may think about the prominence of the national game and the glory, the real exclusive glory of the glori-ous Fourth, the fact remains that everybody is

the glory, the real exclusive glory of the glorious Fourth, the fact remains that everybody is wondering what the result of the great fight between Sullivan and Kiirain will be. On questions of this kind Pittsburg has always been very decided, and in this instance it must go on record that the popular opinion is that Sullivan will be an easy victor. Two or three practical people think otherwise, among them is the old veteran, Tom Sterck. His reasoning is to the effect that Sullivan couldn't settle Mitchell in three hours and that Smith is a much better man than Mitchell. Klirain made a draw with Smith and ought to have beaten him. However, the Professor argues that if Sullivan is in first-class shape he may down Klirain right away, and if he does not the victory may be the other way.

Ex-Mayor Fuiton is certain that Sullivan will win it he is in condition, and is prepared to bet that way. Two or three pastors of churches, well khown to the writer, expressed themselves yesterday to the effect that Sullivan cannot lose because of his physique and cloverness.

On the other hand, John Quinn andiother sporting men stated that they will wait until Saturday and take 2 to 1 and back Kilrain. The old veteran Dr. Thompson thinks that Sullivan will not be in condition. He said: "If the big fellow is right and rightly handled, he will win. If he is not he will be beaten."

There is general satisfaction locally in the fact that Arthur Chambers in right rickery, is about equal to anybody, and will certainly see that Sullivan gets everything that the rules require.

To-morrow will be a big day at Washington

order to get through the programme before dark
the races will be called promptly at 1:210-clock p.
N. Instead of 2:20, the usual hour. Next to the
American Derby the Sheridan Stakes, which are
to be run for to-morrow, is the biggest feature of
the Western turf. There will be only six starters,
but there are all clippers, and, despite the prestige
of Spokane, the result is very doubtful. The distance is one mile and a quarter, and for this reason those who saw Fractor Knott lead the derby
for nearly that distance are, inclined to think
that the son of Luke Blackburn has a good show
of winning. The starters, jockeys and weights

take place, which will be followed by the
mounted sword combat.

In a preliminary contest in the morning all
the broadsword contestants will be tried and
the best four left in. By this weeding out
there will be a good contest in the sword combat, in fact one of the best.

INDIANS COME TO TIME.

went over the bill again, and General Crook told the Indians as they were all willing they had better sign this afternoon; that tomorrow would be the Fourth of July, and the fact that the Indians at Lower Brule had signed would be telegraphed all over the country and their triends would be pleased. Several of the chiefs objected to the Santees participating in the benefits, but the commissioners talked them out of this. Iron Nation then said to General Crook: "Three Stars, I am going to sign because you tell me this is a good bill, but before I do so I want you to promise to be a good friend to the Indians here. We want to remain on the White river and wish you to tell the Great Father."

to tell the Great Father.' Left Hand Thunder endeavored to stem the tide which was setting so strongly in favor of the bill, but his efforts were unavailing. Iron Nation signed first, and was followed in order of rank by the other chiefs. The conversion of Iron Nation, Little Pheasant, Dead Band and Surrounded, the leaders of last year's opposition, was a triumph hardly equaled in the record of the Indian negotiations, and for which the commissioners deserve great credit. Yesterday afternoon General Crook, at the request of the chiefs, had a private talk with them, and at this conference the programme which has been successfully carried out to-day was agreed upon. The Indians are signing as rapidly as possible, and the result will be a perfectly unanimous vote in favor of the bill.

A DRUGGIST AND A SPY. Mr. Burlinghame Becomes Alarmed for His

Safety and Flees to England. ISPECIAL TELEGRAM TO THE DISPATOR A CHICAGO, July 3 .- It is claimed by some of the police that they have in their posses-sion evidence that Druggist Burlinghame, who recently left for England, played an important part in the Cronin case. He made several attempts to break into the Clan-na-Gael and was proposed by Le Caron, the spy, when the latter was in Chicago. He and Le Caron lived near each other and were constantly together.

When Le Caron testified in London local members of the Clan-na-Gael claimed to have found proof that Burlinghame was not an Irishman, as he pretended, but a British spy. Burlinghame appealed for police protection, and claimed that his removal had had been ordered by the Clan-na-Gael.

Two officers were detailed to watch his store, and he was told not to leave the city till the investigation was completed. He disregarded the order, and, recently selling out his store, left for England.

PARES July 3 — It is reported that 200 played an important part in the Cronin case.

SUNDAY SCHOOL WORKERS.

Proceedings of the World's Convention Now in Session at London. LONDON, July 3 .- At the morning session of the World's Sunday School Convegtion to-day, the discussion on "organized school work" was continued. Mr. Pool spoke on the subject as relating to India, where he said out of 50,000,000 children there are only 217,000 in missionary schools there are only 217,000 in missionary schools and 100,000 in Sunday schools. A number of delegates followed with remarks on their experience in school work in their respective countries. At the afternoon session, Warren Randolph, of Newport, R. L., introduced the subject of the International Lesson plan. He said that 10,000,000 people studied the lessons. Mr. Peloubet also spoke.

At the evening session, the French and Swiss delegates stated that the International Lessons were not suited to France and Switzerland, owing to the length of the cycle and the difficulty of many of the subjects. Dr. John Hall, of New York, spoke on the best methods of Bible study.

Heroic Efforts Made to Rescue Their Comrades in Distress.

NEW YORK, July 3 .- Boatswain J. Me-Laughlin, late of the United States ship Trenton, which was wrecked at Samos, reported at the Brooklyn Navy Yard, with ported at the Brooklyn Navy Yard, with twenty-three of his old shipmates, whom he had brought from San Francisco to be paid off here. When Mr. McLaughlin reported at the Commandant's office his uniform consisted of a service cap, a weather beaten blouse and a sword, on which the bright work was sadly tarnished and the steel blade was rusted. It was all he had saved from the wreck, and since then he has had no opportunity to renew his kit.

kit.

"We arrived at Samoa," he said, "on Monday. On Thursday the storm came up, and on Sunday we were on shore again, after such an expertence as few men go through and live to tell it.

"When it came on to blow we made everything as snug as we could. The topmasts and all the yards were sent down, and three anchors were got out and the ship was moored stem and stern. It didn't seem possible that we could be budged, but we were.

THE GALE AND THE WAVES. "The wind kept piping up harder and harder, and we had to get up steam to ease the cables. I thought I had seen seas before, but I hadn't. Great masses of water, weighing tons and tons, Great masses of water, weighing tons and tons, came smashing over the bows and tearing up everything that could be torn up. They washed into the fire room and put out the fires, and then we began to drag. The water, too, was coming in through the hawse pipes in a perfect flood and we could not keep it out. Those pipes nearly broke my heart. The big two-inch chains were working through them, but we stuffed the mattresses into them until nearly every mattress in the ship was used up, but it was no use. As fast as we put them in the water washed them out. At last the cables gave way, the three of them all at once. The inks were two inches thick and they were at-

the men into the mizzen rigging, and this torew her off.

"We went ashore right alongside the Vandalia, and one of the 8-inch guns in that ship punched a hole in our side. The sight on the Vandalia was the most awful I ever saw. The officers and men were in the rigging. From many of them the seas had torn every vestige of clothing. Every little while a tremendous sea would break over the ship and we could see some poor fellow swept away. We were, of course, powerless to help them. Captain Schoonmaker was knocked up against a Gatling gun, and we could see he was badly injured, but he held on bravely, giving such directions as he could, until the next sea came and swept him away.

THE WORK OF RESCUE.

THE WORK OF RESCUE. "As soon as we could we got a rocket and threw a line to the mizzenmast of the Van-dalia, and got the men off that were there. The last man had hardly got aboard the Trenton when the mast went. Then we threw a line to

when the mast went. Then we threw a line to the mainmast, Everybody but a marine and a Chinese servant had been gotten off it when it went, too. It hung alongside the ship for a little while, and the men succeeded in getting on the bridge. The marine was saved, but the Chinaman was on the point of being swept off again, when he was caught by the queue and hauled aboard nearly dead.

Only one man was killed aboard the Trenton, and that was early in the gale. A sea swept over the bows, tore up a scuttle butt and it struck one of the seamen, whose name I forget, in the head, smashing his skull.

"During the whole affair our officers did everything that could be done. Capitain Farquhar and Lieutenant Commander Harry Lynes, the executive officer, were everywhere there was work to be done, and the admiral, God biess him, stood up through it all, as calm and cool as if there was no danger at all.

When at last we all got ashore the natives did everything they could for us. We had six weeks of mighty hard work there. We suceverything they could for us. We had six weeks of mighty hard work there. We suc-ceeded in saving all the Trenton's battery and nearly all the stores that were not ruined by the water. We took the Vandalia's smokestack and fitted it to the Nipsic, and Admiral Kim-berly devised a rudder for that ship, which we built. The party which Mr. McLaughlin brought left San Francisco June 3, and came by the Pacific Mail steamers.

DUELING IS ALL RIGHT.

The Attempt to Impench a Judge on That Charge a Fallure. MEMPHIS, July 3 .- In the Chancery Court this morning Chancellor Estes delivered his decision dismissing the quo warranto proceedings against Judge Dubose, which the relators in the bill brought to oust him from office for his participation as second in a duel fought more than 20 years ago. The decision was of great length, in which the question, with its legal and con-stitutional bearings, was discussed in all its

phases.

It was held by the Chancellor that it was only for a crime in his official capacity that a judge might be impeached under the Constitution. In this case the charge against Judge Dubose was not for any crime com-mitted by him in his official capacity within the meaning of the Constitution, and hence no impeachable offense was charged against

PARIS, July 3.—It is reported that 200 miners were killed to-day by an explosion in a colliery at Steinne. Two pits were affected by the explosion. One of these is inundated, the other is on fire. Sixteen bodies have been recovered. Ten of the miners who were taken out alive are so badly injured that they will probably die. Sixty horses employed in the mine were burned to death. The news of the disaster spread quickly, and the mouths of the pits were soon surrounded by crowds of relatives and friends of the imprisoned miner.

Many heartrending scenes were witnessed as the bodies were brought to the surface. There is no hope of rescuing any of the men now in the pits, all of whom have probably already perished.

Chicage Will Not Amex the Suburbe Without Something of a Stroggle.

CHICAGO, July 3.—The balloting on Saturday last, by which it was decided to annex all of the surrounding suburbs adjoining Chicago, promises to cause much and
complicated litigation. The city Council
of the northern suburb of Lakeview last
night passed a resolution appropriating
\$3,000 of the municipal funds to fight annexation in the city courts. This morning

This grows out of action taken by the boards just prior to the annestion, and to forestate action by the Board of Education of Chicago.

A Hyde Park damage case was thrown on the hands of the city law department this morning, and a suit against Lakeview by a Cincinnati firm to secure possession of a firengine was put over because no one was present to defend it excent the City Attorney of Lakeview, who was uot quite sure whether or not he represented anybody, owing to the changed conditions.

A DOUBLE EXECUTION.

Two Negroes Hanged for the Murder of One of Their Own Race. QUITMAN, MISS., July 3.-The double execution of the negroes, Prince Fleming and Richard Jordan, for the murder of the negro, John Taylor, was witnessed by a large throng of people here to-day. Petitions had been forwarded to Governor Lowry asking a commutation of sentence, but last night the Governor sent a telegram that with the facts before him he could not interfere with the execu-tion of the law. Long before the legal time curious people filled every available place of vision, some on top of the Court House, some in trees, others in the windows, but the largest number crowded around the en-trance of the jail inclosure and awaited with anxious mein the appearance of Sheriff

At a little after 11:30 the Sheriff and At a little after 11:30 the Sheriff and guard entered; a few minutes later the door was thrown open and the crowd rushed in. The condemned culprits ascended the gallows with firm steps, the mandate of the Supreme Court was read by Sheriff Donald, followed with the usual query if they had anything to say. A negative nod was the only response. Caps were placed over their heads, and at precisely 12:04 the two souls with the crimson brand of Cain were abruptly hurled into eternity. A short struggle and all was over. They died protesting their innocence.

SECRETARY TRACY CRITICISED.

cople Object to Closing the Navy Yard to Sightseers-A Garfield Anniversary. ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, July 3.—Secretary Tracy is being sincerely criticised by Washington residents and visiting sightseers for his recent order prohibiting entrance to the navy yard where the big guns are being cast, Heretofore the yard has been free to every-body, but now callers, unless they desire to make a business visit to the officers on duty, are shut out. The reason for the new order is said to be that visitors insist on talking to the laborers' and distracting them from their work. All public institutions in Washington are very free of access, and the people generally are protesting loudly against the restriction of the navy yard privilege.

against the restriction of the navy yard privilege.

The departure of the President to-day for Woodstock recalls the fact that the day was the eighth anniversary of the shooting of President Garfield. He was shot in the Pennsylvania Railroad station on July 2, 1881, and in going to the cars to-day Harrison fearlessly walked over the spot where Garfield fell.

NO TROUBLE AT DELAGOA.

Portugal Confident That the Matter Will Soon be Settled Satisfactorily. LISBON, July 3.—In an interview to-day Senor Gomes, Minister of Foreign Affairs, declared that except for the assistance of the Portuguese Government the Delagoa Bay Railway Company would have forfeited its concession long ago. He said that the efficial data would clearly justify that the efficial data would clearly justify the Government's action. The Government would adhere to the terms of the concession, although in many points they were contrary to Portuguese interests. Neither England nor America had offered any objection to the proposed arbitration on this basis fixed by a clause in the conces-

He said the prisoner had in his possession, among other things, a railroad ticket to Montreal and a steamship pects. Dr. John Hall, of New York, spoke on the best methods of Bible study.

A New African Railway.

BRUSSELS, July 3.—The Governor of the Congo State telegraphs that a steamer of 1,850 tons has ascended the Congo river as far as Matadi, the proposed starting point of the new railway. The Governor says that the fact of so large a steamer being able to reach Matadi shows that that place would make a suitable terminus for the road.

NEW YORK, July 3.—Morris Stolz, a man 65 years of age, was frightened to death to-night in Brooklyn. He was standing in the doorway of his regidence, No. 65 Main street, at 10:30 o'clock, when some unknown boys who had begun to celebrate the national holiday placed a bunch of lighted giant firecrackers under his chair. The explosion terrified him so that he jumped up with a scream and then fell back dead. No arrests were made, THE MUSIC TEACHERS.

ANOTHER CHARLESTON VERDICT.

ot Gulley, in Spice of the Evidence-The McDow Rejolding Cooling Off. ISPECIAL TRLEGAM TO THE DISPATCH.1 CHARLESTON, S. C., July 3 .- The jury in the case of John Weir, a factory opera tive, on trial for the murder of William Munzenmaier, to-day fulfilled public expectation by returning a verdict of "Not guilty." The murder was the result of a parroom row. Weir almost severed Munzenmaier's head from his body with a razor March 9. It was admitted by all who heard the testimony that the State had made out a

the testimony that the State had made out a case of manslaughter, but as six of the McDow jurymen were on the jury, public anxiety was directed to these men who had acquitted a confessed murderer. State Attorney Denvey seemed to realize the utter futility of making a fight before such a jury, and contented himself with a simple analysis of the evidence and comments on the law. The jury was out about two hours and then returned a verdict of acquittal.

The McDow verdict is still the subject of comment. The negroes are openly rejoicing at it and the white people are silent, as the sentiment of the whole country is gradually making itself felt. Some white men and women here, who at first openly rejoiced at the murderer's escape, are beginning to realize that there is something more involved than their personal hatred to the murdered editor.

is in the Tolls." CHICAGO, July 3.—Samuel B. Leach, an expert machinist, who is alleged to be one of the conspirators in the celebrated Electric Sugar Company swindle, was arrested here to-day. After W. E. Howard, the President of the Electric Sugar Company, was sentenced to the New York Penitentiary for ten years, the victims began looking around for others who were in the conspiracy Leach, the company's machinist, was be-lieved to be in Chicago, and Peter Coss was given a power of attorney to effect a settle-ment if possible. They found Leach, and refused his offer of a house and lot in settlement of the claim. They then complained to Chief of Police Hubbard, who detailed two detectives on the case. The officers have shadowed Leach ever since awaiting a copy of the indictment from New York. It was delayed, and Mr. Coss, fearing Leach might escape, swore out a warrant to-day, charging Leach with being a fugitive from justice.
