OFFICE OF PITTSBURG DISPATCH, MONDAY, July 29, 1889.

Supply was 60,000 bushels decrease, and although Monday, July 29, 1889.

There was a good run of stocks and prices were fairly maintained, with a slight improvement on good, smooth butchering, cattle of light weight. Of strictly prime heavy cattle there were none on the market. Sheep and lambs held up well in spite of a heavy run. Hogs were the weakest article on the market, showing that consumers take little to fresh pork in this hot weather.

Cattle.

The run was larger than last week, and quality showed some improvement. The bulk of those received were light butcher stock, well on to this fact. There were a few 1,600-pound cattle on the market, but none strictly prime. For the latter there are no longer customers in this market. The range of prices for heavy Western heeves, weighing 1,500 to 1,500 pounds, 83 708, 80 626 70; medium weights, 1,230 to 1,450 pounds, was \$1 6526 70; medium weights, 1,230 to 1,450 pounds, which were in good demand, \$4 4636 for prime lightweights, 500 to 1,500 pounds, \$3 708, 80 626 70; medium weights, 1,230 to 1,450 pounds, which were in good demand, \$4 4636 for prime lightweights, 500 to 1,500 pounds, \$3 708, 80 626 70; medium weights, 1,230 to 1,450 pounds, which were in good demand, \$4 4636 for prime lightweights, 500 to 1,500 pounds, \$3 708, 80 626 70; medium weights, 1,230 to 1,450 pounds, which were in good demand, \$4 4636 for prime lightweights, 500 to 1,500 pounds, \$3 708, 80 600 for the work of the stock. From Ching, 6 wire very brisk, particularly for expendent for the charge of \$200 for the stock of the prime and the feeling was unstant for demand at 4,566 per pound. Bulls, stage, helfers and dry cows were in light supply, but affilier?

Chicago the first supply, but affilier?

Legler, 98: L. Gerson, 91: A. Fromm, 55; Rothschild & Co., 102: S. Lowenstein, 103. From Pennsylvania, 6. Klein, 8: S. Lowenste better prices than a week ago. A few cattle were unsold at noon to-day and one drover, who had nine head left, said he would be glad to sell at \$4 50, while the price at Chicago was \$4 25.

Sheep and Lambs. Supply was heavy, but demand was good in spite of heavy run. Prices were a shade higher than last week, and though the run was very heavy more could been sold. Best heavy Western and native wethers, \$4.75; medium weights, \$4.25 to \$4.50; common to fair, \$3.50 to \$3.75; cuils, \$5.00 to \$3.25; hambs, 5 to 65/20 ner pound. A Lawrence county drover said: "We have had a very good sheep market this week, though supplies have been unusually heavy. In the hot menths people are more inclined to mutton than pork and the effect is seen. In the heavy demand for sheep and lambs."

A Damond market butcher said: "The supply of sheep and lambs for a few weeks back has been scarcely up to demand, and this week there is a rush of stock to market. But markets were able to take all that came. As a rule such a rush as we have had this week should weaken prices. But sheep held up well and desirable grades brought better prices than last week, At East Liberty sheep were strong, but lambs weak, owing to liberal receipts.

Hogs. ern and native wethers, \$4 75; medium weights,

to be for foreign account (one operator sold 100,000 bushels), helped to depress the market, and the weaker feeling was intensited by the bearish cables. The Chicago report on the visible supply was 60,000 bushels decrease, and although There was a good inquiry for realty yesterday, mainly for building lots, and a number of deals were closed up. The most important transaction was the sale of a residence in Oakland for \$20,000. There was a report that \$90,000 had been offered for the Singer property at Wilkinsburg. It is held at \$100,000. . . .

Local securities developed a broadening ten-dency yesterday, and were active for "blue Monday," under the influence of a number of good buying orders. The advance in Philadel phia Gas was attributed in large part to re-borts of a deal which will reduce the expenses of the company and probably result in larger dividends. Chartiers Gas was out of the mar-ket at 50. A private offer for a large block at 51 was refused. Its friends affect to see good returns in the close future. The improvement, which touches almost everything on the list, is probably nothing but a natural reaction from the extreme dullness of the past month or two. Whether it has come to stay remains to be seen, but there are good reasons for saying that

"Inquirer" is laboring under a mistake. The old postoffice building and grounds belong to Uncle Sam and cannot be sold without Con-gressional authorization. All rumors of private negotiations for the property are un-founded. The sale, if at all, will be public and to the highest and best bidder.

A lot 40 by 150 feet, on Wood street, Wilkinsburg, was sold to R. C. Snodgrass last week, for \$107 50 per foot of frontage. Eight years ago it would have been considered dear at \$30.

One of the most progressive towns in the South is Florence, Ala. A year ago the popu lation was 2,000. It is now more than 8,000. The aggregate capital employed in the various en-terprises there is \$15,000,000. Many Northerners, among them several Pittsburgers, have made large investments in Florence. The fol-lowing are some of the industries projected or ompleted: A furnace about ready to go into last, and another partly constructed: a stove factory: a bardware company, with a capital of \$300,000, to manufactors fine building hardware, etc.; a wagen factory, with capital of \$150,000; an agricultural implement works; a handle factory; a woodenware factory; a sash, door and blind factory; a cedar bucket factory; a pump factory; planing mills; a factory to make wooden butter plates such as grocers use; a flour mill; a cotton mill; a jeans factory; a gingham factory; a woolen mili; a cotton gin; a marble company; a roofing and paint company; a shoe factory: a compress, packet and ferry company; three building and loan companies; a canning factory; several brick factories, and a dummy railroad.

The Fidelity Title and Trust Company deserted their old stand yesterday and occupied their splendid new building on Fourth avenue. Everything was as bright as a new dollar, and everybody connected with the institution, from the porter up to President, wore a cheery smile indicative of pleasure with the change. The mammoth vault contains about 1,000 boxes, with room for several thousand more. They rent at from \$5 to \$60 per year. The largest is reserved for the use of the company.

and Strength. The stock market yesterday was bullish and active for all the favorites, even the tractions participating of the improvement. The gassers participating of the improvement. The gassers were the particularly strong spots, all of them being higher, Philadelphia leading in the upward movement. It opened with a small sale at 37% and closed firm at 38%, with large transactions. There was talk of some kind of a deal in it, but of what nature could not be ascertained. But be this true or false, there were tory, 86112\c)c. Cheese quiet and steady; western, 667c.

It was fractionally higher in New York than here, which alone was sufficient to strengthen the home market. Another good reason existed in the fact that stock was scarce, with a num-ber of good buying orders. Still, another reaber of good buying orders. Still, another reason was given by a well-posted broker. He said: "The stock has been dull and depressed for a long time, and, in my opinion, the spurt is but a natural reaction. There may be a deal going on, but if so, I don't know what it is." There was a good inquiry for Chartiers Gas, both on 'Change and on the street. It could have been sold in large blocks at 51.

La Noria sold at 1½, and was freely offered at 2. Several thousand shares could have been sold at 1½, People's Natural Gas and Pipeage brought 17½, an advance. Manufacturers' Gas was neglected, but an offer of 25 would probably have been accepted. Plate Glass was opened at 190, without success. Switch and Signal was a weak spot, closing with 20½ asked. This is remarkably low for a stock that is known to rest on a substantial basis and to have large possibilities. There was considerable interest manifested in Electric, but the difference between bids and offers was too great to be bridged over. It closed with 55 asked and 51½ bid. The market finished with the bullish foeling uppermost. Total sales were 450 shares. Bids, offers and sales follow: MORNING, AFTERNOON, Bid. Asked. Bid. Asked.

bonds. The law on the subject makes it incombent on him to add to the susking fund within each fiscal year an amount equal to I per cent of the outstanding public debt and interest on bonds previously made a part of the sinking fund. The sinking fund requirements which last year were in excess of \$47,000,000 are somewhat larger for the current year, and Secretary Windom will therefore be required to buy an average amount of nearly \$1,000,000 bonds each week throughout the entire year. This is much in excess of that which he has recently been buying in order to comply with the law.

It has been customary to complete this fund long before the close of the fiscal year, and indeed the Secretary is allowed to buy the requisite amount within 30 days, if he can get them. The seeming dilatoriness in these purchases thus far, however, is accepted by those best posted in regard to the Secretary's views and intentions as certain that he sees his way clear for adequate action for the relief of the money market, and his devermination to do whatever is necessary in the matter.

The knowledge of the condition of the situation offers assurance that with proper caution on the par of the banks, and in the absence of reckless speculation, the provisions for meeting the currency demand to the fall requirements is thoroughly sufficient, however large they may prove to be.

A CHANGE

Of Some Kind Expected in the Local Oil Ring To-Day.

There were no new features in the oil market esterday, and dealings were rather sluggish. Twice during the day it dropped below the dollar line, but the bulls rallied every time and gave it a hoist, restoring the equilibrium.

There was a spiritless opening at 20%c, where the market hung for an hour or so and then, under the influence of a small raid by the bears, dropped to 90%c. Later on, about noon, stimulated by buying in New York and Oil City, there was an advance to \$1 00%. During

City, there was an advance to \$1 00%. During the afternoon the market softened gradually for lack of business, and closed at \$1 00%.

The fact of the market having closed at about the same figure for three days in succession is taken to indicate a change of some kind to-day, but whether for better or worse is what the "boys" would like to find out before the gong sounds.

The fluctuations were: Opening, 99%c; highest, \$1 00% lowest, 90%c; closing, \$1 00% Saturday's clearings were 425,000 barrels. Those for yesterday were less. The demand for puts and calls was light.

The Kerr-McConibie well. Washington county, which came in Saturday, is doing 350 barrels per day. The Baldwin which was doing 9 barrels per hour. The Judge McKennan well will be a small producer.

Country Produce-Jobbing Prices. For Monday trade was fair. Cheese is a shade lower than last week, but is in good demand and moving out freely. Country buffer drags and is hard to sell at any price. Creamery is steady. Vegetables of all kinds are in full supply, and the present outlook is for a week of abundance and a downward drift. Water-melons are firm. The few betries that showed up to-day found ready sale. The outlook for fall is bright for vegetables and dark for fruit fall is bright for vegetables and dark for fruit. I am satisfies that Cancer is nereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until itseemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison and continued its use until I had taken several bottles, when I found myself well. I know that S. S. cured me.
