The spirit of militarism was never stronger in the Emperor and the Imperial circle. It is more likely that the Emperor's speeches at Strasburg and Metz will be outspoken warnings to France to cease nourishing dreams of revenge. No note of peace was heard in his brief utterance yesterday at the bauquet of the First Dragoon Guarde in celebration of the anniversary of the battle of Mars La Tour, in which the regiment distinguished itself by a brilliant

charge.
After Prince Albrecht had proposed the health of the Queen of England as honorary chief of the regiment, the Emperor, drink ing to the regiment, said that if fortune called the German army to operate on the same field, he was sure of victories.

The Emperor and Empress remain at Bayreuth until Tuesday. To-day they heard "Der Meistersinger," and to-morrow they will attend the performance of "Parsi-Count von Waldersee and General Du Vernois will accompany Their Majes-ties to Strasburg. Prince von Hohenlohe, the Governor of Alsace-Lorraine, is preparing to give his imperial visitors a grand reception. The students and Alsatian peas ant girls will participate, and 29 burge masters from the chief towns of Alsace masters from the chief Lorraine will be present.

A LIVELY PROGRAMME. A reception will be held in the palace or Wednesday. This will be followed by a r view, a state dinner, municipal fetes and illuminations. A hearty and spontaneous welcome is certain in Strasburg, which is now Germanized. French is rapidly fading out. The imperial party is timed to reach Metz on August 23.

The Czar's advent is still doubtful. The Emperor will remain in Berlin until Ser tember 5. The Czar may postpone his visit until returning from Copenhagen. Confu-sion has arisen from the changes in the Czar's humors, and the Emperor's programme has been settled, irrespective of the Czar's programme.

The papers generally approve the con-demnation of General Boulanger. The Pos denies absolutely the Boulanger statement that he obtained a list of German spies from the German embassy, and says that such a list was never kept at the embassy.

Secretary Windom Writes a Letter Co. cerning Our Mexican Relations. WASHINGTON, August 17.-Secretar Windom has addressed the following letter in relation to discriminating duties against Mexican cargoes to William H. T. Hughes. of New York City:

TREASURY DEPARTMENT, August 15, 1889. SIR-I am in receipt of your letter, dated th 14th inst., and a newspaper slip criticising the action of this department in assessing dis-

lith inst, and a newspaper slip criticising the action of this department in assessing discriminating duties upon cargoes of Mexican vessels. In your letter of the 12th inst. relating to the matter and in newspaper articles the collection of the due is erroneously referred to as a retaliatory measure. Although the regulations of Mexico now discriminate quite severely against American salling vessels by imposing discriminating taxes, there has been no attempt at retaliation on the part of this Government. The duties levied are the ordinary discriminating duties prescribed by the Revised Statutes of the United States, which are imposed without regard to the discriminations made by Mexico.

No treaty or law of Congress entities goods, wares or merchandise imported in Mexican vessels to exemption from duties imposed by the section, and the action of the Collector of Customs at New Orleans, of which you complain, was strictly in accordance with law. Any relief in the premises must come from Congress or through the treaty making power. This department is not authorized to remit duties of this character, which accrue regularly under the laws. It may be observed that if Mexico can satisfy the President that no discriminating duties of tonnage or import are levied in the ports of Mexico upon vessels belonging to citizens of the United States or merchandize imported in the same the discriminating duties imposed under the section cited can be suspended by proclamation.

introduced District Attorney White, of San Joaquin county, and said they appeared conjointly to oppose the release of Nagle by the Federal authorities. The attorney, after reading papers connected with the proceedings, entered a general protest to the order of the court, claiming that it was beyond the jurisdiction of the Federal courts to take from the custody of a State official a person who had been arrested for the commission of a crime within the State's jurisdiction and against the State laws.

"If the Court please," said Attorney Maguire, "we desire formally to protest against any requirements of this Court to the Sheriff of San Joaquin county to bring a person held under State authority into this court on a writ of habeas corpus. The prisoner has, however, been brought into court out of deference to the Court by the Sheriff, and the Sheriff presents his returns to the writ." The attorney then proceeded to read the written return, and added: "We shall take the position on behalf of the people of the State of California that Mr. Nagle is in the custody of the State authorities and the Federal courts have no jurisdiction to take a prisoner from the custody of State officials. Allegheny City Councils have attempted to get the West Penn Railroad to pay part of the expense of paving the street, as part of it is on railroad property. Thus far the attempt has been a failure:

There was another pause; the silence was so deep that an occasional whisper was heard as distinctly as an uproar in the dead of night. About 8 o'clock to-night Policeman Maginley saw the dead branches again ablaze. He telephoned to the Brush station for a lineman, and Patrick Driscoll and an assistant were sent round.

Driscoll had no gloves, and the policeman advised him not to fool with the wires without them. He laughed at the caution, and climbed up the tree, fixing himself in the lower branches and using a small rope to fling over and break off the branches that touched the wires. As he did this, stray flashes of electricity darted about his hand, framing it in fire. Maginley was scared, and called to him to come down, but he paid no attention. and called to him to come down, but he paid no attention.

in Large Quantitles. A new industry, or an old one newly revived, is being carried on in Cherokee county, Georgia. Nothing more or less than a snake manufactory. Mr. H. H. McEntyre gave impetus to the industry by reintroducing the modus operandi in the presence of a Cherokee Advance reporter. Some days ago Mr. McEntyre's children threw several horse hairs in an eddy place in the branch, and afterward put them in cans partially filled with water, where they remained a few days. On pouring them out it was found that the horse hairs of a few

it was found that the horse hairs of a few days before were perfectly formed wriggling snakes. They would squirm around on the ground, anxious, it would appear, to get away from their captors, but seemed confined by some invisible power to the spot where they were thrown.

The snakes were ugly creatures. They had keen, tspering tails, were larger around the body than elsewhere and a kind of a knot supplied the head. There is even the suggestion of a mouth and eyes in the knot that forms the head, and every action of the snake is possessed by the manufactured arsnake is possessed by the manufactured ar-ticle. They are about as large around the body as a pencil and when spread out upon a table they will wriggle around and slide

You can find these snakes everywhere in Cherokee county now. One gentleman has a big branch full of them—in all stages of growth. They are slimy, ugly and horribly suggestive affairs.

HIS FRIENDS AFRAID Gentlemen, passing sentence has always been of considerable trouble and concern to me, even in small cases, except where the law has one absolute punishment. It seems to me that this prize fight at Richburg, of which you stand convicted, was That a Year in Jail Would Ruin the Champlon's Health. NEW YORK, August 17 .- The statement

A GROSS AFFRONT to the laws of the State, where the authorities personally forbade it. It seems to have been accomplished with systematic arrangemen accomplished with systematic arrangement and in the presence of invited thousands. It seems on the part of all connected in it to have been a studied disregard and contempt for the law. They came from and through many States whose authority and civilization deterred them from any attempt at such public lawless conduct within their limit, and they chose the State of Mississippi as the only fit ground for such combat, indicating their utter contempt for the sentiments of her people and the laws of her statute books.

Judge Terrell, whose eyes had been averted as if meditating as he spoke, now looked up and met Sullivan's gaze. He continued: "The sentence of the law is that as a punishment for the offense for which you stand convicted, you shall suffer imprisonment for 12 months in the county jail."

Sullivan gloomily took his seat. None of

Sullivan gloomily took his seat. None of his friends spoke to him then—it was best to leave him to his own reflections. He maintained his stolid look for a moment, but when attention was drawn from him his mouth put on the same appearance as when he met Kilrain in the ring, with little of sorrow tempering the ferocity. "Say, you fellows have a soft snap, don't tle of sorrow tempering the ferocity. STILL SMILING.

The feeling passed from him in another moment, and when he got under the railing to leave the court room, he faced the sympathizing crowd with a broad smile.

"Stand up, Mr. Fitzpatrick," said Judge Terrell, in a kindly tone.

Mr. Fitzpatrick took his place at the bar.

"Mr. Fitzpatrick," said the Judge, "in view of all that has been said in your behalf, and which I am disposed to believe is true, you appear to be a gentleman who was only present at the fight as a spectator, and one who did not intend to violate the law. In view of the statements in your behalf, I

one who did not intend to violate the law. In view of the statements in your behalf, I sentence you to pay a fine of \$200."

Captain Fitzpatrick bowed and thanked the Court, but sat down without having heard the amount of the fine. The reporters informed him, and he left the court to make arrangements for the paying of it, but the court was not yet through with Mr. Fitz-patrick, as will appear later on. District Attorney Neville said that he was anxious to go home to-day, and asked that no more cases be tried until next week. This was convented to and the averence to allow 60 consented to, and the agreement to allow 60 days to file bills of exceptions was put on record, and Judge Calhoun then made the motion for an sppeal, returnable to the Su-preme Court on the third Monday in Febru-

ary, 1890. STILL OUT ON BAIL. Judge Calhoun stated that section 2329 of the code, for an appeal of misdemeanors, fixed the bond from \$100 to \$1,000. The defense had prepared a bond for the maximum amount and presented it. J. W. Holleman, of Purvis, and John Duffy were the bondsmen. District Attorney Neville announced the reception of information of Jake Kilrain's arrival here sarely next week and saked the arrival here early next week, and asked the

clerk to issue a subpœna for Captain Fitz-patrick as a witness in the Kilrain case, and also against Bud Renaud, and he wanted the summons served before the witnesses left the State.

When Mr. Fitzpatrick came in he was informed that he was wanted and would be required to furnish a bond of \$500 to appear when wanted. The ex-referee put on as pleasant a face as possible over the new position, for he will have to leave home and business again. Colonel J. B. Denison, of Hattiesburg, became his surety. The petit jurors crowded around the clerk and were paid off, and the court stood adjourned un-til Monday morning.

says he will go to Mississippi and stand trial, notwithstanding the Sullivan verdict, but the impression prevails here that Jake will do nothing of the kind. He has until Thursday to make up his mind, and in that time he can easily make his way across the border into Can-ada. He had a long consultation with his counsel, Joseph Whyte, with reference to the best course to be pursued. By eaving here he has everything to gain and nothing to lose, as even his bondsmen comparatively safe. The law as to the colection of a bond of a surety is so faulty in this State that unless a bondsman himself gives up the money there is no way of mak-

ing him. From this it will be seen that no matter how large it may be the paroled prisoner need have no fear of confiscation. It is herefore not at all likely that Jake will miss the opportunity of making his escape. A year in a Southern prison is not at all to his liking. Detective Childs, of Mississippi. reached here to-day, and at once reported to

out on bail, not returnable until Thursday," responded the Marshal.

Mr. Childs sighed and looked serious. However, he accepted the marshal's invitation to sit down and waited patiently for developments. A half hour later the marshal escorted him to the office of State's Attorney Kerr. There a three-handed conference was held, which lasted but a few minutes. The State's Attorney said that nothing could be done till Lawyer Joseph Whyte, counsel for Kilrain, had been notified. The State's Attorney sent a messenger boy to Mr. Whyte's office. The boy returned with the announcement that Mr. Whyte was out of the city and was not expected back until Monday. BALTIMORE, August 17 .- At this aftergoon's session of the Maryland Synod of the German Evangelical Lutheran Church General President Schwan made a speech treating on the principles adopted by the Evangelical Synod of Wisconsin, with regard to the Bennett and Blair educational bills.
