

FLEMING WITHDRAWS

The Wholesale Druggist Will Not be Surety for Chief Elliot.

PARKS FOR THE HILL DISTRICTS.

Another Junction Railroad Scheme in the Common Council.

THE CITY WILL PAVE GRANDVIEW ST.

The first regular meeting of councils after the summer adjournment was held yesterday.

In the select branch a number of ordinances were presented. Among the most important were two setting, aside the city reservoirs in the Eleventh ward, on Bedford avenue, and the ground adjacent thereto for a public park, and authorizing the chief of the Department of Public Works to improve the same and to designate it as Bedford Place; setting aside the Bedford avenue reservoir in the Seventh and Eighth wards in the same manner and for the same purpose, and designating it as Prospect Place.

Chief Brown recommended an appropriation of 200 feet of the Moonaghela wharf, at the foot of Southfield street, for a police station house. The report of the Department of Public Safety for July, showing \$63,433.85 expended, was adopted.

A communication was read from Mr. Joseph Fleming, of the First ward, in which he stated that he desired to be relieved from liability as bondman for R. C. Elliot, chief of the Department of Public Charities, and that after September 1, 1889, he would not be bondman on the bond of Mr. Elliot.

Mr. Keating moved to refer the communication to the city attorney, but Mr. Lambie arose and stated that that would not be the proper course to pursue. The city attorney had nothing to do with Mr. Elliot's bond, and would only refer the matter back to council.

"The fact is," said Mr. Lambie, "this bond has nothing to do with this matter, and there is no way the gentleman can be released from liability until the end of the term, for the whole of which he became surety."

RECEIVED AND FILED. Mr. Keating then moved that the letter be received and filed, which was agreed to.

The ordinance granting Rea & Co. the right to construct a switch track on Greenough street was amended, read a second time and laid over.

An ordinance for grading, paving and curbing Grandview avenue from Downing to Oneida streets was accompanied by lengthy report from the Board of Viewers, in which they stated that inasmuch as one side of the street was a precipitous hill, upon which no improvements could be made, and which would not be increased in value by the proposed paving, and as it would cost the city of the order of \$25,000 to pay for it if all was assessed on the owners, the city should assume and pay one-third of the expense, the total which is estimated at \$75,000. The report further states that there is only one other street in the city similarly situated, and as the property along that street is sufficiently valuable to pay for its own improvement, there is no reason why a dangerous precedent by making an exception in this case and the city assuming to pay one-third.

The recommendations of the Board of Viewers were approved and the ordinance was passed.

An ordinance for grading, paving and curbing Linden street from Penn avenue to a point 749 feet east of Shady avenue, passed second reading and was laid over until the next meeting at the request of Mr. Westcott. The reason for this was that 25 acres of property abutting belonging to Mr. Richmond, who opposed the improvement, but it was reported that he had sold the property to a syndicate for \$2,500 per acre, and the syndicate was in favor of the paving, but had not signed the petition, and they will be given a chance to do so before the next meeting.

A resolution authorizing the Controller to transfer \$3,000 from the contingent fund to the Board of Assessors to pay extra clerk hire required by reason of triennial assessment and preparation of the tax lists for publication was approved.

A number of ordinances for paving and grading streets were passed.

THE MT. OLIVER INCLINE. In Common Council an ordinance was presented and referred, granting Pittsburg and Mt. Oliver Incline Railway Company the right to build an incline from Carson street to Washington avenue, crossing Sarah, Frederick, Mary Anne, Manor streets and the Eastern Railroad, and an elevation not less than 15 feet. An ordinance for a sewer on Mulberry alley was indefinitely postponed.

An ordinance for a switch track on Thirty-third street, connecting with the Junction Railroad; this ordinance was fought on the ground that it would close up West street, and that it would interfere with Pennsylvania Railroad yards. It was said, too, that the Thirty-third street bridge would be interfered with, but Mr. Duncan insisted that this was correct. Mr. MacDonnell, Mr. Wright and Mr. Maguire supported the ordinance, and Mr. MacDonnell moved to indefinitely postpone, which prevailed.

A resolution for the transfer of \$3,500 from the contingent fund to the Board of Assessors fund to cover the extra expense owing to the triennial assessment was passed.

The Pittsburg, Oakland and East Liberty Railroad bond ordinance, which failed for want of a legal majority at the last meeting, was called up and passed. The Highwood Park ordinance was also indefinitely postponed at the last meeting was passed. The supplementary ordinance granting the right of way to the Pittsburg, Knoxville and St. Clair Street Railway Company, giving Joseph Lowell the right to use the model of the Brilliant Hill water works was read and the order of the higher branch was concurred in. The contract for the Board of Awards as previously published was approved.

A NEW RICHMOND. Another Natural Gas Company Proposes to Enter the Lists. Messrs. H. Dupuy, David Shaw, Robert J. Anderson, Robert Joseph and A. H. Clarke are applying for a charter for a corporation to be called "Consumers' Heating Company." While the incorporators state that their object is to furnish gas in Allegheny City and vicinity, it is strongly supposed that the steel works at Chariters are to be cut in from the present supply and taken into the new field. The corporators already own a well in Killbuck township, and for their own use it might almost pay to lay a pipe and at the same time there is ample demand for all they have to spare.

A. H. Clarke, Esq., the attorney for the corporation, came out at these statements that he would like to accommodate the new gas gatherers, but could not at present tell what they intended to do.

Deaths in Families Where Members Were Imprisoned. Ex-Constable Louis Betz was proven innocent of the charges against him of complicity with the Bauder detective conspiracy, but while he was in jail his two children fell ill of typhoid fever. They were not given proper care because their mother could not raise the money to have the prescriptions filled. After Mr. Betz was released assistance, neither would he give him work, and he was destitute. Sunday night his daughter Agnes died.

William Wenzel, a 17-year-old boy, was sent to the Eastern School last week. On Friday he received word that his mother was dying. After the funeral to-day the young man will return to the place where he is to remain four years.

Chinese Pay for Their Pains. The second raid which was made on the Chinese factories, 179 Second avenue, resulting in the capture of 15 Celestials, ended in Judge Gripp holding Wu Sung, the proprietor, in \$1,000 bail for court, and fining the others \$5 and costs each.

SANFORD'S GINGER FOR EVERY SUMMER ILL. Fruit of all kinds here to call attention to the fact that the medicinal properties of the ginger which cause anxiety and distress at this season, and for which SANFORD'S GINGER is so speedily and effectively a remedy.

Composition of impure ginger, choice aromatics and medicinal French brandy, convenient, speedy and safe, it is the quintessence of all that is preventive and curative in medicine. It is sure to check summer ill, prevent indigestion, destroy disease germs in the water drunk, restore the circulation when suspended by a chill and ward off malarial, contagious and epidemic influences.

Beware of cheap, worthless and often dangerous gingers often urged by mercenary druggists as substitutes for SANFORD'S. Ask for

LATE NEWS IN BRIEF.

The Sultan has ordered a special meeting of the Cabinet to devise measures to suppress the disorder that prevails in Armenia.

MONEY IN HIS MIND.

A Bear Imposes on a Hackman Who Thought He Had a Belt of Brazilian Gold—Impudence in the Courtroom.

NEW YORK, September 9.—A man who wore but one shoe, and whose appearance was dilapidated, came out of McAlister's drugstore, at Broadway and Eighth street, Saturday night and hailed Hackman William Hogan, "I'm from Brazil," he said. "In a belt around my waist is Brazilian money that I want to get changed. The steamer got in to late this afternoon for me to reach the downtown brokers. I must see what I can do uptown to-night. You take the money and I'll pay you well when I get my money changed. Now, let's have a drink."

They smiled in a neighboring saloon, and the alleged Brazilian having no American money, the hackman paid for the drinks. The passenger said that he would stop first at the Albatross Hotel. He shuffled in, and sat down at the bar to drink to his Madison House, Dr. Tiffany's church, on Madison avenue, winding up at the Hotel Bartholdi at 130 A. M.

The hackman paid the bills everywhere. At last he lost patience. "I know how to fix you," said the hackman, and, dragging the swindler to the cab, he threw him inside and slammed the door and rattled off to West Thirtieth street police station. There the fellow gave the name of Edward Burling, said he had no home, and was locked up. The police, upon searching him, found a small quantity of morphine and a hypodermic syringe. The supposition is that he injected the morphine under his skin while in the cab, and was in a dream the most of the time that Hogan was carting him around. His belt of Brazilian money was a myth.

Justice Gorman seized the prisoner for a bear and asked him what he had to say. "This, Your Honor," answered Burling; "I've got friends in this town, and they've got money; only I can't find them. Now, Your Honor, will you lend me some, and the fellow leaned on the rail and looked inquisitively at the justice.

"Three months on the island," said Justice Gorman, as a policeman handed up the syringe and morphine.

HENDRICKS & CO., Popular Photographers, 65 Federal Street, Allegheny.

Will give special low rates for photographs during the Exposition. Liberal discount on all work done. Don't forget this. Everybody welcome. Good cabinets \$1 a dozen.

HARRY ALDEN, formerly of this city, can now be found at W. H. Holmes & Son's Chicago House, No. 264 South Clark street, 120 West street, 264 South Clark st., 158 First avenue, TTSU Chicago, Pittsburg.

Dr. Shafer, one of the physicians of the Polyphasic Medical Institute, at 420 Penn ave. Mr. C. V. Pulpress, of No. 40 Liberty street, Allegheny, had for a long time suffered from a weak, tired feeling, no ambition, pain across the small of his back and palpitation of the heart. His complexion was very sallow, and the diseased condition of his kidneys from which he suffered further progressed, his stomach became involved. He had bloating, belching of gas and distress after eating. He lost flesh, his memory became poor and his mind became so affected that he could neither read or think, and was in constant fear of becoming insane. He often felt dizzy, so that everything seemed to be in a whirl, and he became so nervous as to entirely neglect any of his business. Having tried in the papers that the physicians of the Polyphasic Medical Institute make a specialty of kidney and urinary diseases he began treatment with them. His own words state the result: "It is to certify that I have been cured by the physicians of the Polyphasic Medical Institute at 420 Penn avenue."

Office hours, 10 A. M. to 4 P. M. and 5 P. M. to 8 P. M. Sundays, 10 A. M. Consultation free. 663-773

Office hours, 10 A. M. to 4 P. M. and 5 P. M. to 8 P. M. Sundays, 10 A. M. Consultation free. 663-773

Dr. Shafer, one of the physicians of the Polyphasic Medical Institute, at 420 Penn ave. Mr. C. V. Pulpress, of No. 40 Liberty street, Allegheny, had for a long time suffered from a weak, tired feeling, no ambition, pain across the small of his back and palpitation of the heart. His complexion was very sallow, and the diseased condition of his kidneys from which he suffered further progressed, his stomach became involved. He had bloating, belching of gas and distress after eating. He lost flesh, his memory became poor and his mind became so affected that he could neither read or think, and was in constant fear of becoming insane. He often felt dizzy, so that everything seemed to be in a whirl, and he became so nervous as to entirely neglect any of his business. Having tried in the papers that the physicians of the Polyphasic Medical Institute make a specialty of kidney and urinary diseases he began treatment with them. His own words state the result: "It is to certify that I have been cured by the physicians of the Polyphasic Medical Institute at 420 Penn avenue."
