

WAS IT BAD FAITH?

A Glass Manufacturers' Meeting in Chicago To-Day.

THEY ARE DISSATISFIED

And Will Not Recognize the Action of the Pittsburghers.

THE ASSOCIATION MAY DISBAND

An Expert Tank Furnaceman from Belgium is Now in the City.

OTHER INTERESTING LABOR ITEMS

A meeting of the members of the Western Window Glass Manufacturers' Association...

According to circulars received in this city yesterday, this action will be adverse to the decision of the committee...

The information was obtained yesterday from two reliable Pittsburgh manufacturers...

INSIDE ACTIONS DETAILLED.

At the meeting of the Pittsburgh manufacturers Wednesday last, the manufacturer in question said he wanted to start up at once...

When it became known that the member of the Wage Committee wanted to start up, it is stated that the Pittsburghers telegraphed him to hold off until they held their meeting to-day.

The manufacturers west of this city control over two-thirds of the entire product of the Western Association.

It is thought that the manufacturers west of this city will break away from the association, on account of the action of the Wage Committee...

A new one will then be formed and the two largest factories in this vicinity will be left out of it.

The three-foot water main on Butler street burst at the corner of Forty-third street...

While the inhabitants may wrestle along without water for a time, extra precautions to prevent fire should be taken.

HITHER AND THITHER.

Movements of Pittsburghers and Others of Wide Acquaintance.

A letter purporting to have been written by State Senator Rutan, while at Hagatz, Switzerland, on September 4, was published in an evening paper yesterday.

Mr. J. M. Pagnoul, of Junet, Belgium, and Mr. Elliott Harden, of New York City, are guests at the Duquesne.

Two Experts Who Have Come to Pittsburgh to Have Their Eyes Opened.

Mr. J. M. Pagnoul, of Junet, Belgium, and Mr. Elliott Harden, of New York City, are guests at the Duquesne.

Speaking of the relative merits of an economical point of pots and tanks, Mr. Pagnoul said that he would estimate a saving in favor of the latter of from 10 to 15 per cent.

Nothing heard from them.

THE MT. AIRY PARK.

Mrs. Schenley's Donation to the People of Pittsburgh—The Property Worth More Than Half a Million Dollars.

Much interest has been aroused in the park project since Chief of Public Works Bigelow announced that the communication to the Schenley estate had been answered in a manner to put the big park beyond the region of doubt.

At first when the project was spoken of a good many people thought it too good to be true that the Schenley estate would make such a big donation as was hinted at. It was remembered that Mrs. Schenley had previously shown a disposition to be very liberal in the matter in the early '70's, when Councils had an intimation of a large part of Mt. Airy park to be had for public purposes for the asking.

When, therefore, Chief Bigelow, this summer, declared that the beautiful tract of 375 acres, just beyond Oakland, between Forbes avenue and the Monongahela, could be had upon terms that almost amounted to a gift, it was not surprising that in some quarters incredulity mingled with hope in speculating on their present limits.

Much guessing has been going on as to the actual terms of the communication which has been received from the Schenley estate, and which seems to be held quiet for the present, not only about the property as well situated in the neighborhood is now bringing in open market.

The whole transaction on this basis will amount to an equivalent of a gift to the city of property to the amount of over half a million dollars. It is the noblest donation that has ever been proposed to Pittsburgh, and will show in the handsomest manner that the city is not without a well situated interest in the growth and future of the place.

While the inhabitants may wrestle along without water for a time, extra precautions to prevent fire should be taken.

Further negotiations may possibly result in a settlement upon the above, but it is understood that the idea, so far as it has progressed, runs close upon the lines indicated.

LOOK OUT FOR FIRE!

The Three-Foot Water Main Burst at Forty-Fifth and Butler Streets.

The three-foot water main on Butler street burst at the corner of Forty-fifth street at 10 o'clock last night. The Water Department was immediately notified, but it was expected that some damage would be done before the flow could be shut off, and for a time following there will be a scarcity of water in the city.

VAN DYNE DON JUAN.

An Ohio Idyll Finds Its Sequel in Beaver Falls Jail.

A WOMAN AND HER TEMPTER.

David Ush Would Still Forgive His Hand-son, Erring Wife.

HOW A BUOICIAN HOME WAS INVADDED

ONE WINTER LAST, two years ago, a tramp stopped at the farm house of David Ush, in Marion county, O., and asked for something to eat.

The farmer's wife, Louisa, was buxom and pretty, and only 28 years old. The farm contained 200 acres, and David was evidently in good circumstances. Van Dyne's lines had fallen in pleasant places. For 20 months he lived and worked on the farm, and was treated as a member of the family by the generous young farmer.

One winter last, February Ush went to Marion, six miles distant, and when he came home in the evening his wife and hired man were gone. For two weeks Ush could hear nothing of them, but by accident he learned that they had been located at Ravenswood, Mich. They had arrived there February 28 on the steamer Andrews, and had registered, under fictitious names, at the Hotel Ravenswood as man and wife. Van Dyne learned of the farmer's arrival in town one evening, and he escaped on the lake in a skiff, going to the home of his mother in Racine, Moigs county, O. Ush met his wife, and after an interview, he forgave her and took her home.

Van Dyne did not remain long in Racine. It was not pleasant for him there. It was his intention to return to the office with Southiders anxious to get back all or a portion of their funds which were invested in the bank.

Mr. McClung said that the amount of money in his hands was about \$85,000, resulting from the settling up in part of the defunct institution. This money will be paid pro rata on authenticated accounts, on a basis of \$20,000 to depositors. As a rough estimate all depositors will receive one-fourth of their claims at the present payment, whether the original amount was large or small. Many of those who presented their accounts were skeptical in regard to even partial payment, and could hardly believe that their money was to be returned until the pro rata amount was handed to them, and they saw the first National Bank, where \$50,000 of the defunct bank's money has been deposited since last January. Mr. McClung stated that a further payment would be made as soon as the bank accounts realize upon certain real estate and accounts still outstanding.

Very Little Change in the Present Aspect of Affairs.

The freight blockade on the Baltimore and Ohio and Junction railroads remain practically the same. Manager McDonald, of the Pittsburgh and Western Railroad, claims to have been compelled to abandon two trains, with the exception of one section, on Monday night, because there was no cars to be hauled. Besides there were only 38 cars yesterday morning, and 30 of these were taken away. Since that time the bridge has been on the Junction bridge yesterday filled with cars again, but the Junction has a down grade from the Baltimore and Ohio, and can bring down 200 cars a very short time. Mr. McDonald hinted that the trouble with the Baltimore and Ohio Railroad arose from the fact that he had refused to sell his cars with which to carry their Toledo coal trade. Several engines belonging to the Pittsburgh and Western had been injured in wrecks recently, and would be soon out on the road again. There would be no trouble at all as soon as the engines now being constructed for the road were completed.

SEARCHING FOR EVIDENCE.

The Police Cause Lead Campbell to be Held for Development.

"Loud" Campbell, a Gleeman and Charles Kline had a hearing before Magistrate Krippe yesterday on a charge of burglarizing No. 168 Center avenue one week ago. Kline and Gleeman were committed to jail for court trial, but Campbell's case was held over at the request of the police officers, who are collecting evidence against him in another and more serious charge.

When arrested Campbell had a pocket-book, some precious stones in an overcoat, and a watch, which the police think have been stolen and are anxious to have identified. The articles can be seen at Inspector McAleese's office in City Hall.

A Five-Year-Old Faces Death.

Edah Bennett, a girl only 5 years old, while running across Penn avenue last evening at 6 o'clock, was struck by cable car No. 214, going west, between Twenty-seventh and Twenty-eighth streets. The child clung to the cow-catcher, and as she was not at first seen by the driver, she was carried about 100 feet. She was badly bruised, but it is thought not fatally hurt. She was carried to her home at No. 271 Sunniam street.
