### HE MAY QUITTHIS SEASON

Another Exciting Game Between the Homesteads and E. E. Athletics.

THE BROWNS STILL ON THE SLIDE.

Brooklyn Looks Like a Sure Association Pennant Winner.

#### GENERAL BASEBALL NEWS OF THE DAY

President Hewitt, of the Washington Baseball Club, is inclined to quit the baseball business at the end of this season. He says his club is losing, and he demands assistance or he will dispense with the team. There was an exciting game between the Homesteads and the East End Athletics.

WASHINGTON, September 21.-President Hewitt, of the Washington Baseball Club, has been the recipient recently of several letters from League maguates urging him to stand firm and not permit the capital of the United States to be unrepresented in the big ball aggregation next season. This stiffening process has become necessary from the fact that Mr. Hewitt does not regard with favor the prospect of laying out more money to support a team here next season, when the recelpts this year have shown a deficiency on the

right side of the ledger.
"Thus far," said Mr. Hewitt this afternoon,
"I have sunk \$10,000 in my endeavor to give baseball patrons amusement, and I am not anxious to repeat the experiment unaided, while I am not prepared to say definitely that there will not be a club at Washington next season. I am sincere in my efforts to find a syndicate of gentlemen who will be willing to help me to bear the brunt of the expense. No other club in the League is carried on solely by one man and baseball has not proven such a ranza as to cause me for an instant to think

of neglecting my business."

The statement of President Hewitt leads many to believe that Brooklyn will try for the Washington franchise. It is understood that Brooklyn is ready to join the League chiefly because of the quarrel between President Byrne

was another exciting County League game at Homestead yesterday between the club of that place and the East End Athletics. The excitement was intense because of the closeness of the contest between the Athletics and the McKeesports for the pennant. The Homesteads were determined to k ock the East Enders out if they could, and therefore had Jones in the box. The game resulted in a tic, however, and was called on account of

The New Oaklands Defeat the Pittsburg Greys for a Stake.

The New Oaklands had little trouble in de feating the Pittsburg Greys at Recreation Park yesterday. The Greys could do little with Anderson, who pitched a fine game, striking out nine men and allowing only three safe hits. The features of the game were the ttery work of Anderson and Morgan and the batting of Newell, Jope and Butler. The attendance was fair considering the chility weather. The game was called at the end of the sixth inning on account of darkness. The game was for \$30 a side. Score:

The Dispute About the Trotter Howard Jay

Brought to an End. ISPECIAL TELEGRAM TO THE DISPATCH, SCRANTON, PA., September 21 .- Personal friends of Dr. B. H. Throop, of this city, have finally persuaded the aged physician to settle up the famous Howard Jay suit which Mr. B F. Herrick, of Elmira, brought against him in the fall of 1883. Dr. Throop got possession of Howard Jay soon after Mr. Herrick brought him to Scranton. Mr. Herrick was hard up and

him to Scranton. Mr. Herrick was hard up and he borrowed \$1,000 on the horse of Wm. Haggerty and J. S. Waiden, the agreement being that, at the end of one year, Herrick should have the horse on the payment of the loan and interest, the three to share equally in the gelding's earnings. In the spring of '83 Haggerty and Walden got into a dispute over a driver, and Walden got into a dispute over a driver, and Walden induced Dr. Throop to buy Haggerty's interest in the horse. In order to make Haggerty believe that Throop had bought the horse out and out a bill of sale was got from Herrick in favor of Throop.

Howard Jay's performances made the horse very valuable. He was brought back to Scranton in the fall of the year, having earned \$3,000 above all expenses. Walden was out of his interest in the horse by that time. In October Herrick came here and tendered \$1,000 borrowed money and interest to Dr. Throop, but Throop wouldn't give up the horse, declaring that the bill of sale showed that he was the sole owner of the trotter. Throop sold the horse to Mr. J. D. Ripley, of New York City, for \$5,000, and in December Herrick sued Throop in the Supreme Count of New York City, for \$5,000, and in December Herrick got judgment against Throop for \$8,000 and costa. On the payment of \$10,000 Herrick withdrew the suit; but the old man got only a small share of the sum, most of it going to the lawyers. Dr. Throop still hangs on to Howard Jay.

## A REQUEST TO RESIGN

The Trades Council Asks Mr. Marvin

to Vacate the Presidency OF THE EXPOSITION SOCIETY.

It Results From That Musical Row Over the Great Western Band.

GOV. BEAVER WRITES ANOTHER LETTER,

Plan Arranged to Have a Labor Member on the Revenue Commission.

The Trades Council met last night, denounced the action of Organizer Flannery in admitting the Great Western Band into the K. of L., and asked Mr. Marvin to resign as President of the Exposition. Governor Beaver arranged a plan to have labor represented on the Revenue Commission.

The Trades Council of Western Penusylvania met in regular session last night with Joseph L. Evans in the chair. It was a large meeting and an adjournment was not reached until almost midnight. The trouble over the music at the Exposition came up again and was discussed at length. Finally the following resolutions were adopted:

WHEREAS, The Trades Council of Western Pennsylvania requested of the Directors of the Pittsburg Exposition Society, previous to the opening of the Exposition, that they employ only a union band for the season; and Whereas, The directors of the Exposition Society have never seen fit to answer the committee relative to their action; and Whereas, We know that the Great Western Band, which had a contract with the Expo-sition Society to play the season, at the time the committee called was not a union band;

Whereas, It is reported that since that time the Great Western Band has been organized into a Knights of Labor Assembly, though we feel confident that but a minority of them are Knights of Labor, the remainder being non union men, or expelled and suspended mem

Whereas, We believe that President Marvin, of the Exposition Society, who has been con sistently inimical to organized labor, is largely responsible for the employment of this band, and the disregard of the wishes of organized labor in the matter; therefore, be it

FLANNERY CALLED DOWN. Resolved, That the Central Trades Council of Western Pennsylvania condemns the action of John Flaunery, the K. of L. organizer, for or-ganizing part of the Great Western Band into the K. of L., and that we place it upon public record that his action has set at naught the de-mands of organized labor, and that he should be avoided by every union man for his course Resolved, That while we believe the griev ance by Organizer Flannery's action has been partly transferred from the Exposition Society to his shoulders and those who aided him, we believe it would be for the best interests of the Exposition if President Marvin was requested to resign that office, and we hereby make that

to resign that office, and we hereby make that request publicly; and Resolved, That on account of the condition which the musical dispute has assumed, that we leave it to the judgment of all union men to patronize the Exposition or not, as they may individually see fit to do.

The resolutions were adonted. The resolutions were adopted. Secretary Ward read a letter from Governor Beaver, as follows: Commonwealth of Pennsylvania, )

EXECUTIVE CHAMBER,
HARRISBURG, September 18, 1889.
Mr. Charles F. Ward, Secretary, etc., Pittsburg Pa.:
My DEAR SIR—Your letter of the 9th instant
has been received. I have had a consultation
with the Attorney General since its receipt.
The conclusion which he has reached is the only one which can be arrived at under the cir-cumstances, namely, that there is no way by which the resolution, as it was messaged from the Legislature to the office of the Secretary of

#### the Commonwealth, can be changed except by the Legislature itself. SECRETARY STEWART'S PLAN.

I have had an interview this morning with the Secretary of Internal Affairs, Hon, Thomas J. Stewart, in which we have outlined a course which I think will be entirely satisfactory to your people, and will accomplish practically the same results as if the surprising and unac-countable blunder had not been made by one of the transcribing clerks. Mr. Stewart and I have agreed that when the Revenue Commishave agreed that when the Revenue Commission meets he will address a communication to them reciting the facts of the case, and nominating a member of a commission to represent the wageworkers as contemplated in the amendment, which, I have no doubt passed both Houses of the Legislature, but which was omitted in finally transcribing the resolution. This communication will ask that the commission elect a gentleman nominated by him as a regular member of the commission; that the money appropriated for compensation be divided among the several members; that he be allowed to vote and sign his name to the report just as if the omission had not occurred. The other members of the commission will, no doubt, under the circumstances, cordially assent to this proposition. commission will, no doubt, under the circumstances, cordially assent to this proposition. Several of them whom I have seen will, I know, do so. This will cure all the difficulties and annoying defect which occurs in the resolution, and will give your people all the rights which they could have under any circumstances. The report of the commission will simply be a recommendation in any event, and will have no binding force that any one can take any exceptions to or advantage of the omission.

I cannot believe that any bad faith was practiced in this matter, for the reason that I can conceive no object in acting mala fide. If the arrangement which Mr. Stewart and I have agreed upon this morning is carried out, even if there was bad faith, we will circumvent it, and put your people in a right position with the commission and before

will choose the community of the public.

Hoping that this will be satisfactory, and that we will be able to carry it out as proposed, and desiring to co-operate with you in every possible way to soccure your rights in the premises, I am very cordially yours,

JAMES A. BEAVER. The Secretary was directed to write to the Governor thanking him for his kindness, and has only to show the goods. Positively no orders taken but the samples given if The wages are the same as at present, but the hours, which now vary, are fixed at ten per day, with double pay for overtime and Sunday work. The scale was approved. A committee was appointed to wait on M. Dolan, the barrel manufacturer, to ask him to make his shop union. In case he refuses the committee will ask the glass mannfacturers not to buy barrels from him. A committee was appointed, at the re-quest of the marble workers, to ask Brown

& Co, to have the mantels for the houses they are building in the East End made in Pittsburg and not in Cleveland. The new delegates admitted were: John Ehman, Federation Union 3792; John McCormick, Horseshoers' Union No. 9; Peter Tantlinger, L. A. 1862; Edward Coll. Plasterers' Union 31; D. M. Aiken, Iron Molders' Union

HOW IT IS DONE.

Surgeon Who Removes Hair From Ladles Paces With Electricity.

A source of great annoyance to a woman is the growth of unnatural hair on her face Is the growth of unnatural hair on her face. Many women have hair growing upon the upper lip, or on the cheek or chin, for the removal of which, without the making of a sear, they would be willing to pay almost any sum of money. Various decoctions are sold for the purpose of removing such hair. They are usually called depiliatory remedies or powders. They merely destroy the hair externally, without killing the roots, and therefore are only temporary in their resolution:

The Pittsburg committee for the relief of the Johnstown sufferers held a meeting at the rooms of the Chamber of Commerce yesterday. Chalrman McCreery occupied his official position and all the other members were present. Several small bills and matters of minor importance were arranged and then the matter of disposing of the balance of the fund, about \$160,000, now in the hands of Treasurer Thompson, was taken up. This was arranged by the following resolution: and therefore are only temporary in their effect. A surgeon who uses electricity as a

remedy yesterday said: "The principal ingredient of those depiliatory powders is lime. The idea of using lime was obtained from the tanning business, where lime is used to remove hair from hides. The method which I employ is called electrolysis, which means the decomposition of tissues by electricity. I use an electric needle, which is made with an exceedingly fine point. This needle is connected with the negative pole of a galvanic battery. The point of the needle is inserted into the follicle, alongside of the hair. In about 20 seconds the hair is killed by the electric current. The root or germ is destroyed, so that the hair never grows again. I can destroy 12 or 15 hairs at a sitting of half an hour. I have taken from the face of a woman as much hair as I have on my

face."

The surgeon is a well-bearded man.
Continuing, he said: "It is surprising the number of women who have blemishes of unnatural hair. Thirty or thirty-five women out of every hundred have superfluous hair on their face some time during their lives. I remove also moles, warts and birthmarks. Small blemishes like moles and warts are removed by the electric needle, which takes them off permanently. In the case of a birthmark, which is often large and sometimes nearly purple I use a cluster and sometimes nearly purple, I use a cluster of six fine electric needles. They are inserted into the mark, and the current blanches or bleaches the skin near the needles. There is a small amount of pain con nected with that operation and it requires some time, but the effect is permanent. I use the needle also for the removal of in-

#### NOT IN HIGH FAVOR.

It is Claimed Doctors Are Not Wanted to

On Friday night, the Allegheny High School Committee decided to engage two physicians, one male and one female, t teach physiology, anatomy and hygiene in the new High School. M. W. Lewis, of the Central Board of Education, of Pittsburg, was seen yesterday, in the absence of City Superintendent Luckey, about this move on the part of the committee.

Mr. Lewis stated that the idea of getting professional ladies and gentlemen to take the places of ordinary teachers was quite novel. In the Pittsburg High School, ordinovel. In the Pittsburg High School, ordi-nary teachers are engaged for instruction in anatomy, physiology and hygiene. They do their work well and thoroughly. Only a certain amount of each subject is required a certain amount of each subject is required to be taught, and the teachers can teach all all that the law specifies. Too much instruction in these matters would only overload the pupils. If they wanted to study these matters more fully they might go to a university or medical school. And whether the move of the

Allegheny High School arose from any scarcity of good physiology teachers, Mr. Lewis said that such teachers were to be found in plenty. Whenever a vacancy of the kind occurred in Pittsburg High School the kind occurred in Pittsburg High School there were always numerous applicants, many well qualified for the position. The Allegheny High School only offered a salary of \$1,000 to the proposed physiciantutors, while in Pittsburg the physiology teachers get a good deal more.

Mr. J. B. Arbuckle, principal of the Ninth ward school, Allegheny, said: "I don't believe this nonsensical proposition will ever pass the Board of Control. Good physiologists are to be found, and besides an

The Fleed Committee of Pittaburg Turns Over All the Money to the State Author-ities-Not Afraid of Criticism.

The Pittsburg committee for the relief of

up. This was arranged by the following resolution:

Resolved That this committee, aware of the grave difficulties that have prevented a wise and equitable distribution, at an earlier date, of the funds at the disposal of the State Commission, and recognizing the care and labor bestowed by them in discharge of the onerous dities laid upon them, would hereby express their general and hearty approval of the manner in which their work has been done.

Discontent with the awards in some quarters is to be expected. It is impossible to please everybody. Criticism from the wise few who always know just what ought to be done in all circumstances, will follow, as it has preceded, their action, but the commission can safely commit the final report of their work to the judgment of the generous donors, whose gifts they have sought with sincere purpose whely to disburse.

We therefore direct our Treasurer William

they have sought with sincere purpose wisely to disburse.

We, therefore, direct our Treasurer, William R. Thompson, to transfer to the State Commission the sum of \$100,000 to be used, with our previous transfer of \$400,000, at the forthcoming distribution in Conemaugh Valley.

The resolution was adopted, and Treasurere Thompson will at once turn over the money to the State Commission. The first transfer of \$400,000 was made on July 26, and that together with the \$160,000 will make \$560,000 to go into the next award to the sufferers, all coming from this city. There is still a balance of a few thousand dollars left in the hands of Treasurer Thompson, the committee thinking it best to retain it for use in caring for an isolated case here and there.

here and there. There was also an auditing committee There was also an auditing committee appointed to go over the accounts of the Treasurer, composed of Controller E. S. Morrow, of this city; Governor J. R. Foraker, of Ohio; Governor George Luce, of Michigan, and Mayor De Witt C. Creiger, of Chicago. Treasurer Thompson will get his accounts ready for this committee, when they will be properly audited and made public through the proper channels.

The famous letter of Governor Beaver to Chairman McCreery, relative to the disposition of that \$125,000, was not considered, though the members talked about it in a good natured way after the adjournment. The meeting adjourned to meet again at the call of the Chair.
