A New Church to be Built by East End Methodists.

COSTING OVER \$75,000.

A Kitchen Will be Added for Congregational Blowouts.

SPECIAL ROOM ACCOMMODATIONS.

The Increase in Membership Necessitates Larger Quarters.

A \$3,000 ORGAN WILL BE FURNISHED

The East End is already studded with elegant architectural structures, yet there is to be another building to add to its beauty. The unsightly Emory Methodist Episcopal Church, which stands over the bridge on Penn avenue, to the right of the Pennsylvania Ruilroad track, is soon to be demolished, and upon its ruins will be erected a stone temple, at the cost of \$75,000, for the followers of John Wesley to worship in. The present building, which is 35 years old, has become totally inadequate for the accommodation of the throngs who attend church there. "It has no architectural beauty, and its obliteration," said one of the members," will remove an eyesore." The Rev. C. V. Wilson, pastor, speaking about the new church, said last night:

"The rapid growth of the Methodist body in the East End makes it necessary to undertake the building of a new church. There are at present 700 members on the rolls in good standing, 250 in excess of the church membership two years ago. The church building, as it stands now, is unfit and ill adapted for so large a congregation, and we have concluded to build a modern church worthy of this part of the city.

BUILT ON THE GOTHIC PLAN. "The new church will be of Gothic style. The roof will be vaulted and massive stone pillars with bas reliefs will be supplied. It will be built of white stone similar to the Hiland Avenue Presbyterian Church. Indeed, the structure in its arrangement will be modeled after the Presbyterian building At the east end of the church a grand organ will be placed, beautifully orna-mented, and of the sweetest quality in tone. Repeath it will be a rostrum with pulpit attachment and furniture, the floor being covered with beautiful carpets. At each side of the rostrum, north and south, will be sweeping transepts, with exquisite colored glass windows. The body of the auditorium will not only be nicely appointed, but the seats will be arranged so that the congregation may see the preacher with ease. The various rooms necessary for a Methodist church, such as "class, vestry, board, and young people's rooms, will have a part in the

A KITCHEN TO BE ATTACHED. "There will be a grand Sunday school room and library at the rear, also kitchen

for the preparation of edibles for social en-tertainments. The church will be built on the present site, which is a very fine one It will cost at least, with furnishing, \$75,

"Immediately after the Methodist Episco pal Conference, which meets at this place October 9, the new church scheme will then be taken up. It has for a long time been the absorbing topic outside of our re-ligious work. Had not the conference beer meeting here, possibly we should be on the way much further. Before the incoming spring, however, this church will be pulled down, and we hope a new one will be on its

The congregation at the Emory Church and the Sunday school membership are the largest in that section of the city.

SOUTHSIDE REVIVALS.

The Spenkers Address Large Audiences in the Rig Rink.

The second week of the revival services in the Mammoth Roller Rink, Carson and Twenty-second streets, Southside, began last night, and hundreds were turned away, Every sent was occupied, and standing room was at a premium. It was estimated that 2,800 people were present. The Rev. F. R. Farren, of the First Presbyterian Church, South Twentieth street, opened the meeting with an affecting prayer, and the large choir sang an appropriate hymn. Major Cole was in excellent voice, and his remarks were listened to with rapt atten-

He related many anecdotes, humorous and pathetic, and eloquently pointed out the evil effects of gambling and drinking. closed by again thanking the audience for its great numerical strength, and hoped that it would continue to grow larger as long as the revival services lasted. meetings have been largely attended during the past week, and will last three weeks

HE WALKED ON THE TRACK.

If He Recovers at All, He Will Have But One Leg to Walk With.

At 2:30 o'clock on Sunday morning, a man named Thomas Joyce was found lying beside the Penosylvania Railroad tracks at Brinton Station. The man was suffering from a fractured skull and a badly lacerated left leg. It seems that he was struck by an East-bound passenger train, and had been lying beside the track for some time before he was found. He was taken to the West Penn Hospital, and the physicians say that the injured leg will have to be amputated at the knee. He is 33 years old, and lives at Braddock.

Yard Engines Collide.

Two yard engines of the Pittsburg, Mc-Keesport and Youghiogheny Railroad ran into each other while switching cars near the tunnel entrance, at the foot of South Twenty-sixth street, yesterday afternoon, causing the total destruction of two box cars and wrecking three others. The engines were partially damaged, and a fing man's shanty was reduced to splinters. The accident was caused by a misplaced switch. Nobody was hurt.

Throws From a Horse.

About 1:30 o'clock yesterday afternoon a man named James, while riding horseback, met with a serious accident at the corner of Twenty-sixth street and Spring alley. The saddle slipped and the rider was thrown violently to the ground, receiving severe injuries about the head and shoulders. The horse ran away, but was soon captured,

The Pharmaceutical Board.

The State Pharmaceutical Examining Board will hold its quarterly examinations at the College of Pharmacy, in this city, on Tuesday, October 8. The board will make its headquarters at the Monongahela House the remainder of the week and attend to any other business that may come before it.

Large Temperance Meeting The temperance meeting in Curry University Hall, on Sixth street, was conducted last night by Mr. John W. Moreland. Addresses were made by Messrs. Kellenberger,

Ropinson and Yates.

ILLEGAL SALOONS RAIDED.

The Police Make Life Burdensome for the Spenk-Ensy Man-Hauls Made in Various Parts of the City.

A "speak-easy," presided over by "Lige" Hall, at No. 89 Diamond street, was raided by Detective Coulson, Inspector McAleese, Detectives Robinson, Fitzgerald and asquad of police, about 8 o'clock last night. The place was in full blast when the officers crowded in and captured the inmates, consisting of Hall and ten men connected with Barnum's circus, who had just entered the place a few minutes before the raid. All but Hall were allowed to put up a forfeit of \$10 for their hearing this morning. An in-formation for illegal selling will be made against Hall. The party from whom Hall rented the room on the second floor, said that Hall represented that he wanted the room for the Randall Fishing Club, and they supposed it was all right. The place has been running only a week or two.

Yesterday afternoon Inspector McKelvy and Captain Stewart, of the Twenty-eighth ward station, raided the "speak-easy" kept by Fred Crowse, No. 2840 Carson street. The officers had considerable difficulty in bag-ging their game, owing to the large number of entrances, but landed the following violators of the law in the station:

Christ Wodmer, Charles Burger, Joe Reedel, Jacob Cline, Peter Latts, Nick Barnes, John Smith, Henry Waber, Seman Hacket, Lyman Raut, Frank Herman.

Officer Robert Fowler yesterday arrested Thomas Davis for running a "speak-easy" at No. 22 Third street. Davis has a pool and billiard room on Penu avenue and a rear entrance from Third street. Davis was the only person arrested and the Inspector will enter suit against him for illegal sell-

Inspector Whitehouse raided two houses as "speak-ensies" yesterday afternoon. About 5 o'clock two young men complained to him that they had been beaten in the house of James Fleming, on Frankstown avenue. Fleming keeps a boarding house and has a refreshment stand. The complainants said they had gone into the house and bought some beer. While drinking it a fight started and they were badly beaten. The Inspector raided the house, arresting Fleming and 14 men.

The other raid was made at 8:30 o'clock, by Lientenant Snyder, Lieutenant Kramer and Special Officer August Buffalo, the new Italian detective, at an Italian house on Winslow street, against which numerous complaints have been made. Nineteen per-sons were arrested, among them a man supposed to be the proprietor, who refused to

give his name. It was reported to Lieutenant Booker, of the Thirtieth ward station, yesterday, that in a drinking quarrel in the house of Mrs. Gallagher, in Chartiers township, two men had their heads badly cut by beer glasses. The house is beyond the city line and out-side the police jurisdiction.

ABOUT THE AMERICAN.

Rev. William S. Williams Describes th Loyal Yankee as He Should Be.

The Rev. William S. Williams lectured last night in the Sixth Avenue Universalist Church on the subject "An American." "There is a great difference," he said,

"between ideal and real life. In the former we may imagine that life is perfect, and that all we have to do is to move right along in it, without subjecting ourselves to any re-strictions or limits. But when we look at the reality we find that we must conform to our surroundings, that we must be bound by those conditions which surround us. An American, therefore, should recognize and obey American conditions. He should conform to the spirit of the laws and the institutions of the country; he should cut himself off from everything foreign, whether of a religious or a secular nature. I do not be lieve in restricting immigration entirely but let such as come to this country drop their foreign characteristics, and bring themselves in harmony with our laws, in-stitutions and government.

THROWN FROM A CAR.

John Walsh Severely Injured on the Electric Railway.

A contractor named John Walsh was brown from the fron, end of Allegheny Electric road yesterday afternoon as the car suddenly rounded a sharp curve. He was dragged about 20 feet by the apron on the car. His neck and one hand were cut and he was badly bruised about the body. He was taken to Jacob Born's road house, near at hand, and after a short time was able to return to his home in the city.

ANNUAL EXERCISES

commemorating the Emancipation of the Colored Race. Last evening emancipation services

were held in the Free Baptist Church, on Arthur street, by the colored people of the hill. Rev. N. E. Keyes, of Harper's Ferry, preached a very appropriate sermon on how the providence of God was especially shown in the deliverance of the colored race. There was also some excellent singing, rendered by the Centennial Jubilee Chorus, of Har-per's Ferry. These services are held once a year, and they attract a large crowd.

HITHER AND THITHER.

Movements of Pittsburgers and Others of Wide Acquaintance.

-Superintendent A. B. Starr, of the Ft. Wayne; Superintendent Turner, of the Pan-handle; C. A. Atwell, I. T. Dorkins, A. D. Wilson, Joseph Spencer, H. L. H. Blair, I. T. Nevin, Robert Cunningham, Lawyer White-Nevin, Robert Cunningham, Lawyer White-sell, Messrs. Walcott and White and C. T. Har-bangh returned last night from a bunting and fishing expedition in the Northwest. The party had good fun with the salmon in Toma-hawk Lake, drew wall-eyed pike from out the depths of Lake de la Flambeae and shot duck in the Gogebic regiona, bordering on Lake Su-perior. Among the take was a fire 42-pound muskalong which was sent as a supernix depth. uskalong, which was sent as a souvenir to ice President J. N. McCullough, of the Penn-

-Ex-Speaker Bover went to Buffalo vesterday morning in company with Chairman W. H. Andrews, who stopped off at Titusville, his home. Both gentlemen may return this morning. President Stuart, of the State League of keoubligan clubs was synchroling and the state League of the state Leagu Republican clubs, was expected yesterday at the Seventh Avenue Hotel, but did not arrive. He will certainly be here this morning to per-fect arrangements for the forthcoming conven-

-Lou Shaw and Mrs. Neilie Shaw the expert billiard players, arrived from Chicago vesterday. They will play at the Exposition during this week, giving afternoon and even-ing entertainments on the billiard table in the display of the Brunswick-Balke-Collender

-Prof. Oliver Comtois, of Montreal, delivered a free lecture in Imperial Hall, yester-day afternoon, on "The Roman Catholic Church, the Greatest Menace to American In-stitutions." There was a good attendance. The lecturer read his address.

-Ex-Senator J. M. Gazzam and William Vernor, of Philadelphia, arrived at the Hotel Duquesne yesterday. They will attend the State Convention of Republican Clubs. -Alderman Leslie, of Lawrenceville, will leave for Philadelphia on the 27th instant,

to attend a special meeting of the District Lodge of Good Templars. -J. M. Burns, Train Dispatcher on the Allegheny Valley road, will take a vacation of two weeks. He will probably spend the time

-Effic Ellsler Weston and maid, Frank Weston, her husband, W. C. Ellsler and Orrin Johnson are at the Monongahela House. -Marie Wainwright and party arrived

last night by the Fast Line west, and put up at the Anderson. -W. C. Johnson, a cracker manufacturer of Buffalo, has registered at the Monongahela. -Andrew Carnegie spent Sunday at Cresson, and will return to the city to-day. -M. Fukurawa, of Tokio, Japan, is stay-

AN ENGINEER'S FEAT.

Digging a Large Well on the River's Bank for the Lucy Furnace.

SWAMPED WITH A MIGHTY STREAM. Pumps Provided That Will Lift 3,000,000

Gallons in 12 Hours.

BUILDING A TANK COSTING \$20,000

A most remarkable water shaft, the first ever made in the United States, is being sunk at the Lucy Furnace, to cost about \$10,000, under the superintendence of Samuel Harris, according to plans and specifications prepared by Manager Scott, of the furnace. During the progress of the work great difficulties had to be surmounted, owing to the shaft being sunk at the river's edge. In the sinking of the shaft three pumps were used constantly to keep out the water.

The work began on September 2, with 20 men employed. After working three weeks immense cast iron cylinder, made at the Twenty-ninth street works, weighing 30 tons, was placed in the well. The cylinder is 18 feet in diameter and 1% inches thick. After the cylinder was put in position by jacks, the ground beneath was removed, and it sank of its own weight. The cylinder acts in a double capacity, as a support to the ground and as a receiver of the spring water. The bottom section of the cylinder is perforated, but at present the holes are plugged. They will be opened as oon as the work is completed. At the top of the cylinder is a projection 18 inches in diameter, upon which is built a circular brick wall 13 feet deep and 15 feet in diameter, the wall being securely bolted.

A GREAT STREAM OF WATER. After the cylinder was sunk 23 feet, sand bottom was touched. In one minute after the sand was reached, while the men were still in the well and the pumps running full, a gush of water spurted up that filled the shaft 15 feet deep. It was by the veriest hair's breadth that the men escaped drowning. Water impeded the work during its progress, but it was not until the 23 feet had een sunk that the great outpouring came. This has stopped the work until they can arrange for putting another pump in place. The three pumps thas are working cannot begin to remove the water. In the well there is a centrifugal pump, with an engine and two Cameron pumps, but it will be nec-essary to attach another pump to remove the water so that the gravel can be taken

When the gravel has been cleared away it is the intention still further to sink the iron cylinder 5 feet, which will make it a depth of 28 feet from the surface of the ground, and 20 feet from the water's sur-face. This will allow the water to pass into the 200 holes punched in the sides and bottom of the cylinder without becoming muddy.

When the work has been completed, two convey the water into a receiver, situated some 50 feet from the well. This will then be distributed into two iron tanks, temporarily placed, 25 feet high and 15 feet in diameter. From these two tanks the water will be drawn for the various furnace purposes. The four pumps that will be used are of the latest design. They will be able to lift 3,000,000 gallons every 12 hours.

AN ENGINEERING FEAT. This well is a great engineering feat, which will greatly facilitate the work of the furnace. The water will be clear. Carnegies are building, in connection with this well, an enormous tank, 50 feet high and 25 feet in width, which will be the largest in this section of the country. It will be made of iron, and will be circular in shape. After it has been erected the other two distribut-ing tanks will be removed, and this will recost of this tank will approximate \$20,000. Upwards of 1,000 tons of gravel had to be

removed before the water was reached. Samuel Harris, who has had charge of the work, has been connected with some great excavating schemes. He sank a shart for Colonel Andrews, in the State of Durango, Mex., at a silver mine. He has also worked in France, Germany and Switzerland. While in the latter country he was superintending the Howenstein tunnel, when 63 men and seven horses were suffocated by the shaft taking fire.

RIVERSIDE PRISONERS.

Deputy Marshal Chambers Brings Four from Williamsport. Deputy United States Marshal Chambers vesterday returned from the United States District Court at Williamsport, with two prisoners committed for trial, and four condemned to the penitentiary. They are James McCune, alias McGee, sentenced for two years for robbing a postoffice; William Harrison, alias Kent, 18 months; Albert Bingaman and John Sipes, two years each

for counterfeiting.

Joseph M. West, charged with embezz ling a registered letter from the Beaver Falls postoffice, and Charles Fry, indicted of counterfeiting were committed for trial.

Making Arrangements The river men and coal operators of this city will meet in the office of John A. Wood

& Son, at the corner of Water and Market streets, at 11 o'clock this forenoon, Arrangements are to be made for the entertainment of the delegates attending the of Steam Navigation. That body will hold its sessions at the Monongahela House next week. It will be given a river excursion and a banquet. Full attendance of river operators is desired.

Its Simple Dedication. This evening there will be a meeting of citizens of the Third ward, Allegheny, in Common Council chamber, to formall dedicate the water fountain at the Third ward park. Rev. B. F. Woodburn will deliver an address and turn the fountain over to the Park Committee, and it will be received by Arthur Kennedy, Esq., on be-

half of the committee. Coming Blow-Outs,

Mrs. Dr. Sadler, Mrs. Captain McMillen and Miss Smith have arranged an entertainment to be given on the evenings of Sen and 27 in the Mt. Washington Free Reading Room, on Grandview ave-nue, near the head of the incline. It will consist of tableaux, recitations and music Ice cream will be served after the entertain

Money for the Orphans. Rev. Father Regis Canevin, Treasurer of St. Paul's R. C. Orphan Asylum on Tannehill street, has made a statement of the last collections made for the institution by the churches in the diocese. The total amount contributed since July 28 is \$2,671.

Work of Thieves.

C. L. Anderson's eigar store, No. 418 Beaver avenue, was broken into by thieves early yesterday morning. They got in by the rear door, and carried off some 500 good cigars and 2,000 tobies. The police were

Hit With a Londed Cane While Sam Free, who lives on Cliff street, was coming down Wylie avenue last night, a colored man named J. H. Baltimore jumped out and struck him on the head with a loaded cane.

A \$10,000 FIRE.

The Works of the Enterprise Hardware Company Almost Destroyed-No Cause

for the Configuration Known. The plant of the Enterprise Hardware Company, Limited, on Washington avenue, Allegheny, owned and operated by W. H. Burt and O. K. Gardner, was burned and almost totally destroyed by fire at 3:30 o'clock yesterday morning. How the fire originated is a mystery, as there was no fire or lights of any description about the works after 5 o'clock Saturday.

About 3:30 o'clock yesterday morning, however, a neighbor saw flames issuing from the roof of the mold shop and the alarn was at once given. Three alarms were turned in from box 17 and the fire department responded promptly. By the time oped the mold shop in the rear, and suread to the machine shop and stock rooms facing on Washington avenue. The works have a frontage on that street of 144 feet and extend through to Lake street, a distance of 100 feet. Seventy feet of the space on Washington avenue contains a two-story brick build-ing where the offices are situated, and in the second story a japan room is operated. This building was saved from destruction, but the stock contained in it was totally de-stroyed by water. The frame building on Washington avenue was also badly dam-aged and will have to be torn down, nothing but the shell being left in position. It was used as a machine shop and stock room.

The machinery was not badly damaged, but the stock was destroyed. The greatest damage was done to the mold shop. It was a one-story building, and contained a lot of "flasks," all of which, with the building, were consumed. The loss will reach about \$10,000, which is fully covered by insurance through the agencies of T. Dale Jennings and Joseph H. Brown.

The company does a large business in the

manufacture of novelties, such as door locks and keys, sashweights and light castings. They employ 75 hands, and were at present rushed to their full capacity. The Westinghouse company were having a large order filled at present of are lights and converter boxes. The works will be rebuilt at once.

A WARNING TO HOUSEKEEPERS. A Servant Leaves Her Charge and Thieves Make a Good Haul.

The residence of Calvin C. Boyle, at 78 Washington street, Allegheny, was burglarized yesterday afternoon and a lot of silverware and jewelry stolen. The entire family were absent from the house yesterday and left a servant in charge. The servant closed the house up about 2 o'clock and went away. When she returned she found one of the kitchen doors and the shutters on the kitchen window open. The family later found on searching that a lot of their effects had been carried off. Every room in the house bore evidence of the presence of thieves. The bureau drawers had been ransacked and their contents tumbled about in all directions. Just what had been taken the family were unable to tell last night, but from a hasty examination they missed several pieces of solid silver and a number of articles of jewelry.

A YOUNG PICKPOCKET.

A Girl of Twelve Years Plies That Vocation Until Detected.

For some time past many patrons Fleishman's store have been complaining that they were robbed of various articles while making purchases. Suspicion fell on a little sharp-featured girl, and a watch was set on her. On Saturday the thefts were finally brought home to the girl by means of a decoy. She was arrested and lodged in prison, but was soon after released on bail. The girl's name is Mary Connelly; she is about 12 years of age, and her parents live at the Point. They claim that they know nothing of her operations, and were often surprised at the child's prolonged absence. She will have a hearing on Monday.

ACCIDENTAL SHOOTING.

The Police Think That a Stray

The police investigated the shooting of Mr. Hardy, who was wounded in the arm by a bullet which crashed through the window of his home, on Center avenue, Saturday night. They concluded that he must have been wounded accidentally. The bullet was a stray one, and came from the hillside opposite Hardy's house,

LOCAL ITEMS, LIMITED.

Incidents of a Day in Two Cities Condensed

for Rendy Rending. WILLIAM JACKSON was jailed in the Fourteenth ward station yesterday, for reckless driving. He was in a buggy and collided with a barouche at the corner of Brady street and Second avenue. The shaft of the barouche injured Jackson's horse so badly that it will have to be killed. A liveryman named Schlock of Soho, owned the turnout. Jackson's father left a deposit for his son's appearance for a hearing this morning.

INSPECTOR MCALEESE had a telegram from ectonia vesterday asking him to arrest Martin Kearns for attempted murder. The sender of the message was Mary Dickson, who was arrests of for larceny here some weeks ago, and sent home to her parents by Inspector Mc-Aleess. A telegram was sent asking for a de-scription of Kearns. OFFICER TOM PAISLEY arrested Frank

Nolan, aged 11 years, yesterday, at his home or First street, for complicity in robbing a de-livery wagon in the East End a few days ago. Nolan is said to have sold a watch, identified s part of the stolen goods. INSPECTOR MCALEESE received a telegram from the Chief of Police at Buffalo, stating

that a man named I. W. Burns had died there on Saturday night, who was an ex-saloon keeper of Pittsburg. None of the police can remember him. Ar the Seventeenth ward station house yesterday Magistrate Brush disposed of six cases, while at the Twelfth ward station Magistrate McKenna heard 16 cases. They were all of the common order, and the sentences were ac-cordingly light.

JOHN BENNER was arrested for climbing upon some trestle work to view the corner stone laying at the Polish Church yesterday, and for refusing to come down at the call of an officer. He lives at 104 Washington street,

An Italian, named Sandy Muracus, engaged in a quarrel with another man on Wylie venue, was arrested for disorderly conduct. He tried to use a knife, but was lodged in the Eleventh ward station before he could do so. MARSHAL DEMMLER, of Aurora, Ill., arrived here last night to take in charge David Noble, the Union News agent who was ar-rested here for an Aurora robbery. Demmler will leave with his prisoner to-mo.row. On Friday evening, October 11, Arsenal Lodge No. 291, of the Independent Order of

Good Templars, will give an entertainment for the benefit of the lodge in the Metropolitan Hall, Forty-third and Butler streets. HERNY JANETT, whom Officer Carroll ar-rested on Saturday night for disorderly conduct at a circus on the Southside, was yester-day fined \$25 and costs on both charges. He paid his fines. THE Young People's Association of the Wylle Avenue United Presbyterian Church in-

end to give an entertainment on October 11. THE shanty boat dwellers along the Alle-gheny river have been given 10 days' notice to get out and seek other places to live in. Many of them are defiant and will not go, VESTERDAY afternoon, while Eddie Dunn, aged 13 years, was playing in a wagon at Twen-ty-seventh street, he fell out and broke his arm near the shoulder.

J. H. CARTER, John Ross, Henry Bayley and James Adonnis were arrested last night for disorderly conduct and lodged in the Eleventh ward station. A MAN created considerable excitement in the Twelfth ward by shooting three times at a dog. The cause of the shooting was not gen-erally known.

J. H. BALTIMORE, who pummeled Sam Free with a loaded cane on Wylie avenue Saturday night, was sent to jail yesterday. A FEDERAL MEETING.

Circulars Received About the Coming Convention at Boston.

NAMES OF PITTSBURG DELEGATES.

The Glass Mixers Trouble Settled and the

Wage Scale Signed. DENIALS BY PRESIDENT CAMPBELL

The different labor organizations in the city that are attached to the Federation of Labor have received circulars within the past week in reference to the annual convention of the Federation to be held in Boston, beginning Friday, December 13. Nearly all of the unions have elected their delegates to the convention and instructed them how to vote upon the different questions to come up.

The delegates who will represent the American Flint Glass Workers' Union are Secretary William Dillon, of this city, and John Cochrane, of Wheeling. The latter is an ex-member of the Executive Board and well known here. The Amalgamated Association of Iron and Steel Workers will send Mesars. William T. Roberts, Vice President; J. C. Killgallen and F. M. Shaffer. Mr. Roberts works in Jones & Laughtins' Brownstown mill, Mr. Killgallen in Carnegie's Union Mill, and Mr. Shaffer is an employe of the United States Tin Plate and Sheet Iron Works at Demmler.

THE NUMBER OF DELECATES One delegate is allowed to each organization having less than 3,000 members, and another one for each additional 1,000. The federal bodies are also permitted to send one representative. There will be about 100 delegates altogether at the meeting. The arrangements for their reception are being made by the Boston Central Labor Union. The session will probably last one week and

will be confined mostly to discussions. Among the matters to come up will b the local trouble between L. A. 491 Knights of Labor, slaters, and the Marble and Slate
Workers and Tile Layers' Union. The
latter are attached to the Federation and
claim the Knights of Labor has broken
faith with them. The trouble is the same as that existing between the Knights of Labor and the M. M. P. U., over the organization of the members of the Great Western Band

A CONFERENCE HELD. About a week before the latter action was taken, a conference was held in Phila-delphia, between General Master Workman Powderly with the Executive Board of the Knights of Labor and President Gompers and Secretary McGuire, of the Federation, in which an agreement covering these points in dispute was made. After making it the Federation people claimed the Knights of Labor violated it.

The most important matter, however, to come before the convention is the eight-hour question. This will be definitely acted upon. It will be decided whether a universal demand will be made for eight hours, or the enforcement of the matter be made in localities deemed practicable. The stand for the eight hours per day will be made May 1, 1890. At the last convention of the Federation, which was held in Baltimore, it was authorized to submit the ques-tion to the different associations for a vote. This vote has been taken and will be made known at the convention.

On new matters a federated convention, unlike the Knights of Labor, cannot take definite action. It merely makes recom-mendations to the associations that compose the body. They cannot pass any laws, com-pulsory or obligatory on national or international unions.

OFFICERS RESPONSIBLE. The national officers of each union are responsible for the enactment of the laws. The decisions of President Gompers are respected in all matters, but he cannot authorize

stated in the constitution. Another matter to come up is the assistance fund to be used in the enforcement of the eight-hour law. This provides for an ment of one-fourth of a cent per month per member for all members in the national and international unions, and about 1 cent on federal bodies. The assessment cannot be laid for more than five consecutive weeks. This amounts to about 80 cents per year. There are over 450,000 members represented in the Federation, and it will be seen that the fund will amount to over a third of a million dollars per year. There is very little expense connected with running the Federation. Last year

President Gompers, whose salary is only

the total expenses of the organization were less than \$4,000. This was in the office of

CAMPBELL DENIES IT. He Says the Kulghts of Labor General

Treasury is Not Empty. An item was published yesterday to the effect that General Master Workman Powderly, of the Knights of Labor, would resign his position at the General Assembly in Atlanta next month, and that all the general lecturers had been called in on acount of there being no funds to pay their expenses. It also went on to say that Messrs. Costello, Holland and Devlin are now paying their own expenses. The clipping was shown James Campbell, President of L. A.

300, who said:
"That makes me tired. It is not likely that John Costello or any other man would travel around for the K. of L., and pay his own expenses. Mr. Powderly will not resign, and will serve out his two years. The treasury is not empty, as can be seen by the July reports. I had a statement then, and there was more money in the general treas-ury then than there has been for years. ury then than there has been to the Taking everything into consideration, the order is better off. There is no wrangling, order is better off. and the members are those that came years ago and will stick."

THE MIXERS' SCALE SIGNED.

Meeting of L. A. 1448 Held and They Decided to Go to Work. The scale of the mixers and teasers has been signed and the men are now all at work. A meeting of L. A. 1448 was held yesterday afternoon in their hall on Carson street. The scale committee reported that they had a conference with Messrs. Phillips and Campbell, of the Manufacturers' Asso ciation, and they had agreed to pay them an advance of 5 per cent on the present wages. This is in the same proportion as the advance granted the window workers. Phillips' and Campbell's factories started to blow glass Saturday. All the others will be working by the last of this week.

GRIPP'S FINE WORK. Forty-Four Offenders Were Disposed of at the Central Station.

Forty-four was the total number of cases

at Central station yesterday morning, 18 of which were common drunks. Twelve disorderlies were given 30 days to the workhouse each. They were Frank Meliers, drunk and disorderly at the market house; Isaac Kenney, drunk and disorderly on Water street; James McGinness and J. P. Water street; James McGinness and J. P. Smith were disorderly; Janes Green was drunk and yelling on Second avenue, and when arrested defied the officers, saying he was constable of the Fourth ward; John Connor, Peter Madden, Thomas Watson, Julia Riley, Kate Smith and Annie Sullivan had been arrested by Officer Smith while participating in a dynamic processed in a participating in a drunken carousal in an office of a foundry at the corner of Short and Water streets early yesterday morning.

SPEAK-EASY CONSPIRACIES.

The Grand Jury Will Consider the Eviden The Department of Public Safety cas against J. D. Bauder and his following of "detectives" will be brought before the grand jury on Wednesday or Thursday of the current week. The showing of evidence for the benefit of the jurors will be much

and Marron will favor the grand jury with a glimpse of a long letter of directions written by J. D. Bauder to his wife. The hose of the Bauder Detective Agency was arrested so unexpectedly that a number of very important papers, comprising receipts from victims, lists of speak-easies and general matters in connection with his business, were left in a place accessible to prying detectives. Bauder attempted to insure their safety by writing a very urgent letter to his wite. The letter was given into the hands of a trusty messenger for transthe hands of a trusty messenger for trans-mission to Bauder's home. But in some mysterious manner the letter went awry and fell into the fingers of Department of Public Safety officials. The evidence conrubic Safety officials. The evidence contained in the missive is said to be very convincing as to his guilt. Bauder is in blissful ignorance of the fate that met his attempt to get rid of the compromising docu-

It is stated that Chief Brown, although possessing an immense amount of evidence against similar offenders all over Pittsburg, is inclined to allow the Bauder cases to test the temper of the community as to the fur-ther prosecution of offenders of this class.

AWAITING CONFIRMATION. Two French Medals Sald to Have Boot

Awarded Pittsburg Schools. There was a rumor affoat yesterday to the effect that the exhibit of the Pittsburg schools at the Paris Exposition had carried off high honors. The rumor will be either verified or contradicted at an early date. It is said that the jury decided to confer two gold medals on Pittsburg in recognition of the special excellence of its school exhibit. Furthermore, it is alleged that the authori-ties will request that the exhibit be left in the Musee de L'Ecole Polytecnique. Superintendent Luckey expects to hear the story officially confirmed early in this week.

MAY HAVE BEEN SMOTHERED. An Unmarried Girl Hides Her Infant Between the Mattresses.

Albertina Wilson, a Swedish girl 22 years old, who has been for only one month a do mestic in a house on Ridge avenue, Allegheny, last Saturday gave birth to a child. She secreted it between the bed ticks, where it was discovered dead by the doctor who was called to treat her. She was conveyed, as a prisoner, to the General Hospital, and the dead infant was taken to the undertaking house of Herman & Ebberts on Ohio street. A post mortem examination of the child, to be held to-day, will determine whether it was born dead or alive.

He Hid in the Cellar.

Robert Barr was arrested at his home, 55 Sheffield street, Allegheny, Saturday night on complaint of his wife, who alleged that he had abused her and his family. A tele-phone message was sent to the Mayor's office for the patrol wagon, and hearing the vehicle coming he hid in the cellar, where he was found after a long search.

Sandbagged and Robbed.

On Saturday night an Exposition visitor

was sandbagged and robbed of his watch

and money, near the Ninth street bridge.

His name is said to be Gess, and he was from Greensburg. He had a few cents left, which, with a return ticket, carried him back to Greensburg.

THAT JUNCTION BLOCKADE.

bout 1,000 Cars Are Still Tied Up on the lend-A Scarcity of Cars on the P. & W. Beginning to be Feit.

There seems to be but little change in the situation of the freight blockade on the Pittsburg Junction and Baltimore and Ohio Railroads. A Junction official said yester-

stronger than that made at the preliminary hearings before Alderman Hyndman. "After the original item was published in THE DISPATCH, Manager McDonald ex-Among other evidence, Messrs. Burleigh and Marron will favor the grand jury with cars away, and for a time did very well. In fact, he stole a march on Baltimore and Ohio people, so obtained the best of the argument in newspapers. The Baltimore and Ohio had previous to the blockade hauled cars to the Junction yards on Sundays, just as they did

previous to the blockade hauled cars to the Junction yards on Sundays, just as they did on the week days, but knowing that there were a couple of hundred cars on the bridge on Sunday a week ago, they neglected to haul any on that day.

"Manager McDonald took advantage of this state of affairs, put all his freight engines together with the passenger engines to work, and cleared the bridge. When this had been done he set up the claim that the Pittsburg and Western was hauling the cars away faster than they were being received, and for the time he was correct. The bridge, however, was soon in as bad a condition as before, and at the present time there are on the Pittsburg Junction and the B. & O. roads 900 cars that should have been moved long ago."

One prominent coalman, who would not allow his name to be used, said that he had shipped some coal in August and some more in September, and that none of it had been delivered yet. Another thing he said was outrageous, it was the fact that they had been compelled to send out tracers for cars which had been shipped from points within 50 miles of Pittsburg and on a straight road. "If some change," he added "is not quickly made there will be another howl raised against the Pittsburg and Western. If the freight blockade continues a scarcity of freight cars will begin to be feit by the Pittsburg and Western patrons, and in fact complaints are already beginning to come in. The road owns about 3,000 cars, and nearly 1,000 of these are now blockaded on the Baltimore and Ohio road. You can see that this makes a considerable hole in their total number of cars, and you may look for some lively developments in the future." number of cars, and you may look for some lively developments in the future."
