The steamer Hong Kong and Kokohama, investigations into the loss of life and damage caused by the recent typhoon in the Japan, have been in progress, but owing to the extensive nature of the damage, the inquiries have been completed in only one district.
A granite fire started several miles east of Spirit Lake, Ia., Friday, and has been burning ever since. Driven by a strong wind from the south, it has swept over a cross portion of Dickinson county, and seems to be beyond control. The damage already done is very heavy. A great number of houses, barns, and stacks of hay have been destroyed, and probably some farm houses.

A number of Milwaukee, Cleveland and Marquette capitalists have combined for the purpose of circulating the iron Bessemer ores with the Schlegel syndicate, and will erect large furnaces in Marquette to reduce their own ores. It is proposed to utilize the labor of the convicts in the Marquette penitentiary. The company has an option on a number of mines near Negaunee and Ishpeming.
The grand jury of San Joaquin county, Cal., has presented its final report concerning the case of Deputy United States Marshal Nagle. The report says the facts show that the killing of the late Judge Ferry was intentional and deliberate, and that while the Constitution and laws of the State require that a crime against life be punished with death, it is the duty of the grand jury to recommend that the accused be taken from the power of the State by a process emanating from the United States Circuit Court. The report continues: "The United States Circuit Court has decided that Nagle cannot be tried by a State court, essentially for a like want of jurisdiction, from which it is fair to conclude he cannot be tried in any court."

For the first time since the week following the May panic of 1884, the New York bank statement published shows the reserve held to be less than the 25 per cent of deposits required by the national banking law. The deposits amount to \$112,778,500, against which only \$30,400,000 is held in reserve. The deficit is \$82,378,500, as the result of the operations of a year ago, with almost exactly the same amount of deposits, the banks had surplus over the 25 per cent reserve of \$144,000. The deficit is almost wholly caused by the drain of money to the West and South, where over \$200,000 was shipped last week, and almost as much went in the weeks just preceding.
Charles Beeson, private policeman at the Union depot at Louisville, died from wounds received at the hand of Peter Nicholson, last Tuesday evening. Nicholson was at the depot with his back for the incoming train. He was intoxicated and was ordered from the depot by Beeson for using very improper language. Nicholson, who was arrested for malicious shooting, is now charged with murder.

William P. Rogers, the general agent for Missouri and Kansas of the Equitable Insurance Company of New York, was shot by a fellow inmate of his home in Kansas City and dangerously wounded. Mr. Rogers was returning home and was not more than a dozen paces from his door when one of two men, whom he had noticed leaning idly against a fence as he was passing, seized him by the arm, bending them back ward, while the other thrust a pistol in his face. The latter demanded his money. Mr. Rogers tore the man from behind him and tore aside the pistol held by the man in front. Both the robbers then fled, and one of them discharged his pistol, it being held so close to Mr. Rogers' face that all the left side was badly powder-burned.

THE SHOE QUESTION has been satisfactorily answered by Kaufmanns'. Their large trade proves beyond a shadow of a doubt that their goods are the best and their prices the lowest. It stands to reason that other Shoe stores, who buy in small quantities and on long terms of credit, cannot compete with the enterprising Kaufmanns'. Many thousands of dollars are saved annually by those who are shrewd enough to buy their own and their families Shoe supplies at this Mammoth Outfitting Establishment. THE HAT PROBLEM has been solved by Kaufmanns'. They have shown to the world that a fancy label or name pasted inside of a Hat, while they may form sufficient reason in the eyes of the "tony" dealers for an extra charge of several dollars, does not really determine its quality. In substantiation of this claim we simply show our \$3 Derbys sold by the exclusive hatters at \$5, or our super fine \$5 Silk Hats which other dealers ask \$8 for. The qualities, shapes and styles are precisely the same, but then we don't paste any English labels in our Hats, "don't you know?" STRANGERS VISITING THE EXPOSITION WELCOME.
