

FOR A NEW RAILROAD

The Baltimore and Ohio Planning to Build One to Jeannette.

A FATAL POLITICAL WELCOME.

Some Extensive Leases of New Coking Territory Secured.

ALL THE NEWS FROM NEARBY TOWNS

SPECIAL TELEGRAM TO THE DISPATCH: GREENSBURG, October 25.—A report is current that the Baltimore and Ohio Railroad Company will soon begin the construction of a connecting line from Sutersville to Jeannette, a distance of 15 miles. Preliminary surveys have already been made.

It is understood that a portion of the old Hempfield road will be used to Arona, when it will take a northerly direction, tapping the rich coal fields south of here. About a year ago options were taken on 7,000 acres of valuable coal lands along the proposed route, but a purchase was not made. Recently steps have been taken for the purchase of the land. About the time the options were taken the Pennsylvania Company, fearing the competition the rich coal fields south of here, and was the means of hastening the preliminary work on the Hempfield road to connect with the Southwest road near the Country Home buildings, and which is about in shape to receive bids for its construction.

NEW COKE TERRITORY.

Leases for Large Tracts of Land Are Being Secured.

SPECIAL TELEGRAM TO THE DISPATCH: UNTOWNSVILLE, October 25.—Walter W. Langhead has secured options on over 1,000 acres of coal along Cheat river at \$75 an acre, and for a period long enough to make a thorough test of the coal for coking purposes. The principal deal in the coal is supposed to be for J. W. Moore, of Greensburg. An official of the Baltimore and Ohio Railroad states that their road will be extended into the field from Brownfield, and a coke producer advances the theory that since this road has become a heavy consumer of coke, it may be possible that they are after the territory to develop for their own use. The coal is not quite as good as Connellsville coal, but it will make excellent coke for steam purposes, which the Baltimore and Ohio puts out for sale. In addition to the 2,000 acres of coal leased by J. V. Thompson and others at Masontown, several other Union coal capitalists have secured large tracts of coal along the river front until all the desirable coal along the river and for miles back has been secured.

ANOTHER GAS FIGHT.

The Untowns Gas Companies Will Try for an Injunction.

SPECIAL TELEGRAM TO THE DISPATCH: UNTOWNSVILLE, October 25.—The Warren Gas Works and the Thompson Gas Works Companies have filed notice that they will ask Judge Ingraham, at Waynesburg, to grant an injunction restraining the Fayette Gas Company from cutting off their supply of gas, and also to compel the gas company to furnish them with the gas under contract for, even if they are compelled to cut off the 2,000 fires they got by the deal with the Southwest Gas Company, and which is supposed to have overtaxed the home company's supply of gas. The gas company has notified both gas companies that they will cut off the gas tomorrow to furnish a better supply to domestic consumers, who pay more for their gas than the companies do. The Town Council, and the gas companies held a meeting last night, but because the Council would not exclude the promoters of the gas company, the promoters of the gas company, who wanted to know what the Council might tell the Councilmen, the gas officers withdrew.

THE NEW OIL FIELD.

West Virginia is Now the Scene of Very Extensive Operations.

SPECIAL TELEGRAM TO THE DISPATCH: WHEELING, October 25.—The latest oil developments are at Berea, in Pleasant county, about 60 miles below Wheeling, on the Ohio river. Operations have been going on there for several weeks very quietly. The main parties, and a half dozen wells, yielding from 10 to 30 barrels per day, have been doing all the producing. Last Saturday, however, the work in a new well by Moore & Barnsdall went into the sand, and the oil spouted. All week this well has done some 100 barrels a day, and inside of a week this territory will be dotted all over with derricks. The scene of these operations is about 40 miles west of the Marion county (Marion) field, where the excitement has not yet subsided, but continues to increase. A reporter saw one of the Berea wells flow 100 barrels in a half hour today. The product is piped to Parkersburg.

IT HAS RUINED THE MINE.

A Great Cave-in Results From the Robbing of Pillars.

SCRANTON, October 25.—Nearly 100 acres of the interior workings of the White Oak colliery, in Archibald, caved in last evening, caused by the long-continued robbing of pillars. The workmen completely ruined the mine for future working. A large force of men at work in the mine during the afternoon were warned by the continual breaking of the roofs and the caving of the mine, and they left the workings early in order to save themselves. Several others engaged in different parts of the colliery were forced to flee through a narrow passage, and their escape is regarded as wonderful. The cave-in has not affected the surface to any great extent, but it will soon settle, causing much damage to houses and surface improvements. The mine is the property of the Delaware and Hudson Company.

BLOWN FIFTY FEET.

The Premature and Fatal Explosion of a Political Cannon.

ZANESVILLE, October 25.—This evening at William Nevill, aged 50 years, was named to home a charge in a cannon in honor of ex-Governor Foster and General Sheridan, who addressed a Republican meeting here, the charge was fired prematurely, the cannon was struck by the ramrod and carried a distance of 50 feet over an embankment. Both arms were blown below the elbow and he suffered serious injuries about the head and face, both eyes being blinded. He cannot recover.

STILL FINDING BODIES.

No End to the Horrors in the Stricken Conemaugh Valley.

SPECIAL TELEGRAM TO THE DISPATCH: JOHNSTOWN, October 25.—The force of men employed in cleaning out the river found the body of a man, the first one discovered since the work began by the management. They have been working when there was little expectation of finding bodies for the past two days, but it is expected that in a day or two many will be found. Forty bodies were reinterrred today, and but one identified.

BEAT OUT to the Standard.

SPECIAL TELEGRAM TO THE DISPATCH: LIMA, October 25.—Thomas Cleminger sold his leases to-day to the Standard Oil Company. He had eight prospecting wells and leases covering 200 acres of the H. P. Base farm. The price paid could not be learned.

A DUEL WITH A BURGLAR.

The Cracksmen Finally Wounded and the Policeman Seriously Hurt.

St. LOUIS, October 25.—There was an exciting encounter between Private Watchman Cochran and a burglar in the West End, at 2 o'clock this morning, terminating in the probable fatal wounding of the burglar. The officer detected the burglar in the act of breaking into a residence, and called upon him to surrender. The reply was a bullet which whistled uncomfortably close to the officer's ear. A regular duel followed, the officer being shot in the leg, but finally bringing his man down with a bullet in the breast. The wounded burglar is at the city hospital, and is said to be dying. He gives the name of John Little, but is believed to be a notorious professional burglar named Jack Conners. The officer's wound is painful but not serious.
