

DAIZELL'S FORECAST.

The Ohio Private Says More in a Message Than Harrison Did.

JUST WHAT CONGRESS WILL DO

Is Amply Predicted by the Friend of One Million Veterans.

PENSIONS THAT WILL HAVE TO COME.

Clocks to go at Claims and Quit Answering a Lot of Foolish Letters.

Private Daizell writes to THE DISPATCH some more sensible matter from Caldwell. Even if it is in the line of prognostication, it will be read with as much interest as if he were twitting on accomplished facts.

To the Editor of the Dispatch:

If you want to know what Congress will do, I can tell you. You may smile all you please, for "a man may smile and smile and be a villain still"; but I can predict correctly what Congress will do about pensions. It will do it because it has heard from the boys, and that's why I can predict it, too. More than half a million of our claims are pending in the Pension Office, and, as I have shown in the columns of THE DISPATCH heretofore, at the present rate these claims cannot be passed until half the applicants are in their graves.

The boys cannot wait any longer. Time is up! Congress will rip the Pension Office. There is a Congressional election next year. Any man who falters this winter will never get back to Washington. We give them 100 days to hustle our pending claims through.

They will codify all the pension laws, simplify them and knock all the red tape out, so that our claims can be put through as fast as you could count a pile of bank notes or read off names in a catalogue.

The \$2 rule will be abolished, so that \$10 and \$12 will be the least pension payable. Tanner and Black. The Tanner rule, that a private soldier's oath will go for as much as a red-nosed brigadier's, will be restored, and the foolish and insulting rule that it takes two private's affidavits to equal one officer's, will be reversed. That rule lost us Ohio and Iowa.

MIGHTY CERTAIN ABOUT IT.

Congress will call in the 250 special pension agents who go gipping about the country gathering testimony (?) at a cost of a million a year, and put the money to work on our claims in the office at Washington.

It will direct that the 500 clerks in the bureau who are kept busy answering fool letters of inquiry shall stop that folly and go to our claims, and that all such letters go into the waste-basket until we get our pensions.

We know the employes will not like this. It is a good job, and they will want to string it out as long as they can. But we can't wait. Our claims are piling up through this winter, and then 1,000 of these folks can go home to their native goose-pasture in the spring and earn an honest living.

This foolishness will be stopped. Congress will lay hold of the \$100,000,000 million of dollars by doing so. Until this is done, Congress will pass no pension bills. It would be idle to encourage filing thousands of new claims until the 500,000 old ones are settled. It will not be guilty of that folly. You will hear things rip up about the Pension Office when Congress begins. They have heard 9,000 votes next year, and that will lift the Pension Office out of its boots. You will see!

WHICH WAY DO THEY GO?

The soldiers promise to make the next Congress Republican, if ———. The soldiers promise to make it two-thirds Democratic, if ———. You can fill the ellipsis. The first faint echo was heard in 1889. Little Ben Harrison heard that feeble protest. One million soldiers who own and own on paper; 1,000,000 of their sons and sons-in-law; 1,000,000 of their fathers and brothers—3,000,000—a potent factor and a unit—at one man's wish, 500,000 pension claims pending at Washington, going through like the "seven-year itch," with a President ostracizing men of the ranks and sending pensions to \$2, no wonder the boys are mad! It is the guilty of that folly. You will hear things rip up about the Pension Office when Congress begins. They have heard 9,000 votes next year, and that will lift the Pension Office out of its boots. You will see!

THE MONONGAHELA CAFE WILL BE OPEN FOR BUSINESS TO-DAY.

The attendance at Indiana Normal is larger than at any previous fall term. Winter term opens Dec. 30; spring term, March 31.

OIL AND GAS MATTERS.

The Philadelphia Company's Big Gas Well—Oliver Bros. Strike a Gas Well—Uniontown Natural Gas Flaring Out. On Thursday the Philadelphia Gas Company struck a strong oil well in the Hickory region, near Taylorstown. The company was boring for gas, but is satisfied to get oil. Superintendent T. A. Gillespie could not give the capacity of the well in barrels, but he was pleased to say it was a spouter of good dimensions. The report of the strike has turned the heads of the farmers, and the oil land lessees are doing some lively skimming.

Oliver Bros. have struck a fine gas well in the Bellevue field, not far from their other two wells. It dropped in on Sunday last and by this time, turned into their line from Bellevue to the Southside. The newcomer is very strong, and gives the firm an ample supply of gas for all contingencies.

At Uniontown, Pa., the Thompson Glass Company is sinking a well inside their works, and hope to strike it rich. The Rider well is weakening, and a well which was bored to the same depth of sand, and not over 200 feet from the Rider well, failed to respond yesterday, although it should have if the conditions were all right. It was stated by a reliable resident of Uniontown that very few of the wells prevailing as to the permanency of the field. It may be said that in the Bellevue field no trouble is experienced from water, while the reverse holds good at Uniontown.

There is a decided revival of interest in what is regarded as the Brush creek oil sand extension, northeast of Sewickley. Lidicker & Campbell's well, on the Rhodes farm, is thought to be good for 150 or 175 barrels a day. The well on the Jones farm 100 barrels a day. These holes are only a short distance east of the original Duff farm well.

Interest has also been revived in the Congersburg district, where the W. H. Christie well on the Knoff farm, after the owner thought of abandoning it, began doing 360 barrels a day, and is still making over 200. There is some trouble from salt water, which has been the blight of the 100-foot sand production, but there is no doubt that in time means will be found by which salt water can be shut out and petroleum given a better show.

Lilly, Thompson & Co.'s No. 1, on the Shannon farm, and the United Oil and Gas Company's Trust No. 1, on the Walker farm, Saxtonburg, are expected to prove good producers.

Michael Belmont Oil Company's No. 2, Core farm, Mt. Morris, is making 50 barrels a day.

Weak lungs and sensitive throats are severely tried by the sudden changes of temperature usual in our climate, and in consequence asthmatic affections, inflammation of the lungs, pleurisy, bronchitis and similar complaints are sure to be more or less prevalent. Coughs and colds, the forerunners of these often fatal complaints, should be prudently taken in hand on the first symptoms, by resorting at once to Dr. Jayne's expectorant, an old and well-tried remedy, certain to remove your cough and exert a healing and strengthening effect on the pulmonary and bronchial organs.

THE People's Mutual Accident Insurance Association, of Pittsburg, Pa., insures against accidents of all kinds. Class A preferred membership certificates provides for the payment of \$5,000 in case of accident resulting fatally, or \$25 weekly indemnity for totally disabling injury. "The People's" is the largest, strongest and best accident association organized under the laws of Pennsylvania, and has paid \$100,000 in death losses and indemnity claims since commencement of business. Cost of carrying a policy has never exceeded \$14 per year, in payment of \$2 each about every 53 days. Send for application form to Home Office, Hamilton building, Pittsburg, Pa.

ALL'S WELL THAT ENDS WELL.

And it is Also Certain that the Y. M. C. A. and M. I. Will be Preserved. The Library Company of the Young Men's Library Association were yesterday raised from despondency's depths to an attitude from which they think they can see over the fog, by the action of John M. Kennedy, Esq., counsel for John Holmes, trustee of the mortgage, staying the Sheriff's writ of sale. This action gives the committee three months, which gives the committee three months, time in which to raise \$27,000 necessary to liquidate the indebtedness. As \$24,000 were provided for by two weeks' work, little fear is expressed of ability to raise \$9,000 a month. Of the amount necessary to satisfy the debt \$66,000, there is provided including the \$5,000 bequest of William Thaw, \$39,000.

The committee has a project in view by which it is expected that the matter can be arranged without any further cause for worry, and it is well convinced that people who have been despondent are now disposed to do so. Once cleared of the incubus there is no doubt the property can be so managed as not only to make the library self-supporting but also yield a revenue adequate to allow it to extend its sphere of usefulness.

NOT ENOUGH MONEY.

Superintendent Malone Says \$249,000 Won't Finish the New Postoffice. Superintendent Malone, of the Federal building, expressed the opinion yesterday that the amount which Secretary Windom asks Congress to appropriate to finish the building, \$249,000, is rather small. He does not say, however, that it may not be enough. The appropriations already made add up to \$1,200,000, and if the sum wanted by the Secretary is granted, the whole cost of the edifice will be just about \$1,500,000. The greater part of the money is paid in advance, and the building is really made. It is only put together here like a playhouse of blocks. The superintendent says that he expects to begin the construction of the roof in about three weeks.

To Install Their Pastor. The installation of Rev. H. C. Holloway, D. D., pastor of Grace English Lutheran Church, Carson and Seventh streets, will take place on Sabbath morning at 10:30 o'clock, at the residence of Rev. D. and Rev. D. M. Kemmerer will officiate.
