INFECTAL TRANSPARENTO THE DISPATCH.1 PUNXSUTAWNEY, January 2 .- Fortyfive write of ejectment against the striking miners were issued by the Sheriff of Jefferson county to-day. The occupants of the houses were not thrown out, but were told to get out as soon as possible. Those who can find shelter will move out at once, but the large majority of them, having no place to go, will remain in the houses until ejected. The district officials of the Knights of Labor have elaimed the right of the \$300 exemption act for all those who have been notified to vacate their houses, so that the company will be compelled to bear the expense of the proceedings. They also intend to appeal to Governor Beaver to stay the executions of these writs until quarters can be procured for

the miners ejected.

The 35 writs served to-day are supposed to be a mere start, as between 400 and 500 families were notified to vacate their bouses within ten days. If the writs are executed before quarters are provided John Quinlisk, who is the miners' agent here, and is proprietor of a large hotel in Claysville, agrees to take all the women and children that his house will hold and keep them until shanties can be built. The men, in the meantime, will be permitted to take care of themselves. The Italian and Hungaria. Consuls will also be notified to look after the interest of their countrymen.

A report was received here to the effect that there were two carlonds of Italians at Du Bois awaiting orders to come here and go into the mines. Accordingly a committee went up to Du Bois to see about it. The found the Italians Du Bois to see about it. The found the Italians housed in box cars there. They had been working as section hands on the railroad, but said they had agreed to go to Punxsutawney and work in the mines when called upon. The situation was explained to the Italians, and the spokesman of the party after consulting the others gravely replied: "Punxsutawney no good for other men. He no good for us. We no go." That settled it, and the committee came back rejoicing.

who was rescued from a den on Wassoo street on Tuesday. Fhu Soso, a Chinese merchant, claims that the girl is his wife, but it is understood that he bought her in San Francisco, not long ago for \$1,500. None of the interpre-ters could be secured to get the girl's story, as they have no desire to come in contact with high-binders.

Au old missionary was found who could talk with the girl, and yesterday Hon Jony related the story of her life. Sold by her parents in one of the famine stricken districts of China, she was shipped to San Francisco where Fhu Soso secured her, and placed her in one of his houses in this city as his nominal wife.

The case will come on in the courts to-day, and a strong fight will be made, as the faction Fhu Soso belongs to, is one wealthiest in the city.

The Vatican Not Very Desirous to Over British Assistance

NEW YORK, January 2.-The Catholic News has received the following from its correspondent at Rome: "General Simmons, the English Special Envoy for the Maltese affairs, seems to encounter some difficulties in accomplishing his mission. The difficulties this time come, not from Ireland, because the General never had any Irish affairs entrusted to him, but from France.

"The reason is very simple. England desires a kind of Catholic patriarchate erected at Malta, to preside not only over Malta, but also over Egypt and the English possession

in Africa.

"Of course, France, which already possesses the primatical see of Algiers, with jurisdiction over all Africa, through Cardinal Lavigerie, cannot now revoke this protectorate. Cardinal Lavigerie will soon visit Rome in regard to this matter, and I am certain the Holy See will respect the reasoning of the Cardinal and of France.

THE RUBBER TRUST.

An English Syndicate's Scheme About Com ing to a Head-The Field to be Trenton, N. J.-Both Sides Satisfy Thomselves as to Security.

TREN TON, N. J., January 2.—It is stated that the negotiations which have been in progress for some time with a view to the establishment of a rubber trust in this city are about completed. British capitalists, it is said, are to take an interest amounting to about \$3,000,000, and to push the stock in England and Scotland. While the identity of the capitalists has not yet been disclosed they are believed to be the same ones who bought up a number of American breweries recently. The trust will not take the active management of the local concerns, which will continue under the present operation

in response to an offer of an English syndi-cate, Thomas A. Bell, of the Star Rubber Company, and Frank A. Magowan, of the Trenton Rubber Company, were appointed as representatives of the local rubber interests to investigate as to the advisability of mechanician from the United States Coast
Survey. The President was attended by
Secretaries Blaine and Windom, and among
the others present were Profs. Mendenhall,
Langley Newcomb Hilgard Rees and dicate, it is said, accepted the proposal, con-ditioned on verification of Mr. Bell's state-

ment as to earnings.

Two accountants on behalf of the syndicate have, after two weeks' work, just completed their report, which has been submitted to the syndicate's attorneys, and by them found approved. It is thought very unlikely that there will be any hitch now in the consummation of the deal. There are eight rubber companies in Trenton, but it is not known whether all are in the project.
