PEPECIAL TELEGRAM TO THE DISPATCH.

KISSIMEE, FLA., January 5 .- Studying Florida sugar fields is what a few prominent Pennsylvanians are doing these bollday times. Claus Spreckels and Hamilton Disston are among the visitors that the special car on the Florida limited brought here last week. The large plantation and sugar

works of St. Cloud, situated in the richest of the Okeechobee "reclaimed" lands, is the magnet that is drawing Northern capitalists to this point. Last year the mill had its experimental

run, and to-day the success of the new industry has surpassed the most sanguine expectations. Over \$1,000,000 is invested in the plant; 400 workmen, Italians and ne-groes, are employed, and every part of the work is under the most scientific principles. From the fields the cane is hauled by ox teams, passed through a transway, crushed by two compressions; the first under a pressure of 250,000 pounds; the final by 621,000 pounds, and the reluse after such pressure fuel, which, too, supplies 90 per cent of the pectations. Over \$1,000,000 is invested in comes out as dry as powder, to be used as fuel, which, too, supplies 90 per cent of the fuel consumed.

A WORD ON THE PROCESS.

The inice thus separated is then bleached by sulphuric acid gas, and another engine throws it a distance of 20 feet into vata and tanks, when it passes from one tank to an-other, being constantly tested at each point by an expert until it comes to the granulator, and the sugar is separated from the svrup.

The company is making three grades of sugar-"choice yellow," wholesaling it at 5% cents; white, at 7% cents per pound, and one other, a little finer; but this same sugar must find sale through New Orleans markets, whence it goes to the world labeled "Louisiana sugar," and commands, there-

fore, New Orleans prices. The St. Cloud Company is opposed to the Sugar Trust, and, with Claus Spreckels' re-cent interest in Florida sugar (having become not only a grower, but purchaser of raw material), with sugar king in South Florida, the trust must soon break or yield. The refinery is conducted by Colonel Bringier, a New Orleans sugar expert, who employs a large torce of Louisiana work-

COLONEL MOORE, OF PITTSBURG, ALSO. During the last two months capitalists have turned their attention to this new in-dustry as never before, and Florida cane is pronounced in every way superior to Louis-iana. The magic name of W. L. Scott is doing much to beem the sugar industry in Florida. The Pennsylvania coal king owns a tract of 50,000 acres already, while the arrival of Colonel J. W. Moore, ex-coke operator of Pittsburg, is looked for anxiously by hungry isnd agents, since it has been whispered that he too will follow other Pennsylvania capitalists in this speculative

fever on sugar lands. The rich reclaimed lands possess an ad-vantage over richer Cuban or Louisiana plantatious, in that the soil is much stronger and the season longer-4,500 pounds of sugar to the acre is the estimate given by Colonel Wabash proferred ngier in an interview yesterday. Daily the mill is turning off 75,000 pounds of dry sugar. The time required to convert the raw material, as it stands in the field, to the choicest granulated, ready barreled market, is seven and a half hours.

STOCKS RECOVER. THE TREND OF TRADE. They Improve in Strength and Activity Under the Influence of Easter Money Produce Dealers are Longing for a -Everything Closes at the Highest Point. NEW YORK, January 4 .- The stock market

was again moderately active to-day, and in that respect furnished a marked contrast to the dealings during the same hours of yesterday, and the urgent demiand for stocks, which was developed yesterday, continued with the result of leaving almost everything traded in mater ially higher than last evening. The money rates to-day were of course merely nominal, but they were low and the purchasing for the long ac-

count assumed larger proportions, and aided by the demand from the shorts a strong and steadily advancing market was made. The uniformity of the improvement was a feature, and the only marked advances occurred in the superiority of the second second

and the only marked advances occurred in the specialties. The opening was active and strong at ad-vances over last night's figures, extending to 5% per cent, and with the single exception of Sugar Refineries, which was sold on rumors of a probable contest between the refining inter-ests, the entire market moved up, but the only specially prominent advance was in Colorado Coal, which spurted 2% per cent in a short time. Trade has been slow, as is its custom on the

time. Sugar retired about 2 per cent, but recovered a large portion of the loss, while the general list was subjected to a moderate set back toward 11 o'clock. This was of short duration, however, and the upward movement was soon resumed, though with less force, and no further feature was developed, the close being active and strong, with prices generally at the birchest points. that butter and eggs are so quiet and slow the the first week in January. A first-class blizsard would at once lift prices. The mild weather, while it is the producer's and dealer's loss, is the consumer's gain. All fruits and vegetables are slow at old rates. In cereal lines receipts are heavy and mar-kets weak. Only choice stuff finds customers at quotations. The flour situation gives some

highest points. Railroad bonds were more active than they

THE FORTY HOURS.

Impressive Services Began at St. Philomena's Church.

One of the most solemn, dignified and impressive services in the Catholic Church occurred yesterday at the beautiful church of St. Philomena's, on Fourteenth street and Liberty avenue. At 10:30 o'clock a solemn high mass was sung by Father Werner, rector of the church, assisted by several other resident priests; after which benedio-tion, and an exposition of the blessed sacra-

ment took place. The Quarant Ore, or 40 hours' devotion, is a very ancient service. It is the exposit of the holy sacrament for 40 hours. Th There are many indulgences to be gained by the faithful who attend church during this sea-

son. Throughout the day and night the church was crowded by devout worshipers. The high altar was beautifully decorated. There were myriads of candles burning amid choice and luxuriant flowers. The church was suffused with the lovely perfume

of the flowers. The sight of a big throng of worshipers in silent devotion was an eloquent attestation of the power the exposi-tion has on the hearts of the people.

Judge Inghran's Decree in the Case, Changing Some of the Findings.

PEPECIAL TELEGRAM TO THE DISPATCE. UNIONTOWN, January 5 .- Judge Inghran's decree in the action of the estate of the late Daniel Kaine, Esq., has been received by the attorneys interested. Mr. Lindsey, the auditor, is reversed in two of his findings and confirmed in all the rest. This will necessitate the redistribution of the funds. H. L. Robinson, Esq., counsel for Mr. West, one of the successful objec-tors, says that the point raised in reference to his claim is now decided for the first time.

to his claim is now decided for the first time. Following is the text of the decree: And now, November 29, 1889, this matter came on for hearing on exception to auditor's report and was argued by counsel: and now December 31, 1889, after consideration thereof, it is or-dered, adjudged and decreed that the excep-tions filed to said report by S. W. Jones and the People's Bank of Fayette county be sustained and allowed, and that all the other exceptions filed to said report be overruled and dismissed. It is further ordered and decreed that said re-port be referred to the same auditor for correc-tion, in accordance with this decree, and being so corrected that said report be confirmed. <u>Attest:</u> PER CUELAM,

But after reaching 104, the highest point of the day, the attempt was given un, and the price receded to its former level. Here the trading was not only light but entirely expressionless, and the same may be said of New York and Bradford. While conditions favor better prices, the ab-sence of support and fears of the Standard are na incubus which intimidates professional dealers and prevents an upward improvement, and prospects for a radical movement so long as these conditions continue is exceedingly silm. There will be fractional changes, but no material departure from present quotations for some time. The abrogation of futures would have very little effect either way, as outsiders seem to be thoroughly divorced from this speculative commodity. ORANGEMEN WILL WORK FOR IT. Canadians Will Attempt to Abolish Franc

as an Official Language. OTTAWA, January 5 .- At the session of

Parliament, which opens on the 16th inst., it is understood the session will be a lively one. A resolution will be introduced to abolish French as an official language in the Canadian Northwest. The Orangemen will seek to secure incorporation, but will have to count on the opposition of all the Roman Catholic members of Parliament. The House will, at an early date, consider The House will, at an early date, consider the fishery question, and probably map out the future policy of the Government regard-ing it. There was a disposition to revert to the treaty of 1818, but Sir Charles Tupper objected to such a course. This may result in a modification of the Government's pro-need rolling. posed policy. posed policy. Sir Charles seeks to pursue a conciliatory policy in view of the unsettled state of the Behring Sea question, and the fact that British interests there are largely involved.

A CONVERT SECURED.

How a Young Lutheran Was Won to the Presbyterian Faith.

Willie Clauson, the 9-year-old son of the City Hall janitor, has a keen appreciation of the sweets of Sunday school attendance, especially about Christmas festival time. He has a little friend who attends the Lutheran Sabbath school near Homewood and who accompanied him to the Presby terian Christmas festival at the same place On Saturday morning Willie called his father mysteriously aside and said: "We are going to have Johnnie attend our Sabbath school. He says our candies were twice as nice as theirs. We've got another pupil, sure.

The young enthusiast was quite delighted with the expected gain in membership as well as with the solid and sweet arguments which procured it.

FOR THE BAZAAR.

A Number of Attractions for St. Paul's Cathedral Fair.

A number of new attractions have been secured for the bazaar at St. Paul's Cathedral. It has been decided to continue it for a few weeks more on Wednesday, Friday and Saturday evenings. On next Wednes-day night there will be a grand concert given. On Friday evening Prof. Byron King will give a series of recitations. On

Saturday night the Smoky City Quartet will give a concert. The bazaar is crowded each night, and is in every way a social SUCCESS. HIS SUMPTUOUS QUARTERS.

BROOM CORN.

Eight years ago cancer came on my lower ip. It took off my under lip from one side to the other, and down to my chin. I had it treated by burning, and got so weak that I did not think that I could stand it much longer After much suffering I discarded all other treatment, and began taking Swift's Specific, and the cancer soon began to heal, and in a short time it was completely healed and I was enturely well. It is now over three years since I got well, and there has been no sign of any return of the disease. Throw it was cancet, and I how it was cured alone by S. S.
