SPECIAL TELEGRAM TO THE DISPATCH. PUNXSUTAWNEY, January 6 .- The Buffalo, Rochester and Pittsburg Coal Company was unsuccessful in starting its works to-day, although an effort was made in that direction. Some Italians and Poles bad been induced to promise to resume work, but were persuaded not to do so by the men. Quinlisk and Wilson, the managers of the strike, have issued a subposua to the officers of the company requiring them to show cause why evictions should take place, and the case will be argued to-morrow at Brookville. There Master Workman W. B. Wilson, of Division S. K. of L., has issued the following statement regarding the situation among the locked-out minors in his district:

regarding the situation among the locked-out miners in his district:

Several months previous to August 29, 1888, the company reduced the wages of the employes from 40 cents part on all round to 40 cents and 35 cents respectively. This notice was served on the men while on their way home in the evening, to take effect the next day. Owing to the shortness of time given the men accepted the reduction. The next day, however, August 23, a moeting of the men was held, at which it was decided to ask the company to restore the old mining price, viz., 45 cents per tou; that the wages of day laborers he increased in the same ratio; that chork-weighmen be allowed on the tipple, their pay to be deducted from the men's wages through the office; that dead work be paid for; that mine committees and a miners' agent be recognized in the settlement of disputes. An answer was requested on August 28, but the company refused to give an answer until September 4. The men, believing this to be a device on the part of the company to gain time, agreed to remain idle until they received an answer. On September 4 the company replied that they would give 40 cents per ton all round, and declared that to be their ultimatum. A strike was at once declared. On September 14 the company's president and the inners' committee met and an agreement was reached and ratified, grauting all the demands of the men. excepting mine committees and pay for dead work, it being understood that all disputes be referred to the Superintendent and the miners' agent. From that time on the miners and their aren't insisted on pay for dead work, but the company refused to pay for it and un December 2 a mass meeting was called, the most important grievances drafted and a committee and the content of the payed of the safe of the superintendent and the miners' agent. No notice was received until Friday, December 6, when the company refused to give any store orders. On Saturday, December 14, two-fifths of the men were discharged without previous notice, though the surcement called for 14 days notice. On the following day a mass meeting was held, at which it was declared the other men would not return to work until their demands were acceded to and the discharged men were reinstated. No answer has been received up to dair. On December 21 notices to vacate the premises in lend days were served upon the men by the company. These are the facts in the case. The public can form its own conclusions.

LUCKY OIL PRODUCERS

Strike Some Good Wells in the Vicinity of Great Belt City.

SPECIAL TELEPRAM TO THE DISPATCH. BUTLER, January 6.-Great Belt City, east of this place, was once laid out by Pittsburg capitalists for a growing oil town, but it collapsed with the oil belt on which it was supposed to be founded, and in honor of which it was named. Twelve years have elapsed, and today this little town is the center of a promising
oil Beld which may equal the fondest expectations of its pioneer operators. Within sight
of it Thomas W. Phillips has a number of naying producers. His No. 1,
on the M. H. Byerly farm, is just
through the sand, and is rated at 50 barrels
per day. Phillips No. 2, on the Negley
larm, is one bit in the sand, and filing up with

A DAY'S TERRIBLE RECORD.

The Rate War Goes Merrily Ou.

St. Paul., January 6.—The Burlington road to day announced a passenger rate of \$22 60 first-class and \$20 second-class from this city to Boston. The Soo line will cut rates January 8 from the passenger station at this point. Mr. Wolfgang was 45 years of age. By the same accident Robert Worley, of Altoona, conductor, was also banly injured about the head, and had a very narrow escape from instant death.

At Ben's Creek, ten miles cast of Johnstown, the Mail train ran over and killed two Hungarian laborers; names unknown.

ular paper at the meeting of the Southside Medical Society last night. There was a good attendance of members present, and, as Dr. O'Connor did not put in an appearance, the members cast about for a subject for discussion. Some one suggested "La Grippe," but that subject was almost unanimously voted down.

The subject, however, would not down, and was finally taken up and discussed. Nearly every physician reported having some cases on hand; one physician in particular reported naving attended 14 cases yesterday. The subject was generally discussed, among those taking part being Drs. Duff, English, Thomas and Browster.

part being Drs. Duff, English, Thomas and Browster.

It was the general opinion that the symptoms were not exactly those of the Russian grippe; but that it was influenza there was no doubt. Their experience so far showed that the victims are attacked suddenly, no one, not even the healthiest, being exempt from it. It first comes with a severe headnche, then the temperature becomes high and there are pains about the body, and a general feeling of lassitude. The disease generally lasts from 68 hours to four days, and is by no means dangerous.

They also discovered that it came in two forms, both catarhal and nervous affections. The main point of treatment was to reduce the temperature, which would naturally reduce the headache and restors the secretions.

The prevailing opinion was that the disease was in the air, and would go over the entire country. The chief cause of its existence, they thought, was the mild state of the weather, and a cold spell would very largely affect its effects.

S. S. Marvin was at his office yesterday for the first time for nearly a week. He had a bad attack, and thinks his malady was something worse than a severe cold.

from Mrs. Joseph Lake, of Brockway Centre, Mich.:—
"Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at aii. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I commenced fief. Nothing that I took seemed to do any permanent good until I commenced the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an improvement in my condition. My appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life."

Great Annual Inventory Sale Now On!

See what we are doing A month hence we take stock, and in order to make the task as easy as possible and swell our bank balance to the greatest possible extent, we have made reductions so sweeping that our original prices, low See what we are doing as they were, are almost wiped out of existence.

The Bargains We Shall Offer This Week Will Go on Record as Eclipsing Anything in the History of Our House!

It will pay you to purchase Winter Suits and Overcoats (and you See what we are doing know we are bound to have severe weather shortly), Heavy Underwear, Winter Hats and Caps; any kind of Winter Furnishings, such as Mufflers, See what we are doing Gloves, Heavy Weight Hosiery, etc., and Winter Footwear this week, even supposing you don't require them for immediate use. And for why? Because our prices are so low that supposing goods purchased are not required for immediate use, you'll be the gainer in buying for future use. In view of the fact that the newspapers will from now on See what we are doing be filled with advertisements from clothiers embodying all sorts of statements in order to induce people to buy—statements which only require a few moments' thought to convince people of their ridiculousness—it will be advisable for you all to MAKE COMPARISONS OF GOODS We guarantee the AND PRICES BEFORE YOU BUY, before you part with your welllowest prices and give earned money.
