Collins vs Chartiers Vailey Gas Company; C. P. No. 2 of Allegheny; Judgment reversed and venire de novo awarded. Simmons, living on Sarah street, between South Twenty-fifth and Twenty-sixth, called at the Twenty-eighth ward station house early in the forenoon and told a long, weird story about the disappearance of her 12-year-

age and would readily be taken for a girl of 17 or 18. Mr. Porter presented Mr. Johnston's commission, which was read by Clerk Lee, after which the oath was also administered to him. Then he also was the recipient of hearty congratulations, and the pleasant ceremony was brought to an end. This is Judge Collier's third term as Associate Judge of Commen Pleas No. I, and the first term of Mr. Johnston as District Attorney, His duties, however, are not altogether new to him, as he has acted for District Attorney. On last Saturday Lena left home, saying she was coming over to the city to buy a present for her teacher in recognition of the atter's gift to her. A PITTSBURG FEEDER

A New Railroad Which Will Tap West Virginia Ore Deposits.

It Will be Called the Pittsburg and West Virginia Railroad. IT IS HEAVILY BACKED IN PITTSBURG.

OPERATIONS TO BE BEGUN SOON.

An Assertion Made That Virginia Iron Ore is All Right. The Pittsburg and West Virginia Railroad is the latest blossoming enterprise to connect Pittsburg with West Virginia iron

ore fields. Its route mapped out and construction to begin. It is only within recent years that capitalists, and especially iron manufacturers, have given any attention to the immense iron ore deposits in West Virginia.

The mountains of that little Common wealth are full of iron ore of every grade, from the most interior to a grade which will rival the Lake Superior product. It is easy of access, where transportation facilities are within easy distance, and the cost of mining the ore is much cheaper than in other parts of the country.

It is also nearer the sea board, neare to Pittsburg, and nearer the furnaces of old Virginia than the ores which are mined in the Lake Superior region.

About the only railroad route which the mine owners care for shipping their product to the Pittsburg furnaces is up the Shenan-doah branch of the B. & O., which runs down the valley from Harper's Ferry to Lexington.

A NEW ROAD PROMISED. A new road has recently been projected, —A band of Mexican horse thieves ambushed a camping party consisting of three men, two women and four children, in a canyon near Chihuahua, Saturday, and shot and killed two of the men.

A new road has recently been indicated and will be built within the next year. It will connect the ore beds of West Virginia with Pittsburg and will be known as the Pittsburg and West Virginia Railroad. It will be in opposition to the B. & O., and will form a very direct route to this city. A meeting of the stockholders of the pro-posed road was held in Lexington, Va., January 4, when ex-Governor Fitzhugh Lee was elected President. A force of contractors and laborers will be put at work within the next three or four weeks, and the road fin-ished as soon as possible. The route of the new road will be from Pittsburg to Connellsville, then to Uniontown, and from there to Rowlesburg on the B. & O., where it will

cross that road.

Then proceeding south it will pass through Thomas, Buckhannon, Webster, Huntersville and Roncoverte, W. Va., and ONE OF THOSE INTERESTED. A prominent iron manufacturer of Pitts-

This branch of the road will be between 250 and 300 miles long, and will open up some of the best ore deposits in the State. It will bring the ore mines within easy reach of Pittsburg. There is a large quantity of the finest grade of ore in the United States in that region, and of course there is a large amount of ore of a very poor grade. noor grade.

This road will be entirely independent of the p. & O. and all other roads. n. & O. and all other roads.

There are a lot of New York capitalists backing it who have plenty of money.

The opening up of this road will be a great benefit not only to Pittaburg, but to West Virginia as well. It will penetrate the heart of the State, and besides the iron ore there are vast deposits of other minerals I understand which can be easily developed.

A COHESIVE PLAN. The road is not a myth by any means. When it is completed to Lexington it is not improbable that it may be run down the east side of the mountains, through Rocky Mount Stuart, Dunbury, Wilkesbore, Lenoir and Shelby into the Carolinas and Georgia. Several B. & O. officials were interviewed yesterday, and did not seem to take kindly to the proposed road. They say there is no business for a new road and that almost in-

surmountable obstacles will have to be overcome by the men who intend building the FOLLY TO FIGHT BOODLE.

Colonel Fellows Will Not Further Prosecute Indicted Aldermen. PEPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, January 6 .- One of the parting echoes of the celebrated boodle aldermen trials was heard in the Court of Oyer and Terminer to-day, when District Attorney Fellows had the cases in question taken from its calender and transferred back to the Court of General Sessions. Colonel Fellows defends this virtual abandonment of the prosecution thus:

I consider it folly to go on with these cases, because an acquittal, or at least a disagreement of the jury, will be the only result. In the first place, it is almost impossible to get a jury. We have no new testimony to offer, and testimony upon which former convictions were procured was stricken out by the decision of the Court of Appeals. Under these circumstances I shall not go on with the trials. Abominable Is the stinging sensation produced in the throat by heartburn, one of the numerous progeny of indigestion.
