A SUCCESSFUL MEETING. There was a good attendance of members, and without doubt it was the best annual meeting in the history of the club. The business trans. acted was of great importance not only to the club but to all those interested in gun shooting. The club's constitution and by-laws were revised and some vital changes made. The re-

vising Committee were E. E. Shaner, C. M.

Hostetter and H. Levis, and they did their One important new provision in the new constitution is the appointment of a "Shooting Committee." From now on a committee will be appointed once a year to take charge of all prize shoots and tournaments. By this means it is expected that the members of the committee will become thoroughly conversant with the work of arranging and carrying out tournanents such as the club intends to hold. This certainly will be an improvement on the old plan of appointing a new committee for every

Another change of no less importance is transferring the management of the club al-most entirely to the Board of Directors. The object of this is to do away with so many meet-

ings of the club.

ADDITIONAL AUTHORITY. In future whenever any business, short of a very extraordinary nature, is to be transacted the Board of Directors will have power to deal gel with it without convening a meeting of the entire club. It was further agreed to give the Keystone targets a trial, with a view of adopt-

ing them by the club. Another very interesting feature of the meet ing was the reading of the report of the Secretary and Treasurer, E. E. Shaner. It showed that the club had, during the season, expended more than \$600 in prizes, and that it was in excellent linancial standing. It was also shown that the shooting standard of the club had been extremely good, and also that the membership had increased. The report was unanimously adopted. During the progress of the meeting it was intimated that the club will give bigger prizes for shooting this year than has ever been given by any club in this locality.

ON A LARGE SCALE. reepstakes on a larger scale than usual will be held. During July the great match between East and West will take place in this city under the ansnices of the club, and a number of telegraph matches with leading clubs in the counwill be arranged. In short the Herron Club members intend to make themselves own throughout the land this year. Last Hill Citch members intend to make themselves known throughout the land this year. Last evening two new members were admitted, making a total membership of Si. After all other business was transacted, the election of officers for the next 12 months was proceeded with.

One of the pleasing features of the election of officers was the re-election of E. E. Shaner as Secreary-Treasurer and Captain, He has filled the office faithfully and ably in the past, and his re-election was declared amid hearty applause. Samuel Shaner was re-elected President, and W. H. Bown and H. J. Levis were elected First and Second Vice Presidents. The directors elected were: Charles Richardson, F. F. Dawson and J. A. Herron. The Shooting Committee will be appointed at the next meeting, which will be held February 10. There may be a prize shoot of the club next month, as there is \$100 worth of prizes on hand, and a special prize shoot will take place on Washington's birthday.

passed Charley Johnston, Jim Wakely and all the others who were actively connected with the fight will, in all probability, be the guests of Inspector Byrnes. Three of his men, Cottrell, Aloncle and Creed, made the arrests today. All were taken into custody on the old requisitions sent to Governor Hill by Governor Lowry. It was only this morning that Governor Hill telegraphed to Inspector Byrnes to take the men into custody.

The three detectives were at once started out. William F. Harding was found at the Police Gazette office by Detectives Creed and Aloncle. Cottrell caught Domovan in bed. He had been out late last night, to a ball, he said, and was peacefully siumbering when Cottrell entered his room and aroused him. He seemed surprised, but said nothing, and accompanied the detective to police headquarters. In the meantime Cleary had been arrested on the street. He made no resistance, but manifested great surprise, like the others. The requisitions had been in the hands of Governor Hill so long without action being taken en them that they considered the matter as settled.

Late this afternoon the detectives took their prisoners before Justice Hogan at the Jefferson Market pelice court. After several minor cases had been disposed of they were called up before the Judge. Ex-Judge Peter Mitchell appeared for them. Detective Creed explained Pittaburg is fast taking a prominent position as far as the encouragement and development of refined sports is concerned.

Probably during the last few years rifle and gus shooting have made no greater progress in any city in the country than in Pittsburg and that class of out-door sport is still daily becoming more popular here. There are several rifle and gun clubs in and about the city, but none have done more to advance the aport than the Herron Hill Gun Club. Its history so far has been a credit to those connected with it.

Last evening the above club held its annual meeting at the store of W. H. Bown, Smithfield street.

MILL AND LUMBER YARDS BURNED.

The Firm of Grannis & Bros. Sustains a Complete Loss of \$30,000. MINERS' PETITION REFUSED IN COURT.

A Complete Record of a Day's Happenings in Neighboring Towns.

A large planing mill and a lumber yard were destroyed by fire at Braddock last night. The firm's loss is complete, there being no insurance. A brick tenement house and a fine residence also burned. The Lake Erie is to lease three coal railroads.

SPECIAL TELEGRAM TO THE DISPATCH. BRADDOCK, January 8 .- The planing mill and lumber yards of H. B. Grannis & Bros., together with almost the entire block between Sixth and Seventh streets and Talbot avenue and the Baltimore and Ohio Railroad, were burned to-night. The fire, which broke out at 10:45, originated in the boiler and engine room. In a very tew minutes the entire concern was enveloped in flames. The high winds, which were blowing a gale, caused the flames to spread with great velocity, and in less than an hour othing remained but smouldering ashes of what was once a brisk business locality. The timated loss of Grannis & Bros. is placed at \$30,000, with no insurance. A two-story brick tenement house, belonging to Philip Sharah, and a large handsome brick residence on the Westnide, the property of Anton Wolf, of East Liberty, were also reduced to ashea. Many other buildings suffered serious damage.

The volunteer fire department rendered valuable service, but were unable to control the flames owing to the strong winds. Graunis Brothers have been very unfortunate, as their plant was destroyed in 1874 leaving them almost penniless. Then, as now, they had no insurance. By perseverance and strict attention to business they had just got fairly on their feet, when they were caught again.

There was also a fire to-night at the signal block of the Baltimore and Ohio station, but the prompt work of the firemen saved the building. 830,000 with no insurance. A two-story brick

In the oral argument before the Court by the defendant's counsel, it was urged that an injunction should be issued, but offered neither law nor facts to support them. The plaintiff's objections, therefore, appear of record, and were adjudged to be sufficient by the Court. There seems to be no necessity to add anything beyond what appears in the petition and objections filed. And now, January 7, 1890, it is ordered, adjudged and decreed that the petitions be refused at the costs of the petitioners, and further ordered that the same decree be entered in each of the other petitions filed, from No. 186 to 179 inclusive, of February term, 1890."

PROW A STAFF CORRESPONDENT.1 WASHINGTON, January 8.—The contest over the office of Surveyor of Pittaburg, promises to get warm after a little, and be nore prolonged than was at first expected. There is now on file at the Treasury Department a letter from Representative Dalzell, requesting the Secretary of the Treasury to delay sending an appointment to the President until he can be heard on behalf of Mr. Frank Case.

As the Secretary very gracefully yielded to a similar request made by Colonel Bayne last August, it is probable that before he indicates his selection to the President he will invite Mr. Dalzell to present his views of the situation. of the situation. Hitherto it appears that the friends of Mr. Case have made their main argument directly to the President, and it is whispered at the White House that His Excellency has lent a very friendly ear in their works. in that quarter. A DIFFERENT PICTURE.

On the other hand, it is probable that Colonel Bayne has had assurances at least equally as pleasing from the Secretary, who is primarily the appointing power, but who, of course, would be easily overruled by the President, it the latter, on account of the peculiar recent history of Pittsburg appointments, should see fit to take a peronal interest in conceding the appointment of Case to Representative Dalzell, in con-sideration of the latter's having been deprived of what was in some sense conceded to be his right to name the Pittsburg post-

Colonel Bayne visited Secretary Windom to-day, and had a very pleasant and satisfactory conference with him in regard to Mr. Dravo. The way I came to write that letter was just this: One day last summer it was suddenly announced that District Attorney Allen had re-NASHVILLE, January 8.—Jackson Day was celebrated here to-day with a procession, participated in by the military of the State and hundreds of citizens. After the parade a meeting was held at the State Capitol and the National Jackson Club was permanently organized, to meet annually in Nashville. The following officers were elected:

President, A. K. McClure, Pennsylvania; Vice Presidents, Hon. Jere Baxter, of Tennessee, Hon. Dewitt C. Creiger, of Illinois, and Joseph S. Johnson, of Alabama: Secretary, General the D. McCord, of Tennessee; Treasurer, W. M. Duncan, of Tennessee; Treasurer, W. M. Duncan, of Tennessee, and at Executive Committee of five.

The festivities of the day were wound up with a historic custom, a reception at the Maxwell House, given by the Ladies' Hermitage Association. In the afternoon the

A FLAT DENIAL Knowing the intimacy of Surveyor Barr with the circle which was backing Frank Case for the the circle which was backing Frank Case for the Surveyorship, I thought it possible that a similar course might be pursued in regard to that office, at a time when neither Senator Quay nor myself were in Washington, and I therefore wrote the letter to Secretary Windom, requesting him to withhold any appointment until we could be heard, and recited the facts of the Williams case as a reason, and because they might possibly form a precedent for action of Mr. Case and his friends. I did not impugn Mr. Case's Republicanism in any way, nor make the faintest reflection on his character. I simply desired to forestall any possibility of action being taken in the absence of Senator Quay and myself, when we could not be heard, and that is all there is about it.

There are pretty substantial reasons for the belief that the President and the Secrepointment, and how long they will discuss it before reaching a condition of harmony cannot be predicted. The longer the better for Surveyor Barr.

The Shadyside Gymnasium Completed and Prof. Kirchner on Hand. The gymnasium of the Shadyside Academy has been completed, and it is one of the most perfect and commodions institutions of the kind in Pennsylvania. The refitting of the gymnasium has cost \$1,250, and all the athletic apparatus has been put in under the personal superintendence of A. G. Pratt. All kinds of apparatus for the development of the human frame and muscles are in the new gymnasium. Boxing gloves, chest weights, dumbbells, rowing machines, horizonal and parallel bars, atriking bars, etc.

Besides these there is a splendid track of 144 feet elevated above the main floor of the building. The track is laid with two inches of feit, a layer of sail cloth and three coats of elastic paint. a layer of sail cloth and three coats of elastic paint.

Prof. Kirchner, of the East End Gymnasium Club, will be the instructor, and the selection is a good one. The professor has a unique system of instruction. A notable feature of which is the measuring of all pupils and the making out of a chart to suit them accordingly. The professor measures a new student and finds out what muscles need developing, and he prescribes exercise to suit. He was measuring his pupils yesterday. There are about 110 members in the gymnasium, and its prospects are exceedingly good. The directors are in hopes that its membership will be considerably increased in a very short time.

Mon Are Seldom Sent Abroad. GLASGOW, January 8.—The Pen and Pencil Rub, of this city, gave a dinner in honor of Mr. Underwood, formerly United States Consul. Many notable persons were present. In responding to the toast of health, Mr. Underwood said:

"In America there are greater lawyers at the bar than on the bench, and more learned men in private life than in the councils of the nation. It is only a happy accident when men like Motley, Lowell and Phelps represent the country abroad."
