IRON TRADE REVIEW

A Strong and Healthy Tone All Around

EXCELLENT OUTLOOK IN NEW YORK.

Noted in Home Circles.

Confidence There in Heavy Production and High Prices.

THE MARKETS IN OTHER CITIES

The iron and steel situation has developed few new features in the past week. Prices are well maintained since the beginning of the year, and while there is no active movement, there are no signs of a reaction to the recent boom. Bessemer and gray forge iron are in good demand for this time of the year, and any change of prices will be up-

Merchant bar iron, which dropped last summer to \$1 65, the lowest price for many a long year, is now very firm at \$1 95 to \$2 00 per ton. Said a representative of one at the n of our leading iron firms to-day: "I have pany of never known the outlook better than it is at this time. Orders are brisk and prices are firm all along the line

In the middle of October pig Iron was quoted in New York and Liverpool at \$17 per ton, now it is firm at \$18 50. The advance in Bessemer pig the past six months has been fully \$8 per ton.

WHERE THE BOOM STARTED. The upward movement of iron and steel started across the sea. Last July steel rails were dull in England at \$18 per ton. Now they are brisk at nearly double that figure. The are brisk at nearly double that ngire. The quotations on steel rails December 31, 1889, in Britain were 2728, 6d., which is nearly the same as quotations at the Edgar Thomson works. The advance in prices of steel has been much greater across the water than here. The lowest figure reached on steel rails this side was \$25 per tos. Now the entire product of the Edgar Thomson is sold ahead till summer at \$16 advance on this rais.

vance on this rate.

With the upward movement in Europe and firmness of prices there, there is no likelihood of a reaction to the iron and steel boom on this side of the poud for the year to come. All our ron masters are very firm in their views of narkets, and the biggest year on record is be-lore us in this line unless all signs fail. THE BULING PRICES.

Following are the ruling prices, and on these
prices there is no longer any disposition to con- cede, as there was a few months ago:

AN EXCELLENT OUTLOOK.

Continued Heavy Production and Higher Prices Confidently Expected.

SPECIAL TELEGRAM TO THE DISPATOR. '89 was very satisfactory. There was a moderate increase in production during the first half, a continuation of the movement during the cluding half of '88; but during the six months ended December 31, 1889, the production was quite heavy, amounting at the close of the period last named to some 30,000 tons weekly more than it did in July last. Manufacturers have acted conservational with the close of the period last named to some 30,000 tons weekly more than it did in July last. Manufacturers have acted conservational with the content of the transfer of the content tively in that they have declined to mark prices up sharply or to otherwise stimulate a boom, the new year starting in with No. Ix foundry pig frons only \$2 per ton higher than one year previously, an advance of 11 per cent, or from \$18 to \$20 on the year. The heavy demand for iron came from gas and water and other iron pipe makers and from railway companies, the latter having done an enormous amount of business at renewing and increasing rolling stock, which calls forgreat quantities of iron. The increased use of iron(as well as steel) in building as well as for bridges, must likewise be taken into account, and with items previously mentioned n that they have declined to mark prices

stock of lead in store is about 11,000 tons, of which 2,500 tons were accumulated during 88. The average price of lead for the year is \$3 85. At the close values are about \$3 90 for corroding, wish \$3 85 bid. The average prices of pig lead in Chicago in late years, compiled by Everett & Post, Chicago, Ill., are \$5 6734 in 1885, \$4 90; in 1885, \$4 36; in 1886, \$4 90; in 1885, \$4 36; in 1886, \$4 90; in 1885, \$4 36; in 1886, \$4 50; in 1886, \$4 90; in 1885, \$4 36; in 1886, \$4 50; in 1886, \$4 90; in 1885, \$4 36; in 1886, \$4 50; in 1886, \$4 90; in 1886, \$4 90; in 1886, \$4 90; in 1886, \$4 90; in 1886, \$4 50; in 1886, \$4 90; in 1886, \$4 90; in 1886, \$4 50; in 1886, \$4 90; in 1886, \$4 9

holding available stocks—the quotation at New York sank to 12 cents and in June to 11 cents per pound. A price was finally arranged at 12 cents for the American trade in August, but 11 disappeared a month later and the quotation became 10½0, the occasion being the final collapse of the American combination. At 11c for lake, the trade came forward with free orders in October, and the demand since then has been brisk advancing the mile arrestillable. from 12c in November to 14614% of in December and 15% prior to the close of the year.

The opened at 21,30c per pound at New York, drained slowly to 21,05c after the collapse of the copper corner at the end of March, and to 20% of a month and two months later, and to 16,65c in in June. From July on until the end of the year there was a moderate increase in strength and appreciation in price, until in October 22 cents was reached. From this until the close of the year reaction was the order, the closing price year reaction was the order, the closing price being 21.25c. Importations of tin into the United States were larger in 1889 than in 1888, when they aggregated 34,294,125 pounds.

A Quier, but Expectant Week. ST. LOUIS, January 10.—Rogers, Brown & Meacham say: Quietness and expectancy have characterized the week. Furnaces remain very firm in their views, and prices here continue without appreciable change since last week, the apparent increase in quotations being additional freight. We quote for cash £. o. b. St. Louis: Hot hlast coke and charcoal—Southern coke No. 1, \$19 50(20 00; Southern coke No. 2, \$19 00(319 50; Southern coke No. 3, \$18 50(319 00; Southern gray forge. \$18 00(318 50; Southern charcoal No. 1, \$20 00(321 00; Southern charcoal No. 1, \$20 00(321 00; Southern charcoal No. 2, \$19 50(30 00; Missouri charcoal No. 2, \$21 00(322 50; On) hot softeners, \$20 50(321 50; car wheel and malicable from Lake Superior, \$23 75(324 50; Southern, \$21 00(323 50; Connellsville coke, East St. Louis, \$5 25; St. Louis, \$5 40. PECIAL TELEGRAM TO THE DISPATCE.

cuisr. Rogers, Brown & Co., say: As was to have been expected, the first few days of the new year have been rather quiet. Foundries and mills have been occupied with taking stock and counting the year's business. Junging from expressions from many leading concerns, the results have been almost uniformly gratifying, and all agree that so far as the new year has developed, prospects are uniformly favorable. Toward the close of the week there was a noticeable increase in demand and the market again took on some appearance of activity. The teat advance in Southern freight rates added to full prices at furnaces have thrown figures for Southern coke irons at most northern points beyond what buyers are willing to pay. Furnaces, however, are so heavily sold that they feel strong in their position.

in the rig iron market to-day, owing to large

DULL, BUT QUITE FIRM.

Reasons for the Present Condition of Affairs le Philadelphia. ISPECIAL TELEGRAM TO THE DISPATCE. PHILADELPHIA, January 10 .- The iron mar ket is dull but firm. So many large orders were placed during the latter part of 1880 that the demand which would create new business is light. Numerous contracts

new business is light. Numerous contracts were placed for three mouths, while others extended for six months or a year. The manufacturers are thus kept busy, and the product of furnaces and mills being sold in advance, prices are well maintained.

Prices on pig iron at tidewater are \$30 per ton for No. 1 Foundry, and \$18 Grey Porge, and anything fancy on either grade is held at 50 cents per ton above these figures.

grade is held at 50 cents per ton above these figures.

The range on old rails is fairly covered at \$2 \$ to 29 per ton and a fair volume of business is being transacted \$25 \$30. Steel rails are quiet but firm at \$36 per ton, free on board at the mill. Muck hars show an advance of fully 50 cents per ton for the week at \$20 \$33 at the mill, Other grades of manufactured fron are worth as follows: Plates 2.25 to 2.25, angles 2 to 20 to 2.30, tees 2.60 to 2.75, beams and channels 3, 1, merchant bars 2, 1, sheep groved 1.9 to 2 cents, sheep sheared 2.1 to 22 cents. One of the important contracts in the West this week was an order for 5.000 tons of steel plate at \$90 per ton at the mill placed by the American Steel Company, of Duluth, with Andrew Carnegie. The production of pig fron in the South has increased from 212,722 tons in 1880 to 1,396,903 tons in 1888.

An Active Demand Expected. PEPECIAL TELEGRAM TO THE DISPATCH. CHICAGO, January 10.—Rogers, Brown & Co., in their weekly review, say: Inquires are coming in freely for small requirements of foun-drymen, and occasionally large buyers sound the market for round lots for long-scattered deliveries. The amount of business rounded up during the week has not been large, but sellers think there is every reason to look for up during the week has not been large, but sellers think there is every reason to look for an active and healthy demand as soon as business incident to stock-taking is out of the way. Lake Superior charcoal iron is very firm, and sellers are holding to \$25.50 cash or higher. There has been some trading in Southern coke irons, but their prices still rule rather high for this market.

BRITISH IRON MARKETS.

Prices Ruling on the Other Side of the Ocean During the Week. The American Manufacturer in its cable letter of January 8, gives the following quota-

Scotch Pig - Speculation in warrants has been very active, and prices have advanced, moving up to 65s. 6d. in both London and Glasgow. Prices for all makers' brands are strong, and the demand continues good.

at 82a 6d. for Nob. 1, 2, 3, L. c. c. snipping, point.

Middlesbrough Pig—Active speculation has carried prices up fully 3c. The market is still excited, and prices are strong at the advance. Good merchant brands quoted to-day at 65a, 0d. for No. 3, f. c. h.

Spiegeleisen—There has been a very heavy advance in holders' prices, and offerings are light for early delivery. English 20 per cent. quoted at 139a, f. c. h. at works.

Steel Wire Rods—Not much doing in these, and previous prices are named but nominal. Mild steel, No. 5, quoted at £77a, 6d. f. c. b. shipping port. NEW YORK, January 10.—The iron trade of 80 was very satisfactory. There was a moderate increase in production during the first half, the increase in production during the increase in production during the first half, the increase in production during the increase ping point.
Steel Blooms—There is little doing in this

these. Run of the mill quoted at £3 12a, 6d @£5 16s, f. o, h. shipping point.
Old Rails—Demand quite prisk and blds better, but holders' fictures too high for business, Tees quoted at £8 15s., and double beads at £4 Scrap from—There is a fair demand and prices are very firm. Heavy wrought quoted at £36£3 28.66.£0, b. shipping points.

Manufactured from—Sharp advances have been made in all prices and the market is active hold it back.

higher and very first. Ordinary Shessar quantity at £24 10s.

The Plate—There has been a better demand, but sellers will not accept offers at better than within 3d. of iast week's prices and only for moderate quantities. The stock at shipping point amounts to 450,000 boxes, the largest in

advance on last week.

Fresh Bermuda onions and Florida tomatoes are to be found on the stalls, a thing unknown

by the oldest inhabitant this early in the sea-son. Another remarkable feature of the mar-kets is the presence of fresh fish from the lakes. Frozen stock is in light supply, but takes. Frozen stock is in light supply, but this is offset by the fact that fishermen are still able to secure a supply of fresh fish, a thing almost unknown at this time of the year in former seasons.

Following are the retail prices of market-basket filling as furnished by leading dealers;

Staple Meats.

The best cuts of tenderloin steak range

from 20 to 25c, with last figure for very fancy; strioin, best cuts, from 15 to 18c; standing rib roast, from 15 to 20c; chuck roast 10 to 12c; best round steaks, 15c; beiling roast. 10 to 12c; best round steaks, 15c; boiling beef, 5 to 8c; sweet breads, 20 to 50c per pair; beef kidneys, 10c apiece; beef liver, 5c a pound; calf livers, 25c apiece; corned beef from 6 to 10c per pound. Veal for stewing commands 10c; roast, 124 to 15c; cuslets, 26c per pound; spring lambs, fore quarter, 10 to 12c; bind quarters, 15c. A leg of mutton, hind quarter, 6 prime quality, brings 12½c; fore quarter, 8c; loin of mutton, 15c; gibleis, 5c per pound.

Garden Stuff. Potatoes, 15c per half peck; Jersey sweet potatoes, 25c per half peck; cabbage, 5 to 10c; canliflower, 75c to \$1 each; tomatoes, 35c a quart; celery, 5c a bunch; bananas, 15 to 20c a dozen: carrots, 5c a bunch; lemons, 25

BIG MONEY FOR LAND

People Stirred Up Over the Record-Breaking Deal on Fourth Avenue.

THE LOCATION STILL IN THE DARK.

Numerous Wise and Unwise Guesses Made,

but None of Them Hit the Bull's Eye.

AN BASY WAY TO ACQUIRE HOMES The publication in THE DISPATCH of resterday of the sale of a business property on Fourth avenue, "not two squares from the Dollar Savings Bank," at the rate of \$4,400 a front foot, furnished occasion for a great deal of talk among business men of all classes, and many inquiries were made its location. A number of guesses were hazarded, but none of them hit the

An evening paper ventured the assertion that it was the McCombs property, corner of Fourth avenue and Wood street, and that the Tradesmen's National Bank was the purchaser. While the location of the property cannot be given for a day or two, owing to some legal formalities which have not been adjusted, it can be stated in the most positive terms that neither of the above statements is correct. It is not the McCombs property, and the Tradesmen's National Selection of the above statements is correct. It is not the McCombs property, and the Tradesmen's National Selection of the above statements is correct. It is not the McCombs property, and the Tradesmen's National Selection of the above statements is correct. It is not the McCombs property, and the Tradesmen's National Selection of the above statements is correct. It is not the McCombs property, and the Tradesmen's National Selection of the above statements is correct. It is not the McCombs property and the Tradesmen's National Selection of the property of t Combs property, and the Tradesmen's National is not the purchaser. The sale was bons fide, and the price realized was, as stated in THE DISPATCH, the highest on record in

An institution which would advance loans to persons of small means to buy homes and enable them to pay for them in small installments has long been needed in Pittsburg. After a great deal of effort W. A. Herron & Sons have supplied the vacuum by making an arrange-ment with the United Security Life Insurance and Trust Company, whereby the purchaser, by paying down 20 or 25 per cent of the purchase price of the property, can arrange to advance the remainder of the money and pay cash for his property, and thus buy at the lowest price and pay back the money advanced in 5, 10, 15 or 20 years in monthly or quarterly payments of small sums, and at the same time have his life insured. If the purchaser should die before full payment is made the debt would be canceled, leaving the property clear to his widow or heirs. It is understood that the new company will have close relations with the Fidelity Title and Trust Company, several of the leading stock-holders of the latter being interested in it. This alone will serve to recommend the new venture in the highest manner to the local public, and

... Ohlo, recently read a paper on the rock pres-sure of natural gas, of which the following is the concluding paragraph: "There is no danger that the great gas reservoirs of to-day will 'cave in' or 'blow up' after the gas is withdrawn from them. The gas will not leave the porous rook until the salt water obliges it to by driv-ing it and taking its place. The doctrins lays the ax at the root of all the optimistic theories which blossom out in every district where natural gas is discovered, and especially Steel Slabs—The dealings moderate, but mak ers asking higher prices. Ordinary sizes quoted at £7 2s. 6d. f. o. b. shipping point.

Crop Ends—Only a moderate trade doing in these. Run of the mill quoted at £5 12s. 6d £25 Trenton limestone gas in Ohio is not likely to be longlived. It seems entirely probable that the term of its future duration can be expressed within the limits of a number of one digit. In considerable sections of the field the salt water is very aggressive. It requires a salt water is very aggressive. It requires a tificates; a decrease of net stocks of 67,483; a stendily increasing pressure on the wells to decrease of gross stocks of 727,480, and an in-

have done for years past. It is not hard to ex-plain the reason of the progress of Russian oil here. It is somewhat cheaper than its older rival, and its sources of production at Baku

\$5,000 a foot front has been offered for a piece of Fifth avenue property, not very far from the postoffice. The owner acknowledges this is a high price, but thinks he can get a little more,

He may, however, accept the \$5,000 offer.

will at once give it high standing. Prof. Edward Orton, State Geologist of

are simply unlimited,
"Mr. Charles Marvin, in that highly interes ing volume, "The Region of Eternal Fire," writing of the oll supply at Baku, which he terms "the real base of Russian operations against India," and, contrasting the resources of the Russian with those of the American oil supply, says that he saw 460 wells around Bake, all at different depths, and therefore appar-ently springing from independent reservoirs. Some of these wells varied in depth from 296 to 580 feet, while one well which had been worked for generations was only 70 feet below the surface. The famous Droobja fountain well, spouting oil 300 feet high at the rate of 2,000,000 gallons per diem, came from a depth of 574 feet, which shows the enormous natural forces which must have been at work below, while all around were small wells of 200 feet deep, throwing up their spouts of the valuable oil quite unaffected by the giant well or Droob-ja. Many of the pumpings had been worked from remote times without any apparent dimi-nution of their resources. The whole peninsula

Oil Markets. of Apsheron is honeycombed with thousands of oil wells, one of which had given 1,500,000 barrela, and yet the pumps were drawing the oil as freely as when it was first tapped years ago. "The wells in America are much deeper, and a man thinks nothing of boring 1,000 feet for oil, but 300 feet appears to be the average in the Baku region. In 1883 two flowing wells at Baku threw up 30,000,000 gallons apiece of oil in Baku threw up 30,000,000 gallons apiece of cill in two months, and they were finally plugged to 'cork up' for future use. Nobel Brothers, the \$1.05\%; highest, \$1.05\%; lowest, \$1.03\%; closed, \$1.06\%; sales, \$17,000 barrels; no clearances reported; charters, \$2,778 barrels; shipments, \$8, barrels; runs, \$4.856 barrels. "cork up" for future use. Nobel Brothers, the Russian oil kings and rivals of the Devoes, have l4 such gigantic reservoirs corked up, be-cause the crude petrolepm will not fetch more than a few pence a ton at Baku, and the deep-est of these basins is only 800 feet from the sur-face, while in the Bradford region in America there are numbers of wells 2,000 or 2,000 feet

A COMPORTABLE CONDITION.

Money Market in Good Shape and Work ing Toward Greater Ease. A decrease in the volume of checking was about the only item of interest in local banking circles yesterday. This was not due to any ma-terial falling off in general trade, but to the fact that the rush incident to annual settle-ments is about over and business moving along ments is about over and business moving along in its usual channels. The exchanges were \$2,231,596 50 and the balances \$455,112 28.

The demand for money was moderate, and rates were steady and unchanged at 6 per cent on call and 7 on time loans. One banker reported a \$5,000 loan at a fraction below 6. The indications are that the market will work easier as the season advances.

Money on call at New York yesterday was easy, ranging from 4 to 6 per cent; last loan, 4; closed offered at 4. Prims mercantile paper, 6%. Sterling exchange quiet but steady at \$4 \$2½ for 60-day bills and \$4 \$65% for demand.

Closing Bond Quotations.

Government and State bends continue firm firm and unchanged.

NEW YORK-Clearings, \$121,792,625; balances New York—Clearings, \$121,782,020; calabobs, \$4,407,292.

Boston—Clearings, \$15,692,344; balances, \$1,-80,393. Money, 22,493 per cent.
PHILAPELPHIA—Clearings, \$11,257,663; balances, \$1,726,528.

Baltimore—Clearings, \$2,361,274; balances, \$221,003. PARIS-Three per cent rentes, 87f 65c for PARIS—Three per cent rentes, 87f 65c for the account.

BERLIN—The statement of the Imperial Bank of Germany shows an increase in specie of 7.880,000 marks.

CHICAGO—Clearings, \$11,432,000. New York Exchange par. Bankers continue to quote money steady at 6 per cent on call and 7@8 per cent on time.

A SPURT IN OIL. The Market Boosted by Pipe Line Reports and Eastern Bulla. Several influences combined to make a lively oil market yesterday. The effect of the pipe line report had been discounted, but its builish features had their legitimate effect upon prices. It shows a decrease of \$953,000 of cer-

Washington County Oll Output. ISPECIAL TELEGRAM TO THE DISPATCE. WASHINGTON, PA., January 10 .- There were no new developments in the oil field to-day, Work is still progressing at the Moninger wild-cat. Fergus & Co.'s McQuay No. 2 is completed in the fifth sand, but got no increase. The output of all the wells in the Washington field is estimated at about 10,000 barrels. The runs of the Southwest Pennsylvania Pipe Line Company for the first seven days in January aggregated 94,790 barrels.

'CHANGES IN WALL STREET Sugar Trust and Reading Monopolize the Attention of Stock Speculators-The

Former Renches Low Water Mark-Bonds Stendy. NEW YORK, January 10.-In the stock ma ket to-day, and especially during the forenoon, the entire interest in the speculation was mo-nopolized by Sugar Refineries and Reading stocks, the remainder even of the coal stocks being duli and uninteresting, with extremely narrow fluctuations. During the day the trad-ing in the leaders stacked off, and many of the specialties were taken in hand and material advances were established on a much larger business, which extended to the general list.

The opening of sugar was made at last night's price of 1560 per cent, on the announcement that an injunction had been obtained against that an injunction had been obtained against the payment of any more dividends or the conveyance of any of its property to any other corporation, and the lowest price ever reached was touched. The treasurer of the Trust soon came out with a statement that the late assertious in regard to the comparative output of the Trust reflueries and the independent ones was erroneous; that there were no funds as present in the hands of the trustees, and that there was no intention of conveying any property, while the injunction was only temporary. The traders thereupon proceeded to over their

there was no intention of conveying any property, while the injunction was only temporary. The traders thereupon proceeded to cover their shorts upon the ground that all the bad news was out, and in the afternoon when the market assumed a more healthy appearance, it railed 3½ per cent.

A drive was made at Reading in the early dealings, but its price was forced off a fraction only, and some of the large foreign houses appeared with buying orders, which gradually lifted its price above 37. The demand resulted in more activity for the stock, though there was plenty of it for sale. The declines in the incomes failed to have any appreciable effect upon it, however. Among the specialities Chicago Gas, Texas Land Trust, Toledo, Ann Arbor and North Michigan, Wheeling and Lake Erle preferred and, at times, Wiscousia Central and Colorado Coal were prominent for strength, as was also Consolidated Gas on the rumor that a large block of the stock had been taken off the street by an investment interest. In the unlisted department Illinois Coal and Coke continued its steady advance upon a moderate business. The generally recovered these losses in the afternoon, and the close was quiet but firm at fractions better than the opening figures. Money was easy, but showed a stiffening tendency. The list to-night is generally higher, Delaware and Hudson which became prominent in the last bour rose 2½. Texas Land Trust 1½, Wheeling and Lake Erie preferred 1½ Chicago Gas 1½, and Toledo, Ann Arbor and North Michigan and Sugar refineries each 1 per cent.

and North Michigan and Sugar refineries each 1 per cent.

Railroad bonds were less active, with a generally steady tone, while among the active bonds there was considerable irregularity, the Reading and Kansas and Texas issues being specially weak, while others showed marked improvement in many cases. The business done reached \$1,595,000, of which Wisconsm Central incomes contributed \$109,000. New Jersey Midlands rose to 115, Reading firsts lost 1%, the seconds 2 at 42%, and Ohio Southern incomes 4, at 55. The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISPATCH by WHITNEY & STEPHENSON, oldest Pittsburg mem-

Business Notes. THE fire losses in the United States in 1889 aggregated \$181,949,250. THE Safe Deposit Company, of Pittsburg, announces a semi-annual dividend of 3 per

THE Cash Insurance Company has made six months' dividend of 4 per cent, and the Ben Franklin Insurance Company one of 3 per THE Pittsburg and Lake Erie will soon begin the construction of six new iron bridges to take the places of the light ones now in use between Eric and Union City.

THE Keystone Bridge Company has some important contracts on hand. It has recently shipped a roundhouse for a South American company to be erected at Rio Janeiro. It is reported that the Pennsylvania Railroad proposes to consolidate the Panhandle, the Little Miami, the Chicago and Pittsburg, and Louisville Short Line roads. The proposition is to consolidate with a capital stock of \$75,000 cm.

W. C. BERINGER, of C. Beringer & Son, real estate agents, Fourth avenue, returned yester-day from a three weeks' trip to New Mexico. He reports things looking well in that part of the country, mining being active and the cattle trade picking up. THE present daily output of the Cambria I'ms present daily output of the Cambria from Company's works, at Johnstown, which were so badly damaged by the flood, is as fol-lows: Steel works, 900 tons; blooming mill, 1,100: Gautier steel department, 150 tons. The latter is only partially rebuilt.

St. Louis-Receipts of wool 6,412 pounds Market unchanged. NEW YORK—Wool quiet and steady: domestic leece, 33638c; pulled, 27638c; Texas, 14628c.

New York, January 10.—Business in dry-goods continued fair. The features of the market are unchanged and steady. Improving business is looked for under favorable weather,

the time of Christ, will appear in TO-MOR-ROW'S 20-PAGE ISSUE. Read the opening

MARKETS BY WIRE.

Vim in the Wheat Pit and Prices Break Down-Hog Products Active and

Strong at Medium Figures. CHICAGO-The wheat market was quiet, and CHICAGO—The wheat market was quiet, and there was no special feature to note. Fluctuations were confined within narrow limits, and prices did not vary particularly from yesterday's closing. The opening was about the same as the close of yesterday, eased 6ff ½c, improved ½6%c, recoded again to inside figures, and closed ½c lower than yesterday. The offerings were fair, and some selling was done on New Yest account. The undertone done on New York account. The undertone was apparently weak, due to a lack of confidence on the part of trading.

Corn was traded in to a fair extent, the mar-

ket opening firm on the damp weather and small receipts, but later ruled easier on the

market was very dull; creamery, 16@25c; dairy, 12@21c. Eggs very weak at 18@15c. market was very dull; creamery, 16@25c; dairy, 12@21c. Eggs very weak at 18@15c.

Wool Markets.

Weel Markets.

Boston — There has been a very good demand for wool and a number of buyers have been on the market, but the sales aggregate only a fair amount—2,445,000 pounds of all kinds. Buyers are not yet just ready to purchase. The principal sales were of territory for which the market was rather weak, particularly for Eastern Oregon. Sales of these wools have been made on the secure basis of 57c for fine and fine medium, and the best territory does not bring much more than that. Medium wools range from 50c to 53c. In fine delaine fleeces there is a firm feeling, and there have been considerable sales, including Ohio at 556 Sc, and Michigan at 34635c. No. 1 combing wools searce and firm. Unwassed combing sells at 27629c. Fine washed fleeces quiet but held firm. Pulled wools dnil. In foreign wool there have been sales of importance.

La France roses, \$3 00 per dozen; Bride roses La France roses, \$3 00 per dozen; Bride roses, \$2 50 per dozen; Peries, \$1 50 per dozen; De Wattville roses, \$2 50 per dozen; Papa Gontier roses, \$1 25 per dozen; Nipheton, \$1 50 per dozen; Bennetts, \$2 50 per dozen; American Beauty, \$10 per dozen; Germeta, \$2 50 per dozen; Carnations, 50c a dozen; Maiden Hair fern, 50c per dozen; chrysanthemums, \$1 00 to \$3 00 per dozen; violets, \$1 50 to \$2 00 a dozen; hyacinths, \$1 00 a dozen;

And One is a Constable, Too. And one is a Constable, Ton.

Alderman Gripp yesterday committeed a Chartiers Constable named John F. Clishorn, charged by his wife with desertion, drunkenness and eruelty to his children. The same magistrate will hear the case of John C. Morton, colored, who is charged by his wife. Flora, with desertion, and both hearings will be on Monday next.

THE Iron City Brewing Co.'s ale and porter are the most popular seasonable drinks.

DOMESTIC MARKETS.

Country Butter Slow--Poultry Firm --- Eggs Drifting Down.

CEREALS STILL IN BUYERS' FAVOR.

New Corn Sacrificed Because of Its Poor Keeping Quality.

SUGARS ADVANCED --- COFFEE QUIET

Country Produce-Jobbing Prices. Rainy weather is still adverse to trade. Country butter is very alow. Choice creamery is fairly steady. There is a great scarcity of poul-try, and markets show an upward drift. The egg market gives no signs of revival from the late depression, and unless cold weather comes to the rescue of trade, no improvement can be looked for. Large quantities of eggs are com-ing in from the South and West, where hens are getting in the South and West, where hens are getting in their work much ahead of their average time. Cold storage and pickled eggs, which are usually in good demand at this sea-son of the year, are hard to give away. The open winter has spoiled a multitude of plans for gain in produce lines, and there is now no hope of recovering lost ground, no matter what the weather bureau may do for trade. BUTTER—Creamery, Elgin, 29@30c; Ohio do, 274@36c; fresh dairy packed, 24@26c; country
