No more desperate battle has been waged of late years between capital and labor than that which began to show signs of a victorious end in Woodbury, N. J., yesterday. A. millionaire patent medicine man has turned the scales by discharging every non-unionist from his bottle factory. All Jersey's glass blowers, and those in Eastern Pennsylvania, A. Yes. "Do you still hold that opinion of yourself?" "Indeed I do." "Did you talk to her on December 17 of love?" "Undoubtedly." "Did you ask her to be your wife?" "No, sir; nothing of the sort." "You told her that you were an honorable man, and loved her?" "I did." have had a hand in this general Eastern strike. The details showing how close the strikers have lived to the hunger and privation line are very interesting-pathetically so in one or two particulars.

OFFECIAL TELEGRAM TO THE DISPATCH.1 CAMDEN, N. J., January 17 .- Colonel G. G. Green, the millionaire patent medicine maker of Woodbury, N. J., to-day gave very important and decidedly significant orders for the withdrawal of all nonunion glassblowers from his factories, and union blowers will go to work to-morrow. Colonel Green accedes to all the demands of the blowers. Most of the blowers who formerly worked in these factories have gone to Birmingham, Ala., and their places will be taken by men from Glassboro, Clayton, and other places. This move, it is thought, will have considerable weight in straightening out the difficulties between the manufacturers and blowers.

The flint glassblowers who went out at Whitney Bros' works, Glassboro, in sympathy with green glassblowers, have been employed by Whitall, Tatum & Co., Millville, and will go to work Monday.

It had been rumored that 16 flint blowers from Pittsburg were coming to take their places. At Whitney's this is denied, as there is said to be not one non-union flint Ingersoll and Mr. Dougherty will have it blower in the country.

The next day those who had not seen it were informed, those who had not seen it were informed, and a gruesome sigh went up from the entire house at the relief. As may be imagined the corpse was hidden in the packing case, and in the silence of the night whe all the guests and employes had gone to ds Ford, his brother and the porter took the body from the box and transferred it to Ford's bedroom, locked the door and

left it there safe from discovery. The balance of that night Ford paced up and down the corirdor, fearful that someon by some means or for some purpose might
